Introduction: Quit Your 9-to-5 Job and  
Become a Solopreneur 1. Your phone's

alarm goes off. 2. It's time to get up,  
shower, grab a bagel and coffee on the  
way to work, and drive there. 3. You  
appear to be on autopilot every day.

There's no need to think about it; just do  
it. For many people, a traditional 9-5 job,  
while somewhat secure, is not what they  
expected when they signed up for it. You  
may only have two weeks of vacation

per year; the pay is pitiful; the people are a bunch of gossipers; and the work - well, let's just say you don't really need your degree to do what you're doing. People, particularly Millennials, are increasingly abandoning full-time employment. Climbing to the top of a company is no longer a common career path. Millennials, on the other hand, frequently see eBay, starting your own company, or growing your own business as the new norm. And the data backs this up: eBay is on the rise. eBay is one of the most active online marketplaces, with a multibillion-dollar turnover and over 180 million users. They were only of the workforce seven years ago. And it's only going to get worse as more people realize the freedom that being a solopreneur provides. If having \*no\* boss

is what you're looking for, here's how to get it right away. There are some people who despise their 9-5 jobs. When they describe their job, it sounds like a prison sentence, complete with roadside manual labor and the old' shackle and chains. Their job makes them a prisoner, which they despise. Others adore their 9-to-5 jobs. They go to work and enjoy the fact that they have no ownership in the company and can leave at any time without incurring any liability. I've had several jobs. I spent the first half of my twenties starting seven businesses, six of which failed miserably and one of which became an overnight success (that I later walked away from). I then got a corporate job in a bank and had to wear a suit to work. The lobby resembled a hotel, and the language

used was never profane. My next position was a cross between a startup and a corporate, with a focus on people management. You're trapped. As each day passes, you can't wait for the weekend to be over, so you don't have to think about work. No more bosses breathing down your neck, no more pre-planned breaks, and certainly no more long commutes. Weekends are your life. You know you don't want this job, but you're stuck with it. You want out but don't know how, whether you want to quit your job to travel more, try something new, or if you're just bored or unhappy with what you're doing. What are you going to do? How do you leave a stable and secure job to pursue a life of hustling for work? And can you make a living from eBay? Rarely Revealed

Secrets to Making Money on eBay that Are Ideal for Complete Beginners “Do you believe you squandered an eBay opportunity? Consider again. eBay is one of the most active online marketplaces, with a multibillion-dollar turnover and over 180 million users. Its business model is so simple that you can start making money from your unwanted items in your cupboards, garage shed, or basement in as little as seven days. It's the ideal first side hustle, and this book will show you how. It's written for ambitious people who want to make money on eBay as quickly as possible. From your very first listing, you'll discover a step-by-step plan for generating consistent sales for your new business. It makes no difference whether you're selling your old items or have

discovered a fantastic product that everyone requires. You'll get a behind-the-scenes look at what it takes to make money from day one. Rarely shared shortcuts, insider knowledge, and a plethora of eBay business secrets will hasten your progress while saving you valuable time and effort. 101 Tips Buying and Selling on eBay Professional eBay buyers and sellers employ specific strategies and keys. Some of the information is drawn from my newsletter, while others are drawn from my books, The Fundamental Guide to eBay, Marketing Antiques and Collectibles on eBay, The eBay Power Seller's Guidebook, and The Wholesale Purchasing System. These titles can all be found on our website, <http://www.auction-sellers-resource.com>.

You can also sign up for our free auction vendor e-newsletter, which is another resource for the ideas in this book. Below are more tips for sellers than for buyers. Even if you only buy on eBay.com and have no desire to become a seller, I recommend you read through all the suggestions because there is a lot of information that will undoubtedly make you a much better buyer. I'm guessing it falls under the category of "walking in the shoes of someone else." The more you understand about the procedure, the more enjoyable and fulfilling ebay.com can be. If you are a vendor or are interested in becoming a vendor, please visit our website. Even if you do not want to buy any of our academic handbooks, there are numerous free resources and excellent

educational websites that can help you improve your selling skills. I would especially encourage you to go back and read previous issues of the e-newsletters. Let's get this party started. The first point is probably the most important, and it is linked to many of the others. Consider visiting a shopping mall where each store has a bulletin board near the entrance where customers can post notes about the products or services sold in each store. Do you believe this will improve customer service? That is the purpose of the ebay.com responses system. Obtaining and maintaining a high response ranking on ebay.com is critical to your long-term success. I'm guessing it falls under the category of "walking in someone else's shoes." Just by reading and applying the easy-to-follow processes in Making Money Through Buy-to-Let in South Africa, you will realise that ordinary people can become extraordinary. This book explains why buy-to-let property investment is the only sensible

opportunity to earn an inflation-linked, passive income for the rest of your life. It gives ordinary South Africans the hope that they might enjoy a financially secure retirement by building a substantial property portfolio, either when they start at a very young age or by supplementing their lifetime savings or pension pay-out at a later stage. Making Money Through Buy-to-Let in South Africa addresses all the questions would-be property investors would ask, including how to establish legal entities; determine which properties have the best return on investment; leverage other people's money and use very little of their own; obtain finance and register a bond; manage the transfer process; and select and manage the best tenants. Making Money Through Buy-to-Let in

South Africa is written for the ordinary person, in everyday language, and guides you step by step through the entire process of property investment so that you, too, can become financially independent.

This book is a companion volume to the well-known earlier work of the author, "Kingdom Wealth: The Power to Get It" (available from [www.amazon.com](http://www.amazon.com), [www.BarnesandNoble.com](http://www.BarnesandNoble.com), [www.trafford.com/07-2268](http://www.trafford.com/07-2268) and other online sources). It is pragmatic and applicable to everyday living, especially appealing to those who consider themselves citizens of the Kingdom of God and radical enough to search for treasures under the biblical sands. In

Isaiah 55:1, God the Father makes an ecstatic and passionate call to the thirsty, the desperate and the daring to come to His waters and buy without money. It is indeed an invitation to a business relationship, for the expression "waters", in this context, carries a commerce connotation, akin to the waterfront, the docks or port, the site of the most voluminous trade in any progressive economy. We are challenged to come and cast our bread on the waters and see it return in multiple dimensions within a few days (Ecclesiastes 11:1). This efficient and reliable Kingdom economic model is far superior to Wall Street's debt-based system or any other earth-based investment scheme; it is recession-proof, employing currencies much higher than

money. Study this book and prove its immense value yourself. Get ready for true wealth.

For the one-semester survey of

economics course, Mankiw now provides an excellent resource for students who are seeing economics for the first time. His two-semester version of the text has received such praise as "perhaps the best ever" textbook in economic principles. Its no wonder Mankiw's prize project has quickly become one of the most successful books ever to be published in the college marketplace. The author's conversational writing style is superb for presenting the politics and science of economic theories to tomorrow's decision-makers. Because Mankiw wrote it for the students, the book stands out among all other texts by intriguing students to apply an economic way of thinking in their daily lives.

This book is designed to be short and sweet so that everyone can read through it quickly and remember the principles easily and quickly so as to be able to apply them in their daily lives. How many times have you bought a book but left it on the shelf because it has way too many pages? I myself have bought two

bookcases of books, many of which were left unread. This book is designed for you to be able to finish reading quickly so everyone can start applying these basic principles of happiness. When read thoroughly, these principles can be comprehended quickly. When applied, they can be very effective in serving their purpose. It is my joy and my hope that everyone will apply these principles and help each other and everyone around them lead a happy, loving, and blessed life. This book is an antidote for bottled-up anger, suppressed depression, and stifled expression of ones emotions. It is the ultimate solution that I hope will be much more effective and better than any drug or any gun-control measures (even though that is necessary too), far better than any

depression pills one can take. It solves the root of the problem from the inside out, clearing bottled-up anger, uncontrollable depression, and stifled emotions. It is a very effective solution to marital problems in prevention of a pending divorce and as a secret to a happy family. These principles, when applied to our daily lives, could be the ultimate solutions for our social problems that cost the society much more money and lives than one can even think of. Without them, we are all robbing ourselves of the joy of livelihood, the ultimate living in this happy world. If applied, this world could be a much happier place to live in the ultimate goal for everyone, the rich and the everyday person who is always striving to succeed. If applied, we will not be

wasting our money and time on taking drugs or drinking alcohol just to drown our sorrows so we can feel better for that small moment of time drugs and alcohol can bring. My antidote is natural and free; it will save you a lot of money and bring you a lot of happiness in many years to come. Joy and happiness will soon be a part of your family life and part of your daily living so that not many can comprehend how one can even achieve this kind of happiness without money, drugs, or alcohol. This book brings everlasting joy and happiness from the inside out, hence helping to solve our social problems such as gun killings, murder due to anger, suicides caused by depression, and also marital problems and divorces.
