 Strengthen the qualities in your Taoist astrological chart with Inner Alchemy techniques and Universal Healing Tao exercises • Describes how to interpret your Taoist astrology birth chart and discover the unique combination of Five Elements underlying your personality, health, and destiny • Reveals how to strengthen your birth chi with Inner Alchemy techniques and Universal Healing Tao exercises • Explains how to calculate your wealth phase, organ health, and luck cycles Each of us is born with a unique combination of heavenly and earthly energies dictated by the stars overhead

and the season on Earth at the moment you take your first breath. Known in Taoist astrology as the Four Pillars of Destiny, this "birth chi" can be calculated using the year, month, day, and time of your birth. Master Mantak Chia and astrologer Christine Harkness-Giles reveal how to interpret your birth chi and strengthen weaknesses within your astrological energies. They explain how each of us is ruled by one of the Five Elements--Wood, Fire, Earth, Metal, and Water--in a Yin or Yang state. For each Element and Yin or Yang combination, the authors describe personality traits, ideal career paths, and emotional and health issues. They reveal how to discover your levels of success, wealth, and power; how your astrological strengths will manifest; and how to understand your relationships with partners, friends, and family. They also

explain how to use your chart to calculate your organ health and annual luck cycles. The authors show how to use Inner Alchemy techniques, such as color therapy and feng shui, and Universal Healing Tao exercises, such as the Healing Sounds and Chi Kung, to harmonize and strengthen the inborn imbalances and weaknesses in your chart. This hands-on method of astrology allows you to take control of your health and destiny by connecting your personal energy with the energies of the cosmos.

An illuminating look at the surprising history and science of astrology, civilization's first system of algorithms, from Babylon to the present day. Humans are pattern-matching creatures, and astrology is the universe's grandest

pattern-matching game. In this refreshing work of history and analysis, data scientist Alexander Boxer examines classical texts on astrology to expose its underlying scientific and mathematical framework. Astrology, he argues, was the ancient world's most ambitious applied mathematics problem, a monumental data-analysis enterprise sustained by some of history's most brilliant minds, from Ptolemy to al-Kindi to Kepler. Thousands of years ago, astrologers became the first to stumble upon the powerful storytelling possibilities inherent in numerical data. To correlate the configurations of the cosmos with our day-to-day lives, astrologers relied upon a "scheme of heaven," or horoscope, showing the precise configuration of the planets at a particular instant in time as viewed from a particular place on Earth. Although recognized as pseudoscience today, horoscopes were once considered a cutting-edge scientific tool. Boxer teaches us how to read these esoteric charts—and appreciate the complex astronomical calculations needed to generate them—by diagramming how the heavens appeared at important moments in astrology's history, from the assassination of Julius Caesar as viewed from Rome to the Apollo 11 lunar landing as seen from the surface of the Moon. He then puts these horoscopes to the test using modern data sets and statistical science, arguing that today's data scientists do work similar to astrologers of yore. By looking back at the algorithms of ancient astrology, he suggests, we can better recognize the patterns that are timeless characteristics of our own pattern-matching tendencies. At once critical, rigorous, and far ranging, *A Scheme of Heaven* recontextualizes astrology as a vast, technological project—spanning continents and centuries—that foreshadowed our data-driven world today.

#### Alchemy and Astrology in Renaissance Prague W. W. Norton & Company

A captivating portrait of the crucible of magic, science, and religion at the court of the doomed dreamer Rudolf II in Renaissance Prague. At the end of the sixteenth century, the greatest philosophers, alchemists, astronomers, and mathematicians of the day flocked to Prague to work under the patronage of the Holy Roman Emperor Rudolf II. The *Theatre of the World* is the enchanting story of Rudolf II, an emperor more interested in the great talents and minds of his times than in the exercise of his power. Rarely leaving Prague Castle, he gathered around him a galaxy of famous figures: the Italian painter Giuseppe

Arcimboldo, the Danish astronomer Tycho Brahe, the German mathematician Johannes Kepler, and the English magus John Dee. Entranced, like Hamlet, by the new Renaissance learning, Rudolf found it nearly impossible to make decisions. He faced the threats of religious discord and the Ottoman Empire, along with deepening melancholy and an ambitious younger brother. As a result, he lost his empire and nearly his sanity, but he enabled Prague to enjoy a golden age of peace and creativity before Europe was engulfed in the Thirty Years War. "*The Theatre of the World*" is a beguiling and dramatic human story filled with angels and devils, high art and low cunning, talismans and stars. It offers a captivating perspective on a pivotal moment in the history of Western Civilization. "From the Hardcover edition."

- Shows how the astrological cycle around the signs of the zodiac represents the alchemical transformation of consciousness and chakra awakening
- Expands the meaning of each astrological sign based on its association with the chakras and the alchemical transmutation cycle from lead to gold
- Offers sample chart analyses to show how you can discover your spiritual challenges and opportunities

Demonstrating the connections between astrology, alchemy, and yoga, Frederick Baker reveals how he discovered their correspondences by rotating the natural order of the zodiac, placing Aquarius and Capricorn at the bottom and Cancer and Leo at the top, to reflect the alchemical order of metals from lead to gold. *is Alchemical Tantric Arrangement* then revealed a corresponding alchemical order of the seven traditional planets--from Saturn (lead) to Sun (gold)--and also aligned with the seven chakras and the three major energy channels (nadis) of the Tantric yoga system, including the channel through which Kundalini energy rises from root chakra to crown chakra. Baker uses these rediscovered correspondences to expand the meaning of each astrological sign based on their association with the chakras, the alchemical transmutation cycle from lead to gold, and the wisdom of ancient myth. He also offers expanded meanings for each chakra in association with the twelve signs of the zodiac and their ruling planets as well as new insights into the influence of Chiron and Eris. The author provides a complete analysis of his own birth chart as well as *Alchemical Tantric Astrology* insights into significant events over the past few decades,

including the intense changes of 2020. Baker's revolutionary new take on our individual spiritual journeys shows how the astrological cycle around the signs of the zodiac represents the alchemical and Tantric transformation of consciousness and the natural path of spiritual unfolding. *Astrology and Alchemy in Early Modern Europe* Red Wheel/Weiser  
For the first time the secret higher Spirit and lower ego archetypes of all 12 signs of the zodiac are revealed, taking the reader on a journey of discovery from the base lead weight of the ego to the golden light of the Soul.

*Light on the Path - A Study Guide for Qabala, Alchemy, and Astrology* from the Institute for Hermetic Studies is a self-paced program for the study and practice of Western esotericism. Using Hermetic Qabala as its core, individuals or groups can use this program to progressively study and apply the principles of ritual magic, practical alchemy (spagyrics and mineral) and astrology (natal, horary, and mundane). Designed as a four year course of study, each "Year" is approached in twenty-four bi-weekly sessions (for groups meeting twice a month) or can be done at your own pace. Each "Year" has two sets of twenty-five questions which can be used as quizzes or catechisms to test one's level of proficiency for review or before moving on to new material. Standard off-the-shelf sources are suggested for use through-out the course, making it easy to obtain the needed references. In addition, students are given: Instructions on How to Use this Manual, Articles on studying the tarot, the essential Hermetic attitude for success, and the Path of Awakening. Suggestions for working with various schools as well as non-ritualistic approaches. *A Concise Explanation of the Stages of the Path of Return* - specifically written for this manual, outlining the stages of the Path and how to self-assess your progress on both an exoteric and esoteric level. *Extensive Ritual Protocols* to help guide groups working in a ritual setting. *Some Advice to Group Leaders and Members* - a summary of key points for running an effective spiritual study group - regardless of tradition or approach. *Sample Ritual of Jupiter* originally written and performed in the Great Hall of the Villa Saraceno, Vicenza, Italy for the Palladian Academy. *Extensive monograph* entitled,

Introduction to Hermeticism: Its Theory and Practice  
The Liturgy of Hermes - In Praise of the Lord of Light, a ritual for solitary or group practice, used primarily as a hermetic retreat for encountering the spiritual focal point of the Hermetic traditions - the mind of Thoth-Hermes itself.

Here in one slender volume is a basic introduction to Chinese alchemy - a tradition that dates back 5,000 years. Chinese alchemy, largely associated with Taoism, has a recorded history of more than 2,000 years, but traditionally it goes back even further to nearly 3000 BC and the time of the Yellow Emperor. While Western alchemy was concerned with the search for spiritual and material gold, classic Taoist alchemy was a mystical quest for immortality with its aim being union with the Absolute. Jean Cooper describes the history and development of Taoist alchemy, compares it to similar traditions in India and Turkistan, and gives it context by contrasting it with the rationale of the Western hermetic tradition. As she writes in her concluding chapter: The whole work of alchemy is summed up in the phrase 'To make of the body a spirit and of the spirit a body'. . . . The goal of the Taoist alchemist-mystic was transformation, or perhaps more correctly, transfiguration, of the whole body until it ceases to 'be' and is absorbed into and becomes the Tao. This is an essential guide for anyone interested in Chinese legend and lore, Chinese magic and medicine, and Taoism.

"We are all alchemists with amnesia" is a line from this book that encapsulates the theme of the fictional, partly channelled story. Liza (28) goes through an inner crisis. She's consumed by heartbreak, finds her work unfulfilling and feels like she is sleepwalking through life. That's why when she receives a mysterious invitation to a Spiritual Alchemy seminar, she accepts the challenge, and sets out on a soul-searching journey. She begins to meet with her secretive, ethereal teacher and twelve other men, each representing one of the twelve signs of the zodiac. While conversing with them, she learns about alchemy, astrology and mainly about what it means to grow into her true self. This novel was partly based on a channelled conversation with angel Gabriel.

An alchemical approach seeks to release the latent potential which resides within the individual and within the cosmos. There was never any question that the work of the alchemists depended upon a knowledge of the planets and their cycles, since alchemical transformations could only be successful if carried out at the astrologically appropriate times. This book has been steadily fermenting and evolving for over twenty-five years, and as such it represents a true alchemical process. It

has gone from being an idea to a passion, and then a project and now it is a fully-fledged book. Learn firstly about the mystical process of alchemy, and then discover how it deepens our understanding of the transits of the outer planets to the natal chart. A fascinating book that deserves a place in every astrologer's library. Clare Martin has an MA in Integrative Psychotherapy and has been a practising astrologer and teacher since 1990, working in London for the Faculty of Astrological Studies, of which she was President for nine years, and at the Centre for Psychological Astrology. Her personal approach to astrological interpretation is fundamentally Jungian, and evolved during a long period of studying with a variety of teachers in the western mystery traditions. Clare now lives in Dorset, where she continues her writing and consultancy work and is a tutor on the Mercury Internet School of Psychological Astrology.

Rudolf II-Habsburg heir, Holy Roman Emperor, king of Hungary, Germany, and the Romans-is one of history's great characters, and yet he remains largely an unknown figure. His reign (1576-1612) roughly mirrored that of Queen Elizabeth I of England, and while her famous court is widely recognized as a sixteenth century Who's Who, Rudolf 's collection of mathematicians, alchemists, artists, philosophers and astronomers-among them the greatest and most subversive minds of the time-was no less prestigious and perhaps even more influential. Driven to understand the deepest secrets of nature and the riddle of existence, Rudolf invited to his court an endless stream of genius-Danish astronomer Tycho Brahe, German mathematician Johannes Kepler, English magus John Dee, Francis Bacon, and mannerist painter Giuseppe Archimboldo among many others. Prague became the artistic and scientific center of the known world-an island of intellectual tolerance between Catholicism, Protestantism, and Islam. Combining the wonders and architectural beauty of sixteenth century Prague with the larger than-life characters of Rudolf 's court, Peter Marshall provides an exciting new perspective on the pivotal moment of transition between medieval and modern, when the foundation was laid for the Scientific Revolution and the Enlightenment.

In this first of three volumes, the basic building blocks of astrological language are presented, not in the dry, 'cookbook' manner which mars so many astrology texts, but in the lively and relaxed format of the classroom. Questions from students punctuate the teaching, making the material accessible, fluent and immediately applicable to everyday life.

When we use astrology, of course we want to look ahead and anticipate the future. The easiest and most common method is transits—a comparison of where the planets are in the zodiac now, or at any time in the future, and how they relate to our birth chart. But should we wait for our transits to "happen," (and worry if they seem challenging)? No! With this author's positive approach, experience and practical advice, we can learn how to direct our transits! In her thorough explanation of transit cycles, Joan Negus emphasizes that transits highlight opportunities. She offers suggestions and insights gained through years of observation and client counseling about how we can consciously plan how to make the most of our "good" transits, while transmuting those challenging "base" transits into golden opportunities!
