This volume integrates and makes sense of the growing body of theoretical and empirical research conducted on purpose across the lifespan. It opens with a comprehensive yet detailed discussion of the definitions of purpose most commonly used in studies on the topic. In addition to defining the construct, the author also discusses its philosophical roots and

distinguishes it from related concepts, including meaning, goals, and ultimate concerns. This volume discusses the disparate perspectives on the construct and addresses the tendency to position purpose in the broader frame of positive psychology. It synthesizes distinct strands of research on purpose across the lifespan, it explores studies on the daily and longer-term experience of a purposeful existence, and it delves deeply into the wide range of measurement tools that have been used to assess the purpose construct. Further, it examines the prevalence and forms of purpose among diverse groups of youth and discusses the developmental trajectory of the construct. Other topics discussed include the central role of purpose in supporting optimal well-being and positive youth development. The book closes with empirically-supported steps adults, educators, and mentors can take to effectively and intentionally foster purpose among young people and makes recommendations for future research on the topic.

Trying to meet everyone else's expectations about the type of role you should play—whether in your job, your family, or society—can leave you constantly striving but ultimately dissatisfied. This system of self-discovery encompasses five distinct soul-based profiles. Which one are you? - Creative Idealists are highly imaginative thinkers who sometimes self-isolate, feeling safer staying in their inner mental world than engaging with others. - Emotional Intelligence Specialists are empathic, sensitive, and compassionate but sometimes struggle with being overwhelmed and feeling unloved. - Team Players are loyal supporters who selflessly put others' needs before their own, but they can fail to recognize their own strengths and needs. - Charismatic Leader-Charmers are energetic, dynamic, and capable, but they can become distrustful, self-centered, and even aggressive, in their relationships. - Knowledgeable Achievers are driven, self-disciplined, and organized big-picture thinkers. They sometimes lose touch with

their emotions and push themselves too hard, becoming overly critical and judgmental. Once you identify your primary life-purpose profile, as well the other profiles you may inhabit, you can move toward your unique calling—embracing your strengths and rejecting unhealthy behaviors. Discover Your Purpose also helps you to better understand and relate to others through their profiles. "Bridgid's presentation as a Traumatic Brain Injury (TBI) survivor is profound, miraculous and engaging. Her voice of expression paints the terrain of every emotion that one goes through when life presents a major shift in who you are, what you do and how you navigate through life...one breath at a time. Bridgid threads the lively and interactive presentation with truth, tears, laughter...authenticity. One walks away from her presentation marveling with awe at how strong and amazing she is to have survived such an intense journey of healing. Perhaps we all are touched by an angel when you hear her story."-Dr. Jane F. Bourgeois "Bridgid, you are a miracle." I remember as your physician telling you these words in our clinic as I reviewed your brain CT scan from your initial head injury. Although you are not alone in suffering a significant traumatic head injury, I believe that you are unique in your positive approach to your recovery, your dedication to sharing your experience, and your commitment to helping and motivating others to overcome their own life obstacles and adversity. As a physician I deeply and sincerely admire your efforts and your positive attitude in dealing with a truly difficult and challenging personal experience. I am always pleased to hear of the many positive life changes that have occurred for you as you continue on your journey towards recovery. I also always get a kick out of your ability to share your experiences with the medical system and in our clinic when you speak publically. I wish you good luck and great success on your book, Discovering a Life's Purpose and I hope that your message of hope, recovery, and optimism reaches as many people as possible so that they can benefit from your experience, wisdom, and wit. Although we sometimes are witness to events that are miraculous, sometimes the real miracles are people like you."-Dr. Andrew Lee
