The textbook is available in the following split options: WESTERN CIVILIZATION: A BRIEF HISTORY, 9th EDITION COMPLETE, VOLUME I: TO 1715, and VOLUME II: SINCE 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A Carnival of Revolution Penguin

Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

World History in Documents State and Revolution in Finland
 A resource book for teachers of world history at all levels. The

text contains individual sections on art, gender, religion, philosophy, literature, trade and technology. Lesson plans, reading and multi-media recommendations and suggestions for classroom activities are also provided.

Three Classic Essays on How to Change the World
Routledge

The year 1989 marked a turning point in world history, a watershed year of unprecedented drama and political significance. No matter how one looks at those events—as the fall of communism, the democratization of Eastern Europe, or the end of the cold war—it is important to understand how the world travelled the distance of time, space, and ideology to arrive at the Berlin Wall and tear it down. David Mason provides that understanding in a concise synthesis of history, politics, economics, sociology, literature, philosophy, and popular, as well as traditional, culture. He shows how all these elements combined to yield the year that effectively closed the twentieth century—and promised to launch the new century on a hopeful note. Starting with Poland's elections in June 1989, the countries of then-communist Eastern Europe one by one revolutionized their governments and their politics; Hungary opened its borders to the West, East Germany rushed through, Czechoslovakia elected Vaclav Havel president, Bulgaria changed both party and leadership, and Romania executed Ceausescu. Although Gorbachev enabled many of these changes, he did not cause them. The illumination of the complex symbiosis between dynamics in Eastern Europe and the Soviet Union is one of the greatest contributions this book makes. With undercurrents emphasizing the power of ideas, the spirit of youth, and the multifaceted force of culture and ethnicity, Mason takes the reader far beyond the events of change and into their impetus and outcomes. He applies theories of social movements, democratization, and economic transition with an even hand, showing the interaction of their effects not only regionally but worldwide. The concluding chapter puts the revolutions in Eastern Europe into international perspective and highlights their impact on East-West relations, security alliances, and economic integration. Mason discusses the European Community, the United States and the Soviet Union, and the Third World in relation to the new East-Central European configuration. Using delightful and provocative cartoons from Eastern European and Soviet presses, interesting photos, valuable tables of data, and illuminating figures, Mason emphasizes important points about the role of nationalism, ethnicity, public opinion, and harsh economic reality in the revolutionary process.

State and Revolution in Finland Ocean Press

This is the first history of the revolutions that toppled communism in Europe to look behind the scenes at the grassroots movements that made those revolutions happen. It looks for answers not in the salons of power brokers and famed intellectuals, not in decrepit economies—but in the whirlwind of activity that stirred so crucially, unstoppably, on the street. Melding his experience in Solidarity-era Poland with the sensibility of a historian, Padraic Kenney takes us into the hearts and minds of those revolutionaries across much of Central Europe who have since faded namelessly back into everyday life. This is a riveting story of musicians, artists, and guerrilla theater collectives subverting traditions and state power; a story of youthful social movements emerging in the 1980s in Poland, East Germany, Czechoslovakia, Hungary, and parts of Yugoslavia and the Soviet Union. Kenney argues that these movements were active well before glasnost. Some protested military or environmental policy. Others sought to revive national traditions or to help those at the margins of society. Many crossed forbidden borders to meet their counterparts in neighboring countries. They all conquered fear

and apathy to bring people out into the streets. The result was a revolution unlike any other before: nonviolent, exuberant, even light-hearted, but also with a relentless political focus—a revolution that leapt from country to country in the exciting events of 1988 and 1989. A Carnival of Revolution resounds with the atmosphere of those turbulent years: the daring of new movements, the unpredictability of street demonstrations, and the hopes and regrets of the young participants. A vivid photo-essay complements engaging prose to fully capture the drama. Based on over two hundred interviews in twelve countries, and drawing on samizdat and other writings in six languages, this is among the most insightful and compelling accounts ever published of the historical milestone that ushered in our age.

Reflections on the Revolution in France Cengage Learning
Puts world events in a context that is relevant for today's students and casual readers Updated to include the significant events from the past several years

A Divided World Cambridge University Press

From one of our leading historians, an important new history of the Greek War of Independence—the ultimate worldwide liberal cause célèbre of the age of Byron, Europe's first nationalist uprising, and the beginning of the downward spiral of the Ottoman Empire—published two hundred years after its outbreak As Mark Mazower shows us in his enthralling and definitive new account, myths about the Greek War of Independence outpaced the facts from the very beginning, and for good reason. This was an unlikely cause, against long odds, a disorganized collection of Greek patriots up against what was still one of the most storied empires in the world, the Ottomans. The revolutionaries needed all the help they could get. And they got it as Europeans and Americans embraced the idea that the heirs to ancient Greece, the wellspring of Western civilization, were fighting for their freedom against the proverbial Eastern despot, the Turkish sultan. This was Christianity versus Islam, now given urgency by new ideas about the nation-state and democracy that were shaking up the old order. Lord Byron is only the most famous of the combatants who went to Greece to fight and die—along with many more who followed events passionately and supported the cause through art, music, and humanitarian aid. To many who did go, it was a rude awakening to find that the Greeks were a far cry from their illustrious forebears, and were often hard to tell apart from the Ottomans. Mazower does full justice to the realities on the ground as a revolutionary conspiracy triggered outright rebellion, and a fraying and distracted Ottoman leadership first missed the plot and then overreacted disastrously. He shows how and why ethnic cleansing commenced almost immediately on both sides. By the time the dust settled, Greece was free, and Europe was changed forever. It was a victory for a completely new kind of politics—international in its range and affiliations, popular in its origins, romantic in sentiment, and radical in its goals. It was here on the very edge of Europe that the first successful revolution took place in which a people claimed liberty for themselves and overthrew an entire empire to attain it, transforming diplomatic norms and the direction of European politics forever, and inaugurating a new world of nation-states, the world in which we still live.

Western Civilization: A Brief History, Volume II: Since 1500 Cambridge University Press

By analysing the experience of Finland, Risto Alapuro shows how upheavals in powerful countries shape the internal politics of smaller countries. This linkage, a highly topical subject in the twenty-first century world, is concretely studied by putting the abortive Finnish revolution of 1917-18 into a long historical and a broad comparative perspective.

The 1848 Revolutions and European Political Thought

Penguin

When renowned French sociologist GUSTAVE LE BON (1841-1931), who pioneered the field of mass psychology, took a fresh, scientific look at the subject of revolution-and in particular, the French Revolution-he stripped away legend and illusion to find the core reality. In this profound and insightful work, a replica of the 1913 edition, he explores the mob mentality of revolutionaries-religious, scientific, and political-examines the motives of their leaders, and discusses how new forms of democratic belief and practice arise from popular movements. Students of history and the human mind alike will find it a fascinating read. ALSO FROM COSIMO: *Le Bon's The Crowd: A Study of the Popular Mind*

The French Revolution Cengage Learning

The roots of modern Western legal institutions and concepts go back nine centuries to the Papal Revolution, when the Western church established its political and legal unity and its independence from emperors, kings, and feudal lords. Out of this upheaval came the Western idea of integrated legal systems consciously developed over generations and centuries. Harold J. Berman describes the main features of these systems of law, including the canon law of the church, the royal law of the major kingdoms, the urban law of the newly emerging cities, feudal law, manorial law, and mercantile law. In the coexistence and competition of these systems he finds an important source of the Western belief in the supremacy of law. Written simply and dramatically, carrying a wealth of detail for the scholar but also a fascinating story for the layman, the book grapples with wideranging questions of our heritage and our future. One of its main themes is the interaction between the Western belief in legal evolution and the periodic outbreak of apocalyptic revolutionary upheavals. Berman challenges conventional nationalist approaches to legal history, which have neglected the common foundations of all Western legal systems. He also questions conventional social theory, which has paid insufficient attention to the origin of modern Western legal systems and has therefore misjudged the nature of the crisis of the legal tradition in the twentieth century.

The Greek Revolution Penguin Group

Contains pages 53 to 76 of Chapter 3 from *THE AGE OF REVOLUTION, 1789-1848*

Voyages in World History, Complete, Brief Princeton University Press

Providing a continent-wide history, this major survey covers the key political events of this turbulent period. Jonathan Sperber also looks at lives of ordinary people and considers broad social and economic developments. In particular he examines the relationships between the different revolutionary movements, showing how the French Revolution of 1789 set patterns which recurred over the following sixty years.

Teaching World History: A Resource Book Cosimo Classics

Featuring a beautiful new design, *THE EARTH AND ITS PEOPLES*, Sixth Edition, presents world history in a balanced, global framework, shifting the focus away from political centers of power. This truly global text for the world history survey course employs fundamental themes of "environment and technology" and "diversity and dominance" to explore patterns of humans' interactions with their surroundings and with each other. The authors' approach reveals how humanity continues to shape and be shaped by the environment and how dominant structures and traditions are balanced and challenged by alternate beliefs. Special emphasis is given to technological development and how it underlies all human activity. Highly acclaimed in their fields of study, the authors bring a wide array of expertise to the program. A combination of strong scholarship and detailed pedagogy gives

the book its reputation for rigor and student accessibility.

Argumentation, Compromise and Norms Savvas Learning Company

Best-selling author Jackson Spielvogel helped over one million students learn about the present by exploring the past. Spielvogel's engaging, chronological narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. *WESTERN CIVILIZATION: SINCE 1300* includes three to ten maps in each chapter and numerous excerpts from primary sources that enliven the past while introducing students to the source material of historical scholarship. Additionally, the text is lushly illustrated with photographs that add visual context. A variety of pedagogical tools, including features on relevant films and new end-of-chapter study aids, make this edition accessible to any learning style. Available in the following split options: *WESTERN CIVILIZATION, Eighth Edition* (Chapters 1-30), ISBN: 978-0-495-91324-5; Volume I: To 1715 (Chapters 1-16), ISBN: 978-1-111-34212-8; Volume II: Since 1500 (Chapters 13-30), ISBN: 978-1-111-34213-5; Volume A: To 1500 (Chapters 1-12), ISBN: 978-1-111-34214-2; Volume B: 1300 to 1815 (Chapters 11-19), ISBN: 978-1-111-34215-9; Volume C: Since 1789 (Chapters 19-30), ISBN: 978-1-111-34216-6; Title: Alternate Volume: Since 1300 (Chapters 11-30), ISBN: 978-1-111-34219-7. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Revolution In East-central Europe Berghahn Books

A student textbook designed to introduce, in an accessible manner, all the principal themes and problems of this period in European history.

Central Europe 1989 Macmillan International Higher Education

"If you are curious and open to the life around you, if you are troubled as to why, how and by whom political power is held and used, if you sense there must be good intellectual reasons for your unease, if your curiosity and openness drive you toward wishing to act with others, to 'do something,' you already have much in common with the writers of the three essays in this book." — Adrienne Rich With a preface by Adrienne Rich, *Manifesto* presents the radical vision of four famous young rebels: Marx and Engels' Communist Manifesto, Rosa Luxemburg's Reform or Revolution and Che Guevara's Socialism and Humanity.

The Complete Idiot's Guide to World History, 2nd Edition

Cambridge University Press

Mastering Modern European History traces the development of Europe from the French Revolution to the present day. Political, diplomatic and socio-economic strands are woven together and supported by a wide range of pictures, maps, graphs and questions. Documentary extracts are included throughout to encourage the reader to question the nature and value of various types of historical evidence. The second edition brings us fully up to the present day. Chapters on European Decolonisation, Communist Europe 1985-9, and European Unity and Discord have been added, and others have been substantially rewritten. An even wider range of illustrations and documentary source questions are included. The book is presented in a readable and well ordered format and is an ideal reference text for students.

A Resource Book Harvard University Press

An “elegantly argued and exuberantly narrated” (The New York Times Book Review) look at the building of social movements—from the 1600s to the present—and how current technology is undermining them “A bravura work of scholarship and reporting, featuring amazing individuals and dramatic events from seventeenth-century France to Rome, Moscow, Cairo, and contemporary Minneapolis.”—Louis Menand, author of *The Free World* We tend to think of revolutions as loud: frustrations and demands shouted in the streets. But the ideas fueling them have traditionally been conceived in much quieter spaces, in the small, secluded corners where a vanguard can whisper among themselves, imagine alternate realities, and deliberate about how

to achieve their goals. This extraordinary book is a search for those spaces, over centuries and across continents, and a warning that—in a world dominated by social media—they might soon go extinct. Gal Beckerman, an editor at The New York Times Book Review, takes us back to the seventeenth century, to the correspondence that jump-started the scientific revolution, and then forward through time to examine engines of social change: the petitions that secured the right to vote in 1830s Britain, the zines that gave voice to women’s rage in the early 1990s, and even the messaging apps used by epidemiologists fighting the pandemic in the shadow of an inept administration. In each case, Beckerman shows that our most defining social movements—from decolonization to feminism—were formed in quiet, closed networks that allowed a small group to incubate their ideas before broadcasting them widely. But Facebook and Twitter are replacing these productive, private spaces, to the detriment of activists around the world. Why did the Arab Spring fall apart? Why did Occupy Wall Street never gain traction? Has Black Lives Matter lived up to its full potential? Beckerman reveals what this new social media ecosystem lacks—everything from patience to focus—and offers a recipe for growing radical ideas again. Lyrical and profound, *The Quiet Before* looks to the past to help us imagine a different future.
