Cowboys, Armageddon, and The Truth: How a Gay Child Was Saved from Religion offers an illuminating glimpse into a child's sequestered world of abuse, homophobia, and religious extremism. Scott Terry's memoir is a compelling, poignant and occasionally humorous look into the Jehovah's Witness faith—a religion that refers to itself as The Truth—and a brave account of Terry's successful escape from a troubled past. At the age of ten, Terry had embraced the Witnesses' prediction that the world will come to an end in 1975 and was preparing for Armageddon. As an adolescent, he prayed for God to strip away his growing attraction to other young men. But by adulthood, Terry found himself no longer believing in the promised apocalypse. Through a series of adventures and misadventures, he left the Witness religion behind and became a cowboy, riding bulls in the rodeo. He overcame the hurdles of parental abuse, religious extremism, and homophobia and learned that Truth is a concept of honesty rather than false righteousness, a means to live a life

openly, for Terry as a gay man."

The Rapture Bantam

Skipping Towards Armageddon Simon and Schuster

"In 1925 a team of archaeologists was sent by famed archaeologist James Henry Breasted, the Director of the Oriental Institute of the University of Chicago, to search for the city that King Solomon built in the tenth century BCE. These excavations are rightfully famous for the light they shed on one of the most important cities in biblical times: the ancient city of Megiddo, in Israel, the site of Armageddon. The books and articles that the original participants published are still used, and debated, by archaeologists working in the region today. However, these scholarly publications provide only a small window into the daily activities of the team members and the stories behind their amazing discoveries. Using a treasure trove of other writing - including more than three decades' worth of letters, cablegrams, cards, and diaries, archaeologist and historian Eric Cline, who spent twenty years digging at Megiddo himself, brings the Chicago excavators and their discoveries to life situating them against the backdrop of the Great Depression in the United States as well as the growing troubles and tensions in British Mandate Palestine. Their story, as recounted by Cline, often reads more like melodrama than dry archaeological report and provides a unique glimpse of the internal workings of a dig in the early years of biblical archaeology. In the course of telling their story, Cline gives readers the full picture of an archaeological site from its first discoveries to its most recent excavations placing it all in the larger scheme of the rise and fall of civilizations, from the Neolithic Revolution through the Romans"--

Leave the World Behind explores how our closest bonds are reshaped—and unexpected new ones are forged—in moments of crisis. A Novel in the Safehold Series (#1) Tyndale House Publishers, Inc.

Humanity pushed its way to the stars - and encountered the Gbaba, a ruthless alien race that nearly wiped us out. Earth and her colonies are now smoldering ruins, and the few survivors have fled to

distant, Earth-like Safehold, to try to rebuild. But the Gbaba can detect the emissions of an industrial civilization, so the human rulers of Safehold have taken extraordinary measures: with mind control and hidden high technology, they've built a religion in which every Safeholdian believes, a religion designed to keep Safehold society medieval forever. 800 years pass. In a hidden chamber on Safehold, an android from the far human past awakens. This "rebirth" was set in motion centuries before, by a faction that opposed shackling humanity with a concocted religion. Via automated recordings, "Nimue" - or, rather, the android with the memories of Lieutenant Commander Nimue Alban - is told her fate: she will emerge into Safeholdian society, suitably disguised, and begin the process of provoking the technological progress which the Church of God Awaiting has worked for centuries to prevent. Nothing about this will be easy. To better deal with a medieval society, "Nimue" takes a new gender and a new name, "Merlin." His formidable powers and access to caches of hidden high technology will need to be carefully concealed. And he'll need to find a base of operations, a Safeholdian country that's just a little more freewheeling, a little less orthodox, a little more open to the new. And thus Merlin comes to Charis, a mid-sized kingdom with a talent for naval warfare. He plans to make the acquaintance of King Haarahld and Crown Prince Cayleb, and maybe, just maybe, kick off a new era of invention. Which is bound to draw the attention of the

Church...and, inevitably, lead to war. It's going to be a long, long process. And David Weber's epic Off Armageddon Reef is can't-miss sci-fi. Safehold Series 1. Off Armageddon Reef 2. In the Twinkling of an Eye / Countdown to the Earth's Last Days Tyndale House Publishers, Inc.

Poems that occupy the difficult territory of contemporary crisis with great candour and trenchant wit. Steve McOrmond's unflinching take on contemporary life, with its saturnine candour and ironic focus, may remind readers of the anti-poetry of Europeans like Zbigniew Herbert: intense, humanistic and deeply sceptical of inflationary gestures or stagy rhetoric. Shedding illusions, but equally refusing the consolations of despair, McOrmond's well-tempered satire is carried home on its own crisp music
