Controlling Diabetes Naturally with Chinese Medicine Golden Needle Wang Le-ting

More than 40 million women in the United States are now experiencing menopause, and it is affecting their sex drive, energy level, and emotions. This book explains how Chinese medicine can aid in the diagnosis, treatment, and prevention of menopausal problems, restoring balance to a woman's body. Topics covered include Chinese self-care and home remedies and information on Chinese dietary therapy, exercise, and deep relaxation.

**A Translation of Hua Tuo's Zhong Zang Jing** Blue Poppy Enterprises, Inc. At TCM colleges in China, undergraduates learn a basic repertoire of between 50 and 100 herbal formulas. This includes one or two formulas from each of 21 major categories. By learning to modify this core group of formulas with additions and subtractions, one will have a basic repertoire of formulas for most clinical occasions. This book is not meant to replace or compete with Bensky & Barolet's Chinese Herbal Medicine: Formulas & Strategies. It is meant as an outline for prioritized study and use by under-graduates and new practitioners.

*Dui Yao* Blue Poppy Enterprises, Inc. This book is a distillation of over 20 years of knowledge from two well known American practitioners' of Chinese

medicine. It is not a materia medica or a formula book. Rather it is a conversation in which the authors share both clinical and business knowledge and tips that can only be learned through years of running a practice. What is covered in this book?~ the essence of getting to the right pattern discrimination every time~how to write the best possible prescription for each patient~things to consider when deciding dosages~how to avoid the phenomenon of habituation with your herbal patients~the main toxicity issues to consider when using Chinese herbal medicine~when it is appropriate to use pills and powder extracts~how to gain better compliance when using decocted formulas~why we should avoid using the term "patent" medicine~thoughts on running a successful clinic dispensary~a sample herb-instruction form for patients~why the harmonizing formulas are the most useful category of formulas for our patient population~how to work safely with patients who are taking Western drugs~a list of the most important treatment principles in Chinese medicine.

**The Treatment of Disease in TCM: Diseases of the eyes, ears, nose & throat** Blue Poppy Enterprises, Inc.

A new, revised edition of the first book for students and practitioners which explains how to do TCM style acupuncture. This book explains in depth how to do a complex, individualized TCM pattern discrimination, how to arrange and make sense of a welter of confusing signs and symptoms, and how to think using TCM terms and statement of fact.

Western students and beginning practitioners will find this book an invaluable aid in honing their ability to understand and use TCM. Although specifically about acupuncture, the method presented in this book can be used to erect a TCM treatment plan using any Chinese modality Chinese herbs, Chinese dietary therapy, tui na or Chinese massage, or qi gong, Chinese energy exercises. Included in this book are the functions of the main points of acupuncture and the functions of the main two and three point combinations. *Herb Toxicities & Drug Interactions* Blue Poppy Enterprises, Inc.

The Mai Jing or Pulse Classic was written in the late Han dynasty by Wang Shu-he. It is the first book in the Chinese medical literature entirely devoted to pulse diagnosis. As such, it is the undeniable and necessary foundation text for anyone seriously interested in understanding the rationale for and method of reading the pulse in Chinese medicine. Although not an easy read, this book is a mine of valuable information for those wishing to go more deeply into a study of the pulse. *Guide to Gynecology* Blue Poppy Enterprises, Inc.

This book is designed as a guide for the practitioner interested in taking the Bio-medicine portion of the NCCAOM exam. The NCCAOM Bio-medicine module is made up of 50 questions divided into three sections and this book is modeled after this exam, containing questions from each of the three categories. The book is divided into five tests containing 50 questions each. Each test includes an answer sheet, answer key and detailed explanations for most questions. Practitioners not interested in taking the Bio-medicine portion of the NCCAOM exam may also find the information

contained in this book useful in their everyday clinical practice.

Wang Le-ting was one of the architects of modern Chinese acupuncture. Wang created many new acupuncture treatment protocols useful in the treatment of chronic, difficult-to-treat conditions, including paralysis, and atrophy due to organic disease (MS, lupus, ALS, etc.), cerebrovascular accident, and traumatic injury to the spinal cord. This book is an account of

his special acupuncture theories and contains his most effective treatment protocols, representative case histories, and Wang's analysis of point selection. It's also a mine of step-by-step acupuncture protocols you can use in your clinic.

Chinese medicine is the oldest continually practiced professional medicine in the world, and Chinese doctors have recognized diabetes as a distinct clinical condition for 2,000 years. Their research has yielded a wealth of low-cost, noninvasive, natural methods of treatment. Beginning with an overview of Chinese medical theory, this book explores the patterns of imbalance that are used to diagnose diabetes. Also discussed are professional methods of treatment, including acupuncture and herbal medicine, and traditional home remedies, such as Chinese teas and self-massage. Special attention is paid to the role of diet, exercise, and relaxation to the prevention and treatment of diabetes.

This book is an excellent resource for Chinese Medical practitioners interested in including paediatrics in their practice. It is built around numerous Chinese studies on the treatment of enuresis, enabling the reader to view and treat the problem from various perspectives. How to put all this knowledge into practice is demonstrated in quite a few well-structured case histories. An introductory section on the Western view on pathology and treatment of bed-wetting offers the most up-to-date information in an easily readable format.

This book takes the integration of Western and Chinese medical approaches one step further. Through the use of some of the recommended treatments offered in this compassionate and thoughtful book, the practitioner will discover just how rapid and successful TCM can be in treating this difficult (for parents as well as the child) condition.

This book is a layperson's guide to

Chinese medicine & arthritis. In it, the authors discuss the basic concepts of Chinese medicine, the Chinese medical description of pain in general & the Chinese medical diagnosis & treatment of joint pain in particular. They then go on to introduce such Chinese medical concepts as qi stagnation, blood stasis, phlegm nodulation & qi & blood vacuity. This is followed by a discussion of the main patterns covering arthritis in Chinese medicine & how these are treated by professional practitioners of Chinese medicine. Next come a number of Western case histories of patients who were treated by Doug Frank. The authors then go on to discuss what they call the "three free therapies" for arthritis: diet, exercise & deep relaxation. In addition to this trio of fundamental self-care therapies, the authors also discuss such low or no-cost Chinese self-help techniques as qi gong, self-massage, magnet therapy, moxibustion, hydrotherapy, Chinese herbal patent medicines & Chinese herbal wines & elixirs. They round out their presentation

with some sound psychological advice about learning to live with chronic pain, advice on how to find a local professional practitioners & a section on learning more about Chinese medicine. A glossary at the back makes unfamiliar Chinese medical terms easy to understand. In addition, there is a bibliography & an index.
