El proceso de mundialización o globalización ha pasado a ocupar un lugar trascendental en todos los debates sociales, políticos, económicos y jurídicos, llevando a posiciones de resistencia activa y pasiva. Este fenómeno adquiere un reflejo muy notable en el sistema de relaciones laborales que lleva, de la mano de las libertades de establecimiento y prestación de servicios, a la presencia de tejidos industriales transnacionales capaces de

presionar a la integración económica y cambiar el sentido tradicional de los movimientos migratorios y los principios de actuación de los Estados a este respecto. Esta obra ofrece una visión desde todos los ángulos del Derecho del Trabajo del fenómeno de la expatriación de trabajadores en el actual contexto laboral y de los retos a los cuales este se enfrenta. Para ello se analiza el fenómeno de la globalización y las migraciones y su influencia en la disciplina social del Derecho a través de sus diferentes ramas, analizando los aspectos individuales, procesales, de Seguridad Social, colectivos y preventivos de los desplazamientos transnacionales de trabajadores. Al hilo de las transformaciones producidas a nivel mundial, europeo e interno, en España se han producido en las últimas décadas, y especialmente en la última, unos evidentes y profundos cambios, tanto cualitativos como cuantitativos, en materia de inmigración, desarrollando este estudio también un acercamiento a la evolución y actual situación en nuestro país.

Es una realidad que la innovación docente emerge cada vez más como una supracategoría dentro del campo de la enseñanza universitaria. Son múltiples los vectores y elementos que configuran ese constructo que nos anuncia cambio, modificación o novedad. Se trata de un cambio intencional, conducido en un escenario multiaxial en donde el docente universitario se mueve entre múltiples disciplinas científicas, con locus más o menos debatidos dentro de la enseñanza universitaria. De otra parte, nos encontramos con una importantísima renovación de los marcos conceptuales de carácter metodológico, tanto en un sentido estricto (métodos y técnicas específicas variadas acuden a insertarse en la tarea cotidiana del docente universitario), como en un sentido más abierto: enfoques de competencias, modelos dialógicos, diversidad, inclusión, género, etc. Así nos encontramos con cambios curriculares de gran calado como el Espacio Europeo de Educación Superior, junto a diversas y abundantes irrupciones de metodologías específicas, unas importadas desde ámbitos de enseñanza diferentes a la universidad y otras generadas en el propio contexto universitario. En esta obra nos planteamos ofrecer al lector interesado por la acción docente en la universidad una serie de aportaciones que todas ellas mantienen un denominador común, la de presentar respuestas a realidades emergentes afrontadas desde una concepción innovadora de la acción docente. Se abordan nuevas realidades vinculadas al tradicional campo de las TIC, acercamientos al tema de las competencias, de la diversidad e inclusión, ciudadanía...sin dejar de prestar atención a aspectos transversales como la colaboración docente, la formación permanente o el desarrollo de situaciones de estrés en el docente. Los autores constituyen un elenco de docentes

universitarios, disciplinarmente variado: trabajo social, educación, economía, arquitectura, música, etc., por lo que su nexo de intereses en común, es la innovación docente en un escenario universal como es la universidad, pero desde experiencias singulares.
