White Fragility (Adapted for Young Adults) McGraw Hill LLC

Johan Bruyneel knows what it takes to win. In 1998, this calculating Belgian and former professional cyclist looked Lance Armstrong in the eye and said, "Look, if we're going to ride the Tour, we might as well win." In that powerful phrase a dynasty was born. We Might As Well Win takes readers behind the scenes and inside the team car, as Bruyneel reveals the planning, training, strategy, and tactics that led to a record seven Tour de France victories with

Armstrong and an eighth with Alberto Contador. Through thrilling stories of his own racing career and those of the cyclists he has guided during his extraordinary career, Bruyneel reveals the keys to victory both in cycling and in life. This paperback edition includes a new afterword on the 2008 season, with Bruyneel's reflections on his record eleventh grand tour victory at the Giro d'Italia and the exclusion of his team Astana from the 2008 Tour de France.

Lively illustrations lead to victory in this sweet story that promotes working together to achieve success With their eyes set on a grand prize of the biggest piece of cheese they've ever seen, the Five Nice Mice set out

to work on building an unbeatable racecar. But before they can cross the finish line, they must elude a dog, heavy human feet, and a big, bouncing red ball. Do they have what it takes to win the competition? This uplifting tale of team spirit and achievement enchants and engages with vibrant, detailed illustrations.

Ullstein Buchverlage Paolo the Pig is joining the zodiac race, but not for winning! Why would he join a race if he didn't want to win? Paolo loves food far more than running, but he realizes that exercise can be a good thing. The race will be challenging, with tall mountains, a deep dark forest and a freezing river waiting for him. Will he make it

to the end? Join Paolo's adventure as he learns about helping people, staying fit, and why it's not nice to make fun of others ! Little readers will find out about how Paolo the Pig wins his place in the zodiac, and also learn the order in which all the zodiac animals were placed in the race. W C Jefferson's charming rhymes and T F Wister's whimsical drawings bring to life a new version of an ancient tale of how the 12 animals of the Chinese Zodiac came to have a year named after them.

The Race Hachette UK Racism is not a simple matter of good people versus bad. In *White Fragility*, Robin DiAngelo explained how racism is a system into which all white people are socialized.

She also made a provocative claim: that white progressives cause the most daily harm to people of colour. In *Nice Racism*, her follow-up work, she explains how they do so. Drawing on her background as a sociologist and over twenty-five years working as an antiracist educator, she moves the conversation forward. Writing directly to white people as a white person, DiAngelo identifies many common racial patterns and breaks down how well-intentioned white people unknowingly perpetuate racial harm. Writing candidly about her own missteps and struggles, she models a path forward, encouraging white readers to continually

face their complicity and embrace courage, lifelong commitment and accountability. Nice Racism is an essential work for any white person who wants to take steps to align their values with their actual practice, and offers people of colour an 'insider's' perspective which may be helpful for navigating whiteness.

This book about young colts and fillies learning to be race horses takes place on a small farm in Indiana. The farm has a half-mile training track surrounded by a woods pasture, hay fields, and various small lots used for

keeping the horses outdoors. It has one main horse barn with stalls for training the horses, a second large white barn for equipment and hay, and a small shed with extra stalls. The farm is owned by Pops and his wife Grams. Many of the stories relate to the work Pops does with the horses. Pops has broodmares who give birth to their colts in early spring. Grams, Pops' usual helper, leads the mares while he begins breaking their colts to lead, drive, and prepare for racing. The main character for these stories is Liz, their granddaughter, who lives on the next farm, a small distance from Pops' race barn. Liz loves the horses, especially the foals. She enjoys naming

them and talking to them. Liz has many adventures with Pops and writes letters to tell her cousins what is happening at the farm. One mare and her four fillies born over a four-year period give Pops all he can handle. Their individual habits and unusual personalities present interesting situations. Pops wanted horses with spunk, and they pour it out daily. Pops must fully concentrate to overcome their habits and train them properly. Liz grows up knowing happiness and excitement, as well as sadness and heartache. These young colts and the mares who mother them present all sorts of life lessons for Pops, Grams, and especially for young Liz. This book tells Liz's story as

One sunny afternoon in Monte Carlo, a private jet carrying the heir to the Aretino fortune explodes, killing all on board. Tragic accident? Or cold-blooded murder? Six months later, Wall Street analysts Stella Sartori and Jack Rogers fly to Milan for what promises to be a simple consulting job. The powerful Aretino family are losing money - lots of it - and their bank wants to know why. But it's soon apparent that there's much more at stake. In Nice, a photographer who caught the exploding jet on film is murdered. In Milan, a political ally of the Aretinos is gunned down in the street. Jack and Stella find their apartment bugged, and their every move

watched. Caught up in the race to find out who's behind it all, they fail to realise that their own lives are at risk – until it's almost too late. Corporate sabotage meets suspense in this high-octane thriller that takes you deep into the heart of Europe and its medieval aristocracies. From the glamorous Formula One racetracks of Italy to the ancient fortifications of Malta, *The Race* whisks you across the continent at a compelling pace. *Skittle, the Orphan Racehorse, and Other Race Horse Tales* U of Minnesota Press

How being “nice” in school and university settings works to reinforce racialized, gendered, and (dis)ability-related inequities in education

and society Being nice is difficult to critique. Niceness is almost always portrayed and felt as a positive quality. In schools, nice teachers are popular among students, parents, and administrators. And yet Niceness, as a distinct set of practices and discourses, is not actually good for individuals, institutions, or communities because of the way it maintains and reinforces educational inequity. In *The Price of Nice*, an interdisciplinary group of scholars explores Niceness in educational spaces from elementary schools through higher education to highlight how this seemingly benign quality reinforces structural inequalities. Grounded

in data, personal narrative, and theory, the chapters show that Niceness, as a raced, gendered, and classed set of behaviors, functions both as a shield to save educators from having to do the hard work of dismantling inequity and as a disciplining agent for those who attempt or even consider disrupting structures and ideologies of dominance.

tools to ask questions,
engage in dialogue,
challenge their ways of
thinking, and take
action to create a more
racially just world. “I
was taught to treat
everyone the same.” “I
don’t see color.” “My

Obama.” When white
people have the
opportunity to think
and talk about race
and racism, they more
often than not don’t
know how. In this
adaptation of Dr. Robin
DiAngelo’s best-selling

book *White Fragility*, anti-racist educators Toni Graves Williamson and Ali Michael explain the concept of systemic racism to young adult readers and how to recognize it in themselves and the world around them. Along the way, Williamson and Michael provide tools for taking action to challenge systems of inequity and racism as they move into adulthood. Throughout the book, readers will find the following:

- A dialogue between the adaptors that models anti-racist discussions
- Definitions of key terms
- Personal stories from this multiracial team
- Discussion prompts to encourage readers to journal their reactions and feelings
- Illustrations to help concepts of white

fragility and systemic racism come alive · Portraits of scholars and activists, including Carol Anderson, Ta-Nehisi Coates, and Ijeoma Oluo, whose work is amplified throughout Dr. DiAngelo's theory of white fragility.

This classic psychological case study focuses on one talkative child's emerging ability to use language, her capacity for understanding, for imagining, and for making inferences and solving problems. In wide-ranging essays, scholars offer multifaceted linguistic and psychological analyses of two-year-old Emily's bedtime conversations with her parents and pre-sleep

monologues, taped over a fifteen-month period. In a foreword written for this new edition, Emily, now an adult, reflects on the experience of having been a research subject without knowing it.

A Race Is a Nice Thing to Have Drawing on critical race theory, this book critically examines race through a mosaic lens

pointing out various issues directly connected to it, such as racial identity politics, racism, multiracialism, interracial relationships, and the hegemony of whiteness. This book goes further to analyze the manner in which socially constructed racial stereotypes contribute to and are used to justify the poor socio-economic situation and marginalization of People of Color, particularly the poor ones. Pentagon's New Map, a bold, trenchant analysis of the post-Bush world In Great Powers, New York Times bestselling author and prominent political consultant Thomas Barnett provides a tour-de-force analysis of the grand realignments in the post-Bush world-in the spheres of economics, diplomacy, defense, technology, security, the environment, and more. The "great powers" are no longer just the world's nation-states, but the most powerful and dynamic influences on the global stage, requiring not simply a course correction, but a complete recalibration. Globalization as it exists today was built by America- and now, Barnett says, it's time

for America to shape and redefine what comes next.

 An acclaimed expert illuminates the distinctive role that white women play in perpetuating racism, and how they can work to fight it In a nation deeply divided by race, the “Karens” of the world are easy to villainize. But in *Nice White Ladies*, Jessie Daniels addresses the unintended complicity of even well-meaning white women. She reveals how their everyday choices harm communities of color. White mothers, still expected to be the primary parents, too often uncritically choose to send their kids to the “best” schools, collectively leading to a return to segregation. She addresses a feminism

that pushes women of color aside, and a wellness industry that insulates white women in a bubble of their own privilege. Daniels then charts a better path forward. She looks to the white women who fight neo-Nazis online and in the streets, and who challenge all-white spaces from workplaces to schools to neighborhoods. In the end, she shows how her fellow white women can work toward true equality for all.

Kingdom Hearts II begins where Kingdom Hearts: Chain of Memories and Kingdom Hearts 358/2 Days leave off. Sora and his companions have been asleep for about a year, regaining their

memories. When Sora awakens, he eventually arrives in Twilight Town, the place where a mysterious boy, Roxas, lived before he suddenly left. Gaining new clothes and powers, Sora began his journey anew, unaware of the events that have taken place in Chain of Memories. Sora continues his quest by unlocking paths to new worlds, learning of Nobodies and fighting the Heartless, as well as facing the remaining members of the mysterious Organization XIII. As the game progresses, Sora learns about Roxas and how much they have in common. Birth By Sleep is the origins of the series' hero and villain, Sora and Xehanort, and delves deep into the mysteries of

Xehanort's bleak past and forgotten memories as well as how Sora and Riku came to wield the Keyblade in the first place. It deals with three Keyblade Wielders: Terra, Aqua and Ventus and each character has their own scenario. "I'm a regular visitor to the fitness center to my university's physical education building, which is open to people in the local community as well as people affiliated with the school. You can always find an interesting mixture of individuals there: professors, students, deans, administrative assistants, local artists, sheriffs, UPS truck drivers, insurance salespeople, restaurateurs, farmers, contractors, ministers, retirees, and so on. The locker-room conversation typically includes laments about the dismal play of local sports teams, complaints about the weather or the economy, and of course advice on every imaginable topic from the best way to strip

old wallpaper to how to hit a nine-iron out of the rough. Some professors can always be counted on to grumble about lazy students, too many exams to grade, the puny size of our pay raises, and so on. To be honest, these topics bore me to tears. So I usually do more eavesdropping than talking. Every once in a while, though, someone will try to engage me in casual chitchat. Since I began writing the third edition of this book, I've had some version of this conversation a couple of times: Other person: So, David, how are your classes going? Me: Actually I'm not teaching right now. I'm on sabbatical. Other person: Sabbatical, huh? Must be nice, having a vacation, not

having to work for months, and still getting paid! Me: [sounding annoyed] It's not a vacation! I work harder on sabbaticals than I do when I'm teaching. Other person: Sorry. Sorry. So what are you working on that's keeping you so busy? Me: I'm revising a book. Other person: Oh yeah? Impressive. What's it about? Me: Inequalities. I realize that such a one-word description is totally insufficient, but it's an effective way to squelch a conversation that I didn't want to have in the first place.

And since I'm usually dressed in a towel or less when these exchanges take place, I want them to end as quickly as possible. Most people respond with unpersuasive expressions of interest ("Hmm, that sounds . . . um . . . nice."), sarcasm ("Fascinating! But if you don't mind, I'll wait for the movie version."), or vacant, deer-in-the-headlights stares. A couple of brave souls have plunged past this conversational dead end, though. A soybean farmer once said he didn't realize that I was a math teacher"--
