Convert the pseudocode into a program and extend the program to include basic user input and output messages. Extend the game to include IF -THEN -ELSE statements first in pseudocode and then in the program. the exam and so early familiarity would benefit students. GCSE Computer Science

Example Scheme of Work This scheme assumes 240 contact hours across two years for the A-level, possibly timetabled as four one-hour lessons per week, and assuming some weeks in the academic year are taken up with other activities (such as internal or external exams, visits and work experience). Homework is set both to extend and to reinforce the skills and concepts. AQA | Scheme of work - week by week Scheme of work - Cambridge IGCSE® Computer Science (0478) v1 3Y07 Cambridge IGCSE Computer Science (0478) 16. Unit 3: Data communications and networking. Recommended prior knowledge Learners should have had some experience of using the internet and of using a local area network (LAN) in school. Scheme of work - [Subject] ([syllabus code ... This scheme of work is intended to illustrate how our new AS and A-level qualifications can be co-taught in the first year of an A-level course (assuming a 1 year AS). The scheme is intended as an outline and teachers should make necessary modifications to enable the scheme to operate with their particular circumstances. AQA | Scheme of work - co-

teaching Year 9 Computer Science schemes of work. There are three cycles per year. Each cycle is 12 weeks long, which is roughly termly but the term lengths differ every year. Pupils will receive a report in each term on the work contained in the current cycle. The schemes of work are set out below in terms of the Key Concepts to be covered and the expectations for each Ability Level.

Computer science Y9 scheme of work - Beverley High School

KS3 Computing Scheme of Work - Year 1. This is a scheme of work that I use for the first year of Computing for Key Stage 3 students. I created most of the presentations from looking at the National Curriculum, and before I looked at the GCSE specifications, but it turns out that a lot of the lessons would also be suitable for the start of a GCSE Computing or Computer Science course.
