Materials Straw bale building is a nod to the days when we built

our homes from natural and locally-sourced materials. Instead of

relying on technology and manufactured materials, we use what

the earth provides. Straw bales are used to replace concrete,

plaster, gypsum, and other building materials in walls.7

Sustainable Construction Materials | CRL Materials and

Manufacturing. We're focused on the delivery of transformational

results in both materials and manufacturing processes that help

to create a cleaner future and sustainable economy. Materials and

manufacturing - University of Warwick A quieter part of the

sustainability story is the evolution in construction techniques and

materials acquisition that can reduce waste, energy and various

inefficiencies at building sites.
