In an illustrious career
spanning over forty years,
Américo Paredes has

often set the standard for scholarship and writing in folklore and Chicano studies. In folklore, he has been in the vanguard of important theoretical and methodological movements. In Chicano studies, he stands as one of the premier exponents. Paredes's books are widely known and easily available, but his scholarly articles are not so familiar or accessible. To bring them to a wider readership, Richard Bauman has selected eleven essays that eloquently represent the

range and excellence of Paredes's work. The hardcover edition of *Folklore and Culture* was published in 1993. This paperback edition will make the book more accessible to the general public and more practical for classroom use. *The Literature of Al-Andalus* Cambridge University Press By exploring England's fanatical consumption of the so-called books of the brave conquistadors, this book shows how tales of love and arms mystified global conquest (in such

places as Mexico, Peru, Guiana, California, and Australia) and rooted the idea of English empire as a civilized alternative to the cruelty of Spanish conquest.

Revival: A History of Spanish Literature (1930)
Routledge

The present English version, authorized by the publishers and heirs of M. Merimee, is based on the third French Edition. New material of two sorts has been added, however. First, the translator has been allowed to utilize an annotated, interleaved

copy of the *Precis*, 1922, in which the author, and after his death his son Henri, himself a distinguished Hispanist, had set down material for the next revision. This accounts for many inserted names and phrases, and some paragraphs. Second, the translator has rewritten and added with some freedom.

antonomasia, desde el siglo XV hasta nuestros días. Complemento indispensable de la antología anterior. Spanish folk-poetry in New Mexico UNAM
Aimed at advanced students of Spanish interested in improving their understanding of Spanish phonology and pronunciation, *Que bien suena!* focuses on providing the simplest analysis of the pronunciation of Spanish sounds. The text's goal is for the student to be able to replicate successfully,

to the extent possible, native speakers' typical pronunciation and intonation patterns. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

del latín al español : los nuevos géneros del romance Рипол Классик

The series is a platform for contributions of all kinds to this rapidly developing field. General problems are studied from the perspective of individual languages,

language families,
language groups, or
language samples.

Conclusions are the result
of a deepened study of
empirical data. Special
emphasis is given to little-
known languages, whose
analysis may shed new
light on long-standing
problems in general
linguistics.

CUP Archive

This selection of papers is
concerned with the
history of linguistics in
Spain, dealing with the
evolution of linguistic
ideas from the Middle
Ages and the European
context of the linguistic
debates in Spain to the
20th century, concluding
with Malkiel's appraisal of
Ramón Menéndez Pidal
(1869–1968). The volume
includes papers on
Antonio Nebrija and
Sanctius, probably the
best-known grammarians

of the Iberian peninsula, but – as the other papers suggest – there is much more to be known about the Spanish linguistic traditions. The papers in this volume were previously published in *Historiographia Linguistica* XI:1/2 (1984).

Taylor & Francis

A TikTok sensation, this

rom-com about a young

woman who agrees to

fake date a colleague and bring him to her sister's wedding has "everything you could want in a romance" (Helen Hoang, New York Times bestselling author). Catalina Martín desperately needs a date to her sister's wedding. Especially since her little white lie about her American boyfriend has spiralled out of control. Now everyone she knows—including her ex and his fiancée—will be there and eager to meet him. She only has four weeks to find someone

willing to cross the Atlantic and aid in her deception. New York to Spain is no short flight and her raucous family won't be easy to fool. Enter Aaron Blackford—her tall, handsome, condescending colleague—who surprisingly offers to step in. She'd rather refuse; never has there been a more aggravating, blood-boiling, and insufferable man. But Catalina is desperate, and as the wedding draws nearer, Aaron looks like her best

option. And she begins to realize he might not be as terrible in the real world as he is at the office. *An Elementary Spanish Grammar* University of Alabama Press
This study offers an introduction to an important branch of Spanish literature—the romance, or ballad. Although a great many of these poems have been translated into English by various authors, they are not generally known nor easily accessible. Collected here for the first time in a single volume is

a broad and representative sampling of romances in translation that encompasses historical ballads (including those about Spain's greatest folk hero, el Cid), Moorish ballads, and ballads of chivalry, love, and adventure. For the collection, Shasta M. Bryant has written a perceptive commentary and critique in which he discusses the individual poems and compares the translation with the original; both texts are presented to facilitate comparison. For those

who wish to pursue their reading further there is an index of romances that have been translated into English, along with the names of the translators. Although the text has been written with the non-specialist in mind, this book will be equally valuable for students of comparative literature and of medieval Spain. Spanish Literature: A Collection of Essays Walter de Gruyter A representative selection of the best poetry of Spain's Golden Age. **Selected Articles on**

Medieval and Renaissance Spanish Literature John Benjamins Publishing In New York City during the winter of 1922 and the spring of 1923, Mair Jose Benardete recorded the texts of the thirty-nine traditional ballads published in this volume. His collection, the beginning of Judeo-Spanish ballad research in America, was assembled when the oral tradition was still rich and vigorous among immigrants to New York from the Sephardic settlements of the Eastern

Mediterranean and North Africa. Among the ballads are a number of rare text types, some never again recorded in the Sephardic communities of the United States. In addition, many of the texts provide new insights into the origins of the thematic traditions they represent. Samuel G. Armistead and Joseph H. Silverman have edited the ballads collected by Benardete, offering an English abstract and exhaustive bibliography for each ballad. In addition to placing each ballad within the context

of its Sephardic variants, the bibliographies refer to the most important collections in the modern Castilian, Portuguese, Catalan, and Hispano-American traditions, to earlier (fifteenth- to seventeenth-century) evidence, and to any known analogs in other European traditions. The volume also includes a general bibliography, a thematic classification of the ballads, several indexes, and a glossary of exotic lexical elements. In an introduction, professors Armistead and

Silverman present a documented survey of Judeo-Spanish ballad scholarship with particular attention to fieldwork in the United States and elsewhere. Benardete himself attributed the decline of ballad singing among the Sephardim to a growing preference for phonographic recordings over traditional family singers. The need for further field-work increases as "Sephardic folkspeech and folklore retreat before the irresistible onslaught of the English language and

modern American mass-media culture" (from the Introduction). This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1981.

A Novel UNAM
The Literature of Al-Andalus is an exploration of the culture of Iberia, present-day Spain and Portugal, during the period when it was an Islamic, mostly Arabic-speaking territory, from the eighth to the thirteenth century, and in the centuries following the Christian conquest when Arabic continued to

be widely used. The volume embraces many other related spheres of Arabic culture including philosophy, art, architecture and music. It also extends the subject to other literatures - especially Hebrew and Romance literatures - that burgeoned alongside Arabic and created the distinctive hybrid culture of medieval Iberia. Edited by an Arabist, an Hebraist and a Romance scholar, with individual chapters compiled by a team of the world's leading experts of Islamic Iberia, Sicily and

related cultures, this is a comparative work which offers a interesting truly interdisciplinary and approach to the field.
