Who are computer hackers? What is free software? And what does the emergence of a community dedicated to the production of free and open source software--and to hacking as a technical, aesthetic, and moral project--reveal about the values of contemporary liberalism? Exploring the rise and political significance of the free and open source software (F/OSS) movement in the United States and Europe, Coding Freedom details the ethics behind hackers' devotion to F/OSS, the social codes that guide its production, and the political struggles through which hackers question the scope and direction of copyright and patent law. In telling the story of the F/OSS movement, the book unfolds a broader narrative involving computing, the politics of access, and intellectual property. E. Gabriella Coleman tracks the ways in which hackers collaborate and examines passionate manifestos, hacker humor, free

software project governance, and festive hacker conferences. Looking at the ways that hackers sustain their productive freedom, Coleman shows that these activists, driven by a commitment to their work, reformulate key ideals including free speech, transparency, and meritocracy, and refuse restrictive intellectual protections. Coleman demonstrates how hacking, so often marginalized or misunderstood, sheds light on the continuing relevance of liberalism in online collaboration.

Abhinav Bindra once shot 100 out of 100 in practice six times in a row and walked out of the range unhappy. He is a perfectionist who once soled his shoes with rubber from Ferrari tyres because he thought it would help. He would wake up at 3 am to practise at his range at home if an idea suddenly struck him. It is from such obsession that greatness arrives. Abhinav Bindra's journey to become the first Indian to win an individual Olympic gold, and the first Indian to win a World Championship gold, is a story of single-minded passion. The Olympics has been an all-consuming journey for him ever since he was shattering beer bottles and glass ampoules in his garden in Chandigarh. No obstacle was too hard to overcome, no amount of practice too much, no experiment too futile and no defeat so severe that it made a comeback impossible. Shattered by his failure at the 2004 Athens Olympics when a gold medal seemed imminent, he changed as a shooter: from a boy who loved shooting, he became an athlete bent on redemption, a scientist who would try anything - from mapping his own brain to drinking yak milk to climbing rock walls - to win at the Beijing Olympics in 2008. His victory was not just a personal triumph, it was a gift to his nation, a breaking down of a sporting barrier that had stood for a century. Bindra's feat has taught his peers, and those yet to come, that an Olympic gold isn't an impossible dream. In ranges, on fields, in arenas, Indian athletes now own a new belief, they wear the knowledge that no challenge is beyond them. Helping to tell this remarkable story is sportswriter Rohit Brijnath, who collaborated with Bindra in producing this compelling autobiography of one of India's greatest sportsmen.

Tales of the Punjab (1894) is a collection of stories translated and collected by Flora Annie Steel. Collected while Steel lived with her husband in the north of the Indian subcontinent, Tales of the Punjab was a successful introduction to legends and stories from the Punjab region for children and adults back home in England. Published while India remained under the control of the British Empire, Steel's collection puts a decidedly Western twist on the stories she learned from local women while advocating for education reform. In a village in the Punjab, as the sun sets on an exceedingly hot day, the local people return from the fields to prepare dinner and settle down for the evening. As they await the cooling winds of midnight in order to sleep outside, the villagers gather around a local storyteller. Possessing a wide knowledge of legends, tales, and history, he calmly begins to speak to his gathered audience. "Sir Buzz" is the story of a woman and her son who are left in dire poverty following the death of her husband, a soldier. Although young, the boy dreams of setting out into the world in order to bring something home for his mother. Finding six shillings in the pocket of an old coat, he leaves his home only to run into an injured tigress. Unable to remove a thorn from her paw, she asks the boy for his assistance, and offers him a mysterious reward. In "The Rat's Wedding," a rat takes shelter underground during a steady rainstorm. In his digging, he discovers a root, which he takes with him on his journey homeward once the rain subsides. Looking forward to using the root for himself, he encounters an old man struggling to light a fire with wood soaked through with rain. Exchanging his root for a piece of food, the generous rat continues on his way. Tales of the Punjab is a collection of forty-three instructive,

humorous, and authentic stories translated by Flora Annie Steel. With a beautifully designed cover and professionally typeset manuscript, this edition of Flora Annie Steel's Tales of the Punjab is a classic of Anglo-Indian literature reimagined for modern readers.

The Well of Loneliness, first published in 1928, is a timeless portrayal of lesbian love. The thinly disguised story of Hall's own life, it was banned outright upon publication and almost ruined her literary career as the subject was that of an obscenity trial and forbidden at the time in England. The novel tells the story of Stephen, an ideal child of aristocratic parents—a fencer, a horse rider and a keen scholar. Stephen grows to be a war hero, a bestselling writer and a loyal, protective lover. But Stephen is a woman, and is attracted to women. As her ambitions drive her, and society incarcerates her, Stephen is forced into desperate actions. Although Gordon's attitude toward her own sexuality is anguished, the novel presents lesbianism as natural and makes a plea for greater tolerance. It became an international bestseller, and for decades was the single most famous lesbian novel.

A Portrait of Joni Mitchell Weidenfeld & Nicolson

Wuthering Heights is the name of Mr. Heathcliff's dwelling. Wuthering being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in

stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the excessive slant of a few stunted firs at the end of the house; and by a range of gaunt thorns all stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong: the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of crumbling griffins and shameless little boys, I detected the date 1500, and the name Hareton Earnshaw. I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory lobby or passage: they call it here the house pre-eminently. It includes kitchen and parlour, generally; but I believe at Wuthering Heights the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire

anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.
