Der wahre Fidel Castro St. Martin's Press
 Fidel Castro had ruled the island of Cuba for fifty-two years when ill health forced him to step down in 2008. Over the course of that time, he changed Cuba from a republic to a communist state and became one of the most divisive leaders in the second half of the twentieth century. For some, he is a champion of humanitarianism, socialism, and environmentalism. For others, he is a monster and dictator who perpetuated human rights abuses at home and abroad. Providing a rare, evenhanded account of Castro's life, journalist Nick Caistor brings together interviews with people who have known Castro with discussion of the ideas that drove him. Caistor follows Castro's life from his birth as the illegitimate son of a wealthy farmer in 1926 to the developing of his leftist, anti-imperialist ideas at the University of Havana and his primary role in the Cuban Revolution in the 1950s. He explores Castro's economic and military alliance with the Soviet Union and his hostile relationship with the United States while also looking at how he simultaneously introduced free health care and education while squelching freedom of the press and suppressing dissidents. As Caistor shows, Castro's numerous writings on politics, capitalism, and other topics have influenced leaders from Nelson Mandela to Hugo Chávez, but allegations of corruption, human rights abuses, and dictatorship never ceased during his long career. Using stories and opinions to enliven the debate about Castro's choices, strengths, and weaknesses, this

concise biography gives readers the opportunity to judge for themselves how they feel about the former Cuban president.

History Will Absolve Me New York :

 Hugo Chavez, military officer turned left-wing revolutionary, was one of the most important Latin American leaders of the twenty-first century. This book tells the story of his life up to his election as president in 1998. Throughout this riveting and historically important account of his early years, Chavez's energy and charisma shine through. As a young man, he awakens gradually to the reality of his country-where huge inequalities persist and the majority of citizens live in indescribable poverty-and decides to act. He gives a fascinating description of growing up in Barinas, his years in the Military Academy, his long-planned military conspiracy-the most significant in the history of Venezuela and perhaps of Latin America-which led

to his unsuccessful coup attempt of 1992, and eventually to his popular electoral victory in 1998. His collaborator on this book is Ignacio Ramonet, the famous French journalist (and editor for many years of *Le Monde diplomatique*), who undertook a similar task with Fidel Castro (*Fidel Castro: My Life*).

Fidel Castro, biografía a dos voces

Franklin Watts

Fidel Castro is perhaps the most charismatic and controversial head of state in modern times. A dictatorial pariah to some, he has become a hero and inspiration for many of the world's poor, defiantly charting an independent and revolutionary path for Cuba over nearly half a century. Numerous attempts have been made to get Castro to tell his own story, but only now, in the twilight of his years, has he been prepared to set out the details for the world to read. Drawing on more than one hundred hours of interviews with journalist Ignacio Ramonet, a knowledgeable and trusted interlocutor, this spoken autobiography will stand as the definitive record of an extraordinary life lived in turbulent times.--From publisher description.

He stayed to talk that day for some time. Eventually Lucila left the room. Then we turned to more personal matters, the disagreement completely forgotten. I confessed that I had been deeply moved by what he had written in the book 'Che Guevara's first wife, Hilda Gadea, was with him during a tumultuous period in his life, the period which turned him from an intellectual theorist to a dedicated revolutionist. After 5 years of marriage and the birth of their daughter, Hildita, Hilda Gadea paints an intimate and extraordinary portrait of this legendary figure; one who is a romantic

wanderer, a philosopher and doting suitor and father. Ernesto Guevara and Hilda Gadea met in Guatemala as members of the political-exile community. Later they were forced to flee Mexico, where their friendship grew stronger and where, stimulated by the intelligence and knowledge of Hilda, Che's vista's broadened and his convictions hardened. Hilda's account of their life together in Mexico is filled with joy but at times is terribly strained. They found it difficult to make a living and Che suffered from severe asthmatic attacks. Nevertheless the excitement of involvement with the Castros and other Cuban refugees infuses every page. Gradually the character of this great leader is revealed by the woman who knew him best, providing a vital key to a comprehension of Che's legendary qualities.

"Few people can say they've seen some of the most significant moments of the twentieth century unravel before their eyes. Marita Lorenz is one of them. Born in Germany at the outbreak of WWII, Marita was incarcerated in a Nazi concentration camp as a child. In 1959, she travelled to Cuba where she met and fell in love with Fidel Castro. Yet upon fleeing to America, she was recruited by the CIA to assassinate the Fidel. Torn by love and loyalty, she couldn't bring herself to slip him the lethal pills. Her life would take many more twists and turns--including having a child with ex-dictator of Venezuela, Marcos Perez Jimenez; testifying about the John F. Kennedy assassination; and becoming a party girl with close ties the New York mafia (and then a police informant). Caught up in Cold War intrigue, espionage, and conspiracy--this is Marita's incredible autobiography of a young woman who became a spy for the CIA."--Provided by publishe

Fidel Castro Suhrkamp Verlag

The CIA analyst who tracked Castro for decades explores the mind and

motivations of the man who governed Cuba for nearly half a century. On trial in Santiago for leading a bloody assault on the city's Moncada garrison, young revolutionary leader Fidel Castro uttered a phrase in court that would come to serve as a rallying cry for his 26th of July Movement and his regime thereafter: "History will absolve me." Despite the fact that his methods resulted in great loss of life on both sides, Castro never wavered in his belief that in the final reckoning his life's work would be vindicated—his violence necessary in bringing a new government to Cuba and

a new political model to the developing world. For decades, CIA analyst Brian Latell tracked Castro relentlessly—getting to know his habits, his fears, and the passions that drove him. In this book, the author of *After Fidel and Castro's Secret* steps from the shadows to paint a complex and nuanced portrait of the man he came to know better than any other intelligence target—revealing the mind and motivations of one of the most mercurial, passionate, and dominating leaders of the twentieth century. "One of America's foremost Cuba analysts."
—George J. Tenet, former CIA director
