How to Pass OSCP Series: Windows Privilege Escalation Step-By-Step Guide Createspace Independent Publishing Platform  
 This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more.

It all started with Ayşe adopting the seed from one of the cherries she ate. Ayşe named it Seed Lili. The cherry seed was overjoyed and felt special when she got the name Lili. Now everyone would call her Lili, she would be known everywhere by that name. Ayşe kissed and loved her seed every day, and when the time came, she entrusted it to the bosom of the earth... As Seed Lili went from state to state to transform into a tree; loving, caring, and patience were necessary. This wonderful story of Mümine Yıldız and her little daughter Ayşe fills the hearts with crimson cherries... It invites us to a wonderful journey of discovery on endeavor, patience, love, friendship, fidelity and love of nature...

What woman doesn't love cute shoes? Rhonda Rhea's not afraid to admit her obsession with them--or to use this "shallow" addiction as a basis for a book! *High Heels in High Places* is a

biblical journey for women who want to go deeper in their spiritual lives, but also want fall-off-your-high-heels laughter along the way. Using Colossians 1:9-12 as a springboard, Rhonda takes women on a fun adventure infused with practical spiritual truth about what it means to walk worthy before God. This unique and hilarious exploration is perfect for the "shoe overachiever" in all of us. It makes a great gift for the woman who has it all (and just doesn't have enough closet space to store it), or can be an enlightening small group resource.

Hold up a painting from a local craft fair next to a masterpiece. Can you tell the difference? If so, you have talent. That is one of the messages in this new book. Most people think that painting a masterpiece is enormously difficult and requires a rare genius. They are wrong. That is the other message. When someone asked Claude Monet how his paintings were done, he replied, "Well, I hope nobody ever figures out how I do it!" This book tells how. Not which color to apply where, but rather it leads you to a particular frame of mind and to a process that will let your painting evolve in its own way and result in a work that is much better than what you thought you could do. There are some secrets here, but they're not hard to carry out once you know about them. Some of these secrets died with the Impressionists, but they are explained here - and they are really very simple. They deal mostly with what happens inside your head as you paint. Practical tidbits of advice that I have never seen described anywhere else.

"Cisco BGP-4 Command and Configuration Handbook is a clear, concise, and complete source of documentation for all Cisco IOS Software BGP-4 commands. If you are preparing for the CCIE written and lab exams, this book can be used as a laboratory guide to learn the purpose and proper use of every BGP command. If you are a network designer, this book can be used as a ready reference for any BGP command." "Cisco BGP-4 Command and Configuration Handbook provides example scenarios that demonstrate the proper use of every BGP-4 command, which can be implemented using a minimum number of routers. This will enable you to learn each command without requiring an extensive and expensive lab configuration. The scenarios are presented so that the purpose and use of each command can be demonstrated without clouding the issue. Some of the examples lead you into common non-working situations in order to reinforce the understanding of the operation of the particular BGP command."--BOOK JACKET. "Stern but compassionate, author Wendell Berry raises broader issues that environmentalists rarely focus on . . . In one sense Berry is the voice of a rural agrarian tradition that stretches from rural Kentucky back to the origins of human civilization. But his insights are universal because Our Only World is filled with beautiful, compassionate writing and careful, profound thinking."—Associated Press The planet's environmental problems respect no national boundaries. From soil erosion and population displacement to climate change and failed energy policies, American governing classes are paid by corporations to pretend that debate is the only democratic necessity and that solutions are capable of withstanding endless delay. Late Capitalism goes about its business of finishing off the planet. And we citizens are left with a shell of what was once proudly described as The American Dream. In this collection of eleven essays, Berry confronts head-on the necessity of clear thinking and direct action. Never one to ignore the present challenge, he understands that only clearly stated questions support the understanding their answers require. For more than fifty years we've had no better spokesman and no more eloquent advocate for the planet, for our families, and for the future of our children and ourselves.

"This volume of measurement instruments in the English language arts is the second one produced by the Research Instruments Project (TRIP), which was designed to collect and evaluate research instruments in language arts, language and language development, literacy, literature, oral language, reading, teacher knowledge/attitudes, and writing. The 160 measurement instruments are arranged alphabetically by category; within each category, measures are listed alphabetically by author. All instruments are cross-referenced by author. The age range indicated is the specific age grouping as

stated by the authors or the age of the sample to whom the instrument was administered. The description of the instrument provides the purpose of the instrument, the date of construction, and a physical description of the instrument--often including sample items and administration data (directions, time, scoring procedures, and so forth). The lack of reliability and validity data

for instruments is indicated when the information was unavailable. In the case of tables of difficulty, indexes, and so on, the data contained are summarized and the complete data are made available with the test or references cited. (HOD)" -- Google Books viewed January 22, 2021.
