A Course in Health and Well-Being

Desert Lily Publications
 One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential, and the concept that we all create our own reality according to our individual beliefs. Having withstood the test of time, it is still considered one of the most dynamic and brilliant maps of inner reality available today. "The Seth books present an alternate map of reality with a new diagram of the psyche . . . useful to all explorers of consciousness." — Deepak

Chopra "Seth was one of my first metaphysical teachers. He remains a constant source of knowledge and inspiration in my life." — Marianne Williamson "I would like to see the Seth books as required reading for anyone on their spiritual pathway. The amazing in-depth information in the Seth books is as relevant today as it was in the early '70s when Jane Roberts first channeled this material." — Louise Hay

 "A big, bold, brilliantly crafted page-turner with HUGE ideas that challenge every last view about how the world works. This is both a primer to understand the law of attraction and the essential book of our age." — Jack Canfield, author of The

Success Principles(TM) and featured teacher on The Secret(TM) "One of the most powerful and enlightening books I have ever read. A magnificent job of presenting the hard evidence for what spiritual masters have been telling us for centuries." — Wayne W. Dyer During the past few years science and medicine have been converging with common sense, confirming a widespread belief that everything—especially the mind and the body—is far more connected than traditional physics ever allowed. The Field establishes a new biological paradigm: it proves that our body extends electromagnetically beyond ourselves and our physical body. It is within this field that we can find a remarkable new way of looking at health, sickness, memory, will,

creativity, intuition, the soul, consciousness, and spirituality. The Field helps to bridge the gap that has opened up between mind and matter, between us and the cosmos. Original, well researched, and well documented by distinguished sources, this is the mind/body book for a new millennium.

Integrate practical insights from modern physics, ancient Hermetic Laws, non-dual meta-physics, transpersonal psychology, and humor, as tools for undoing conflicting beliefs we've dreamed ourselves into. The seven Hermetic laws are explored in depth and demonstrate how a mindfulness that embraces 'other' as 'self' can reverse the typical misapplication of these inescapable laws of Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause & Effect and Generation. Ubiquitous geometric symbols, paired to each of these laws - the circle, vesica piscis, sine wave, line, spiral, fractal and yin-yang - and their countless commonplace variations, seen from the vantage point of shared interests, reflect these ideas. The inspired use of natural law restores attributes of life, love, strength, purity, beauty, perfection and gratitude to our awareness.

What would you do if you were sitting quietly in your living room when a mysterious couple appeared from out of nowhere —and then told you they were “ascended masters” who had come to reveal some shocking secrets of existence and teach you the miraculous powers of advanced forgiveness? When two such teachers appeared before Gary Renard in 1992, he chose to listen to them (and ask a lot of impertinent questions). The result is this startling book: an extraordinary record of 17 mind-bending conversations that took place over nearly a decade, reorienting the author's life and giving the world an uncompromising introduction to a spiritual teaching destined to change human history.

Psychotherapy Hampton Roads Publishing

This classic volume about psychic development, written by the late Hugh Lynn Cayce, is once again available for those who desire a safe pathway into their spiritual inner life. A "must" read for seekers, whether new or experienced.

In this tradepaper edition of the standalone companion to Gary Renard's best-selling trilogy, Ascended Masters Arten and Pursah relate the stories of the

multiple shared lifetimes of the reincarnations of Jesus and Buddha. Revelations about the universe, A Course in Miracles, and the lessons in Jesus and Buddha's spiritual development will aid your own path to enlightenment. Two and a half decades ago, Ascended Master Teachers Arten and Pursah appeared to Gary Renard and held a series of conversations with him that elaborated on the teachings of two spiritual classics, The Gospel of Thomas and A Course in Miracles. Gary immortalized what he learned in the books of his best-selling series: The Disappearance of the Universe, Your Immortal Reality, and Love Has Forgotten No One. This fourth book is a companion to the original trilogy, yet written to stand alone, an invitation for new readers into this fascinating work. This book explores six of the lifetimes in which the incarnations of Jesus and Buddha lived together, beginning in 700 B.C. when they were known as Saka and Hiroji. Arten and Pursah, through the spiritual lessons that Jesus and Buddha learn on their path, clarify the difference between duality and non-duality. When you are able to internalize these lessons, you will be saved countless years in your spiritual development.

"A unique and special kind of masterpiece." —John Banville
Stephen Mitchell's gift is to breathe new life into ancient classics. In *Joseph and the Way of Forgiveness*, he offers us his riveting novelistic version of the Biblical tale in which Jacob's favorite son is sold into slavery and eventually becomes viceroy of Egypt. Tolstoy called it the most beautiful story in the world. What's new here is the lyrical, witty, vivid prose, informed by a wisdom that brings fresh insight to this foundational legend of betrayal and all-embracing forgiveness. Mitchell's retelling, which reads like a postmodern novel, interweaves the narrative with brief meditations that, with their Zen surprises, expand the narrative and illuminate its main themes. By stepping inside the minds of Joseph and the other characters, Mitchell reanimates one of the central stories of Western culture. The engrossing tale that he has created will capture the hearts and minds of modern readers and show them that this ancient story can still challenge, delight, and astonish.

What if you knew there was only one problem and one solution to all the problems we face? How is peace possible in a world that seems impossible sometimes? How do we heal ourselves in a world where the silent epidemics of suicide, depression, and cyber-bullying run so rampant? Answers to these questions and other topics such as covid-19, black lives matter, parenting, relationships and even E.T.'s, will be found in this book, all discussed within the context of the non-dualistic teachings of *A Course in Miracles*, in which forgiveness is a key theme in helping one to awaken from the illusion of separation to the reality that we are one in God or Spirit. There is a way to practice forgiveness and experience true peace regardless of what is happening in your life or in the world, which puts you in an empowering position of cause instead of being at the effect or a victim of circumstances. Understanding forgiveness and knowing how to apply it in your everyday life can truly be a life-saver!
