Socratic Questions SAGE

Evaluating Public Communication addresses the widely reported lack of rigorous outcome and impact-oriented evaluation in advertising; public relations; corporate, government, political and organizational communication and specialist fields, such as health communication. This transdisciplinary analysis integrates research literature from each of these fields of practice, as well as interviews, content analysis and ethnography, to identify the latest models and approaches. Chapters feature:

- a review of 30 frameworks and models that inform processes for evaluation in communication, including the latest recommendations of industry bodies, evaluation councils and research institutes in several countries;
- recommendations for standards based on contemporary social science research and industry initiatives, such as the IPR Task Force on Standards and the Coalition for Public Relations Research Standards;
- an assessment of metrics that can inform evaluation, including digital and social media metrics, 10 informal research methods and over 30 formal research methods for evaluating public communication;
- evaluation of public communication campaigns and projects in 12 contemporary case studies.

Evaluating Public Communication provides clear guidance on theory and practice for students, researchers and professionals in PR, advertising and all fields of communication.

Using the Socratic Method in Counseling Routledge

It had been thought that the Cleitophon was a spurious dialogue. Its brevity and the fact that Socrates does not respond to accusations from Cleitophon suggested to scholars that it was only a fragment. However, in the last fifteen years, the complete and authentic dialogue was rediscovered. Upon its discovery, scholars have almost universally agreed that the Cleitophon is the introduction to Plato's Republic. In Plato's Cleitophon: On Socrates and the Modern Mind editor, translator, and author, Mark Kremer, has mined some of the best scholarship on the relationship of Plato's Cleitophon and its relationship to modern thought. It is the

contention of the editor that the Cleitophon, is an ancient example of the psychic, social, cultural, and moral strain that is put upon the citizens of a republic when their society begins to erode on all fronts. This work has the potential to afford readers an ancient perspective on ourselves by showing us how we appear in Plato's mind. It should be read by anyone who has ever read Plato's Republic; as well as anyone who is concerned about the social, psychic, cultural, and moral effects of postmodernity and globalization.

Therapeutic Jurisprudence at the Conference of the International Association of Law & Mental Health in Padua, Italy Routledge

Exploring Communication Law, Second Edition, provides an overview of the law as it pertains to print, broadcast, and online journalism, as well as non-journalistic forms of expression. It begins by introducing students to the First Amendment in a general sense, then explores how the principles of free speech are applied in various circumstances, such as political speech, sexual expression, and K-12 and college campuses. The text also explains the fundamentals of media law in areas such as defamation, privacy, the media and the courts, confidentiality and privilege, access to information, broadcasting, and cyberspace.

Volume 14 #3 Routledge

This book presents a framework for the use of Socratic strategies in psychotherapy and counseling. The framework has been fine-tuned in multiple large-scale cognitive behavior therapy (CBT) training initiatives and is presented and demonstrated with applied case examples. The text is rich with case examples, tips, tricks, strategies, and methods for dealing with the most entrenched of beliefs. The authors draw from diverse therapies and theoretical orientation to present a framework that is flexible and broadly applicable. The book also contains extensive guidance on troubleshooting the Socratic process. Readers will learn how to apply this framework to specialty populations such as patients with borderline personality disorder who are receiving dialectical behavior therapy. Additional chapters contain explicit guidance on how to layer intervention to bring about change in core belief and schema. This book is a must read for therapists in training, early career professionals, supervisors, trainers, and any clinician looking to refine and enhance their ability to use Socratic

strategies to bring about lasting change.

Journal of the Association of Legal Writing Directors Charles C Thomas Pub Limited

By introducing the reader to the main issues and themes that have determined the development of the Western linguistic tradition, an evolution of linguistic thought quickly becomes apparent. Each chapter in this accessible book contains a short extract from a 'landmark' text followed by a commentary which places the text in its social and intellectual context. The authors, who consider writers from Aristotle to Caxton to Saussure, have fully revised the original edition of this text. Complete with two new chapters on Bishop John Wilkins and Frege, a revised preface and updated bibliography, this book will be invaluable to anyone with an interest in the History of Linguistics, or the History of Western Thought.

Socratic Circles R&L Education

Maatian Ethics in a Communication Context explores the ethical principle of Maat: the guiding principle of harmony and order that permeated classical African political and civil life. The book provides a rigorous, communication-focused account of the ethical wisdom ancient Africans cultivated and is evidenced in the form of recovered written texts, mythology, stelae, prescriptions for just speech, and the hieroglyphic system of writing itself. Moving beyond colonial stereotypes of ancient Africans, the book offers insight into the African value systems that positioned humans as inextricably embedded in nature, and communication theory that anchors good communication in careful listening habits as the foundational moral virtue. Expanding on the work of Maulana Karenga, Molefi Kete Asante and other groundbreaking scholars, the book presents a picture of civilizations with a shared lust for life, a spiritual connection to scientific speech, and the veneration of ancestors as deeply connected to the pursuit of wisdom. Offering an examination of Maat from a specifically communication ethics perspective, this book will be of great interest to scholars and students of Communication Ethics, African philosophy, Rhetorical theory, Africana Studies and Ancient History.

Teaching Leadership Routledge

This book, first published in 1992, introduces some of Socrates'

problems and some of the problems about him. It seeks at the same time to advance new views, arguments and information on Socrates' mission, techniques, ethics and later reception. From civil disobedience to ethics, this collection provides stimulating discussions of Socrates' life, thought and historical significance. *Still Unequal* Routledge

Now in its Third Edition, *Mass Media Revolution* remains a dynamic guide to the world of mass media, enhancing its readers' development as critical consumers. The text employs a storytelling narrative style and integrated, chapter-specific digital material, providing a seamless learning experience. It features a wealth of expanded content—with particular attention to diversity in the media industry, reality TV, ethics and social media, and the evolution of online journalism. Chapter content, both print and online, is aligned to the ACEJMC national academic standards. Along with student video resources, this text includes an accompanying instructor resource manual and Power Point slides. All supplementary materials can be found at massmediarev.com.

The Law of Public Communication, 11th Edition Routledge

Anyone who has attended law school knows that it entails an important intellectual transformation, frequently referred to as "learning to think like a lawyer." This process, which subtly induces students to think and talk in radically new and different ways about conflicts, is largely accomplished in first-year law school classes where professors inculcate new attitudes toward spoken and written language. Elizabeth Mertz's book is the first study to truly delve into that language to reveal the complexities of how this process takes place. She concludes that the transformation law students undergo is as much a shift in how they approach language—how they talk and read and write—as in how they "think."

Exploring Communication Ethics Routledge

THE genuineness of the Laws is sufficiently proved (1) by more than twenty citations of them in the writings of Aristotle, who was residing at Athens during the last twenty years of the life of Plato, and who, having left it after his death (B. C. 347), returned thither twelve years later (B. C. 335); (2) by the allusion of Isocrates—writing 346 B. C., a year after the death of Plato, and probably not more than three or four years after the composition of the Laws—who speaks of the Laws and Republics written by philosophers (??? ??? ???????); (3) by the reference (Athen. 226

A) of the comic poet Alexis, a younger contemporary of Plato (fl. B. C. 356–306), to the enactment about prices, which occurs in Laws xi. 917 B foll., viz. that the same goods should not be offered at two prices on the same day; (4) by the unanimous voice of later antiquity and the absence of any suspicion among ancient writers worth speaking of to the contrary: for it is not said of Philippus of Opus that he composed any part of the Laws, but only that he copied them out of the waxen tablets, and was thought by some to have written the *Epinomis* (Diog. Laert. iii. 25). Aeterna Press

Exploring New Models, Standards, and Best Practice University of Chicago Press

Exploring Communication Ethics is a comprehensive textbook on the ethical issues facing communication professionals in today's rapidly changing media environment. Empowering students to respond to real-world ethical dilemmas by drawing upon philosophical principles, historical background, and the ethical guidelines of major professional organizations, this book is designed to stimulate class discussion through real-world examples, case studies, and discussion problems. Students will learn how to mediate between the best interests of their employers and their responsibilities toward other parties, and to consider how economic, technological, and legal changes in their industries affect these ethical considerations. It can be used as a core textbook for undergraduate or graduate courses in communication or media ethics, and provides an ideal supplement for specialist classes in public relations, professional communication, advertising, political communication, or journalism and broadcast media.

Encouraging Critical Thinking and Problem Solving Through Dialogue (Grades 8-12) Routledge

Matt Copeland has created a coaching guide for both the teacher new to Socratic seminars and the experienced teacher seeking to optimize the benefits of this powerful strategy. Socratic Circles also shows teachers who are familiar with literature circles the many ways in which these two practices complement and extend each other. Filled with examples to help readers visualize the application of these concepts in practice, *Socratic Circles* includes transcripts of student dialogue and work samples of preparation and follow-up activities. The helpful appendices offer ready-to-copy handouts and examples, and suggested selections of text

that connect to major literary works.

Exploring Socrates' Use of Protreptic for Student Engagement Oxford University Press

The relation between virtue and knowledge is at the heart of the Socratic view of human excellence, but it also points to a central puzzle of the Platonic dialogues: Can Socrates be serious in his claims that human excellence is constituted by one virtue, that vice is merely the result of ignorance, and that the correct response to crime is therefore not punishment but education? Or are these assertions mere rhetorical ploys by a notoriously complex thinker? Lorraine Smith Pangle traces the argument for the primacy of virtue and the power of knowledge throughout the five dialogues that feature them most prominently—the *Apology*, *Gorgias*, *Protagoras*, *Meno*, and *Laws*—and reveals the truth at the core of these seemingly strange claims. She argues that Socrates was more aware of the complex causes of human action and of the power of irrational passions than a cursory reading might suggest. Pangle's perceptive analyses reveal that many of Socrates's teachings in fact explore the factors that make it difficult for humans to be the rational creatures that he at first seems to claim. Also critical to Pangle's reading is her emphasis on the political dimensions of the dialogues. Underlying many of the paradoxes, she shows, is a distinction between philosophic and civic virtue that is critical to understanding them. Ultimately, Pangle offers a radically unconventional way of reading Socrates's views of human excellence: Virtue is not knowledge in any ordinary sense, but true virtue is nothing other than wisdom. Routledge

The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work *Republic* (514a-520a) to compare "the effect of education (παίδεῖα) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b-509c) and the analogy of the divided line (509d-511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d-534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

Exploring Education at Postgraduate Level Routledge

As an essential companion to Plato's Apology and Crito, Socrates Against Athens provides valuable historical and cultural context to our understanding of the trial.

Plato's Cleitophon Edward Elgar Publishing

Creativity, Critical Thinking, and Communication contains research, strategies, and lesson plans that will help increase students' skill level in the 3 Cs: creativity, critical thinking, and communication. The strategies of the 3 Cs renew stale curricula and supports deeper learning of core concepts. This book provides parents and those interested in the education system a glimpse into how schools can be more efficient and effective by saving what works in education.

Creativity, Critical Thinking, and Communication Routledge This exciting new textbook provides a sophisticated examination of the Socratic method for teaching political science students in higher education. It shows how the Socratic method is employed in the Platonic dialogs, compares its transformative approach to other student-centered teaching philosophies, and addresses the challenges of adopting the Socratic method in the contemporary classroom. The book is divided into three sections that integrate these practical aspects on the Socratic method with the theoretical considerations of Socratic philosophy while also addressing contemporary concerns about teaching and learning in higher education. Section One explores how the Socratic method is portrayed by Socrates in Plato's dialogs. Section Two compares the Socratic method with modern and contemporary accounts of teaching and learning. Section Three examines some of the contemporary challenges of practicing the Socratic method in the university classroom today and how teachers can overcome them. Written in a clear and engaging style, this timely intervention is essential reading for upper undergraduate students enrolled in courses that specialize in pedagogical techniques, political theory, Socratic philosophy, and law.

The Western Tradition From Socrates To Saussure Routledge

Situating contemporary critical praxis at the intersection of the social, the political, and the rhetorical, this book is a provocative inquiry into the teaching philosophies of Plato's Socrates and Paulo Freire that has profound implications for contemporary education. Brown not only sheds new light on the surprising and significant points of intersection between ancient rhetoric and

radical praxis as embodied in the teaching philosophies of Socrates and Freire, using the philosophy of each to illumine the teaching of the other, but uses this analysis to lead contemporary education in a bold new direction, articulating a vision for a neo-humanist pragmatism. The book draws on the post-Freudian theories of Jacques Derrida, Peter Brooks, and Otto Rank, as well as on the neo-pragmatism of Cornell West to craft a new radical pedagogy configured to the realities of "post flash-crash" America. In the process, it discovers a space for a much broader application of Freire's teaching philosophy than previous works, moving beyond a narrow focus on "liberatory" pedagogy or "teaching resistance," toward a neo-humanist pragmatism emphasizing interactive learning, problem-posing analysis, and civic engagement. Brown crafts a social-epistemic praxis that fuses the pedagogies of Freire and Socrates, joining the analytical, the ethical, and the political as part of an inquiry and intervention into the real, the good, and the possible that poses problematic aspects of contemporary reality in a search for the program content of a Pedagogy of Social Change.

A Socratic Approach by Bobbitt, Randy, ISBN 9780205462315
Routledge

Socrates, son of Sophroniscus, of Alopece is arguably the most richly and diversely commemorated - and appropriated - of all ancient thinkers. Already in Antiquity, vigorous controversy over his significance and value ensured a wide range of conflicting representations. He then became available to the medieval, renaissance and modern worlds in a provocative variety of roles: as paradigmatic philosopher and representative (for good or ill) of ancient philosophical culture in general; as practitioner of a distinctive philosophical method, and a distinctive philosophical lifestyle; as the ostensible originator of startling doctrines about politics and sex; as martyr (the victim of the most extreme of all miscarriages of justice); as possessor of an extraordinary, and extraordinarily significant physical appearance; and as the archetype of the hen-pecked intellectual. To this day, he continues to be the most readily recognized of ancient philosophers, as much in popular as in academic culture. This volume, along with its companion, Socrates in the Nineteenth and Twentieth Centuries, aims to do full justice to the source material (philosophical, literary, artistic, political), and to the range of interpretative issues it raises. It opens with an Introduction

surveying ancient accounts of Socrates, and discussing the origins and current state of the 'Socratic question'. This is followed by three sections, covering the Socrates of Antiquity, with perspectives forward to later developments (especially in drama and the visual arts); Socrates from Late Antiquity to medieval times; and Socrates in the Renaissance and Enlightenment. Among topics singled out for special attention are medieval Arabic and Jewish interest in Socrates, and his role in the European Enlightenment as an emblem of moral courage and as the clinching proof of the follies of democracy.

A Socratic Approach Academic Internet Pub Incorporated

"When I used it, I felt it was a very valuable resource, linking work with the arts to the theoretical foundations of counseling."--Sally S. Atkins, EdD Professor Emerita Founding Director of Expressive Arts, Appalachian State "They [Students] like the activities since it helps them learn more about the counseling theory which was discussed in the Theories of Counseling class. It provides more application. Some activities are pretty detailed and class time does not allow for much practice. But, we discuss how this could be used in therapy sessions/groups... [The book] is short and very pointed in its information and use. We like it!"--Judy A. Schmidt, EdD, CRC, LPCA University of North Carolina at Chapel Hill Expanded and revised to reflect a broader understanding of the complementary approach to therapeutic treatment, this is the only text to integrate expressive arts counseling techniques with major theories of counseling and psychology. Substantial changes to the second edition include new chapters that address Neuroscience and Counseling, Trauma-Informed Counseling, Animal-Assisted Therapy, Mindfulness and Counseling, and Family Counseling, along with a greater emphasis on cultural and diversity considerations throughout. The book is updated with over 30 new interventions including animal-assisted and videographic interventions, and new information about the neuroscientific foundations of expressive arts therapies. Updated references in each chapter, and a suite of Instructor's Materials also add to value of the second edition. The text integrates expressive arts therapies with 12 commonly used treatment modalities. Each chapter reviews a particular theory and describes how expressive and creative techniques can support and be easily integrated within that orientation. Over 90 field-tested, step-by-step interventions—created by leading

practitioners—offer students and clinicians techniques that can be put to use immediately. New to the Second Edition: New chapters address Neuroscience and Counseling, Trauma-Informed Counseling, Animal-Assisted Therapy, Mindfulness and Counseling, and Family Counseling and the Expressive Arts.

Cultural and diversity considerations in each chapter. Updated with new references. Over 30 new interventions including videography. Instructor's materials. Key Features: Integrates expressive arts counseling techniques with 12 major theories of counseling and psychology. Presents over 90 expressive art

interventions in easy, step-by-step format. Includes art, writing, bibliotherapy, drama, music, movement, dance, puppetry, and sand play. Discusses appropriate populations, settings, and diagnoses for each intervention. Includes interventions that can be put to use immediately.
