 Aviation Maintenance  
 MinuteGe90 EngineThe  
 General Electric GE90 is a  
 family of high-bypass  
 turbofan aircraft engines  
 built by GE Aviation for  
 the Boeing 777, with  
 thrust ratings from 81,000  
 to 115,000 lbf (360 to 510  
 kN). It entered service  
 with British Airways in  
 November 1995.General  
 Electric GE90 -  
 WikipediaThe GE90  
 engine family powers all  
 Boeing 777 models. It is  
 the exclusive powerplant  
 on the Boeing 777-300ER,

-200LR, and Freighter. The engine has accumulated nearly 100 million flight hours and 14 million cycles since entering service. The GE90 Engine | GE Aviation GE90 Aircraft Engines Specifically designed for the Boeing 777, the GE90 is the world's most powerful turbofan (having demonstrated over 127,000 pounds of thrust). It is the exclusive powerplant for long-range 777-300ER and -200LR twinjets GE90-115B GE90 Aircraft Engines | GE The GE90 engine held the

world record as the most powerful jet engine for 17 years at 127,900 pounds of thrust until the newly-certified GE9X engine achieved the new mark of 134,300 pounds. The GE90 Engine Celebrates 25 Years of Service | Aviation Pros The GE90 engine has been among the most reliable in the industry with a world class dispatch reliability rate of 99.97 percent. In July, the engine family surpassed 100 million flight hours. "We are excited to celebrate another GE90 milestone and would like

to congratulate everyone involved in the engine's success," said Mike Kauffman ... The GE90 Engine Celebrates 25 Years of Service The GE90 engine held the world record as the most powerful jet engine for 17 years at 127,900 pounds of thrust until the newly-certified GE9X engine achieved the new mark of 134,300 pounds. Entry into service of the GE90-94B carried several distinctions: GE Aviation's first new baseline engine for large commercial aircraft in more than 20

yearsThe GE90 engine celebrates 25 years of service | The GE ...GE Aviation's massive GE90 engine has surpassed 100 million flight hours. In November, the aircraft engine will mark 25 years in service. Under the wings of the Boeing 777 family, the GE90 engine reached the 100-million-hour mark averaging more than 4 million hours a year.
