Positive Thinking is a Bunch of Crap - and Crap Makes Great Fertilizer "A positive attitude may not solve all your problems, but it will annoy enough people to make it worth the effort." Herm Albright At some point in your life, you've probably heard about the power of positive thinking. Basically, this is a theory that contends if you believe good things will happen to you, there will be some sort of cataclysmic shift in the energies surrounding you which will actually cause good things to happen to you. For as many people who believe in the power of positive thinking, there are many more who believe it's all a bunch of New Age pop psychology drivel or sugar-coated Peter Pan platitudes. Here's the kicker: they're all right. You see, positive thinking is a system of beliefs. So if you believe it doesn't work-then, of course, it won't work. And if you believe it does work...well, you get the idea. For non-believers, using positive thinking is like trying to get a job after high school. You need experience to get a job, but you need a job to get the experience. It can be difficult to know where you're supposed to start. But just like any other process, the key to making positive thinking work for you is to start small. Plant seeds, if you will, and then learn how to tend and cultivate those seeds until you have a mental garden that bears a phenomenal crop, year after year. Anything is possible with positive thinking...even if you do believe it's all a bunch of crap. Norman Vincent Peale, the father of positive thinking, once said: "If you have zest and enthusiasm you attract zest and enthusiasm. Life

does give back in kind." This is the essence of positive thinking. It's not so much a theory as it is a contagious disease. Just as anger and negativity spread quickly from person to person, so do humor and happiness- only good feelings spread far faster. Think about it: have you ever noticed that the quickest way to ease a tense situation is to make a joke? The instant someone laughs or smiles, a sense of relief spreads through everyone in the vicinity. Even if the angered parties don't feel better, they are at least able to discuss the problem in a detached and objective way, and get on with their lives instead of dwelling on negativity. For that same reason, solo drivers who get cut off in traffic tend to remain angry for at least the rest of the drive- because there is no one else near them to send out good vibrations and break the tension. Makes sense, doesn't it? If you've picked up this book and read this far, the seeds of belief are already there. Your next step is to clear your mind's garden of doubt and get ready to plant. You'll learn how to take all that negativity and mulch it down into fertilizer that will let your possibilities grow. Now grab your shovel, and let's head in to the garden. The biggest tree in the world grows from a seed you can hold between two fingers. "Whether you think you can or whether you think you can't...you're right." - Henry Ford

Wenn Sie diese Zusammenfassung lesen, werden Sie entdecken, wie Sie in Ihrem Leben erfolgreich sein können, indem Sie das perfekte Gleichgewicht zwischen Ihrem Geist und Ihrem Körper finden. Sie werden auch entdecken, : dass Meditation das ultimative Mittel gegen Ängste ist; dass die Erwartung des Besten

immer ... das Beste bringt; dass Sie Ihr Leben ändern können, indem Sie Ihre Denkweise ändern; dass Scheitern oft eine Voraussetzung für Erfolg ist; dass Sie der Handwerker Ihres eigenen Glücks sind. Heute gibt es viele Bücher über positives Denken und das Gesetz der Anziehung: Denke, was du willst, und es wird geschehen. Jeder Autor schreibt aus seiner persönlichen Situation heraus und kann daher gute Ratschläge geben, die auf seinen eigenen Erfahrungen beruhen. N. V. Peale hat sich selbst immer als schüchternes Kind mit Minderwertigkeitskomplexen betrachtet. Der Weg zur Selbstsicherheit war lang. Er liest Bücher großer Denker wie Marcus Aurelius - römischer Kaiser und Philosoph - oder Thoreau - amerikanischer Philosoph und Dichter - und begreift, dass die Macht des positiven, konstruktiven Denkens groß ist. Wie alles Lernen erfordert auch dieses Durchhaltevermögen, unermüdliche Motivation und den Glauben an den Erfolg. Wenn Sie von nun an die Ratschläge befolgen und die vorgestellten Methoden anwenden, werden Sie sich in einem kämpferischen Geisteszustand befinden und Misserfolge mit einer Handbewegung zurückdrängen, weil sie keinen Einfluss mehr auf Sie haben werden.

Positive Thinking Running Press Miniature Editions

This book, "Positive Thinking: Change your Attitude, Change Your Life" will do just what the title says, it will change your life. This is not your run of the mill power of positive thinking book. It not only tells you about the power of positive thinking and how to utilize this to change your life, but it also explains HOW this works, how your mind works and why negative thinking can and will bring about negative consequences. The author draws upon real life circumstances and analogies to bring the information

contained within this book to life, explaining in detail not only how or thinking can keep us from succeeding, but tells us why it works the way it works and how we can combat it to help us succeed in meeting our goals and being the person we were truly meant to be. He does this in a no-nonsense straight forward manner, encouraging us to be the best we can be by silencing those thoughts that tend to put us in this negative cycle. In this book you will learn about: How your mind works to realize your commands How to train your mind to think in positive patterns How to focus on the present and realize the only time is now How to quiet the inner voice of negativity How to overcome those outer voices of negativity How to get past your past How to focus on the present in order to meet your future goals and a whole host of other information to help us understand ourselves, our minds and our potential for being the best we can possibly be. I have personally read many self-help books that promise to bring the power of positive thinking to reality but have often ended up disappointed and disillusioned with the feeling that there was something I was missing, or maybe it was all just some sort of joke or hoax. This book actually helped me to realize what it was I was missing, where many of those books left me still spiraling out of control, trying to use "positive affirmations" but still failing, this book explained in detail the steps I need to take and helped me to really understand how positive thinking works. One chapter, titled "The Power of Negative Thinking" really brought it all into focus and showed me why, previously I was unable to use positive thinking as I was already bogged down with so many negative thoughts. This book also helps you in becoming aware of your "self" to recognize how you might react to situations, then

recognize the "voice" that guides you in your reaction and finally using positive affirmations to release the negative. By the time you are finished reading this book you will find yourself much more informed and equipped to do battle with negativity than you ever realized was possible. The reading is easy and informative with many illustrations and examples so that you can get a great grasp of the subject matter, regardless of your level of comprehension. I read this book to my 9 year old, just to see if he would "get it" and he actually understood the concepts just as well as I did once I finished reading it to him and immediately started putting the concepts into practice. This is the best self-help, positive thinking book I have ever read, which is why I took the time to write this description, as a reader who has been looking for something like this for a long time. I think you will agree that this book will definitely change your attitude and change your mind and will set you on a road to success through Positive Thinking. Give it a read, and let me know what you think in the comments below. I just want to say, if this doesn't help you to see the potential within your own mind, nothing will. Good reading!"

You've heard of the Power of Positive Thinking. There's no doubt about it...the human mind is an amazingly powerful computer, capable of transforming our lives. But achieving what you want in life isn't accomplished by sitting in your comfy chair and visualizing all day long. Far too many people neglect to ACT on their own behalf in order to bring their dreams to life. As cosmetics company founder and CEO Estee Lauder put it so well,

"I didn't get here by dreaming about it or thinking about it — I got here by doing it." In *The Power of Positive Doing*, BJ Gallagher has captured the "secret" no one is talking about — you can actually change your thoughts and attitudes by taking positive ACTION, no matter what you're thinking or feeling! She calls it the "The Power of Positive DOING" — the title of her latest book. B.J. is no stranger to Simple Truths' readers. The author of more than 20 books, including *Friends*, *Oil for Your Lamp*, and *The Best Way Out is Through*, her engaging stories and original poetry have put her on our best-seller list.
