Even with enormous potential, most people set out unequipped to achieve their goals and dreams. Just as there are laws that govern nature, there are also laws that govern performance and achievement.

Unfortunately, people are either unaware of them, and therefore do not align themselves accordingly, or they simply are not applying them consistently. As a result, many people seek to achieve goals, but find that the results they desire constantly elude them. The reality is that you have greatness within. Your

potential is enormous. However, in order to unleash your potential and achieve your goals, you must understand and apply the governing laws that turn dreams into reality. There are proven laws of success that starts with the way you think. This book provides simple strategies and tactics for achieving success. Over the last few hundred years of recorded history, the common denominators that lead to personal achievement have consistently surfaced. By changing your thinking about yourself and by applying the 13 laws within this book, you can begin making your goals a reality. Within the pages of this book are powerful stories and examples of success and failure

that will inspire all who read them. TJ shows you what habits must be formed and what steps must be taken to achieve any goal you set. Simple and concise, "If You Think You Can!" is a source that will help you achieve whatever you want in life.

Hey kids, do you want to know how to make all-stars for your baseball league? Or parents, do you feel like the coaches keep passing your child up? Well no more! Or coaches, want drills and ways to motivate your players to get better? Coach Andy Collins is going to tell you everything he knows from his 35 years of youth and adult coaching and watching what works

and what doesn't work. It's chock-full of ideas in 86 pages. He'll cover: * How your league chooses all-stars * What all-star selectors are really looking for * 7 tried and true methods of getting better at baseball * But more importantly, little known ways to get the people picking the team to notice you * And how to beat the "politics" that seem to get in the way Year after year kids sit in the stands crying after the all-star teams are announced and they weren't one of the players that were chosen. At the same time the students I've trained do make these same all-star teams. It was then I realized I had the information that the kids in the stands and their

parents and coaches were looking for. Wherever there are kids around the world that play youth baseball, there are kids that long to make the league's all-star team. Every year it's the same, kids that desperately want to have their name called out (or see it announced on the list) don't make it, and a little bit of them is hurting deep inside; and they don't know why they were not picked. Little did they know that they could have fairly accurately predicted their chances almost from day one of when the season started. And if they knew what you're about the find out, they could improve enough in skill in the eyes of the all-star selectors as to be a better player or

even make the all-star team. The good news is that in this book, there is a way to learn how to make the all-star team for the next upcoming season; and if not then, the following year (if you're willing to listen and follow the advice I give). While I have written this for parents and coaches to learn how this process works and how they can help these youngsters achieve their dreams, this is mostly a book written for the kid who wants to make all-stars, not a book for the parent who wants their kid to make all-stars (there is a difference). And it will be in that voice that this book will be written.
