## ELIEZER WESTON

**Handbook of Research on Entrepreneurs Engagement in Philanthropy** The Wiley  
Handbook of Entrepreneurship

This book is a well written and handy source for readers. Additionally, it provides an overview of current issues relevant to the development of entrepreneurial policy, which is based on interesting case studies across a number of nations. . . Dessy Irawati, International Journal of Entrepreneurial Behaviour and Research What is new in the world is the need to understand business dynamics; the entry, exit and growth of firms in the economy. This dynamic firm structure, as opposed to the static firm structure that dominated past thinking, has spurred an outpouring of research. The heart of the issue is that while many have identified the importance of business dynamics (entry and exit) we have only recently taken a closer look at the ecological system in which some companies must die for others to thrive. Entrepreneurs are the predators of this system. Public policy in an entrepreneurial economy (dynamic) must limit the forces that prevent firm exit and foster the forces that promote firm entry. This book makes an important contribution to the debate. Zoltan J. Acs, George Mason University, US and Max Planck Institute of Economics, Germany This unique Handbook provides a solid foundation for essential study in the nascent field of entrepreneurship policy research. This foundation is initially developed via the exploration of two significant propositions underpinning the nature of entrepreneurship policy research. The first is that entrepreneurship has emerged as a bona fide focus of public policy, particularly with respect to economic growth and employment creation. The second is that neither scholars nor policy makers are presently equipped to understand the public policy role for entrepreneurship. The contributors experienced scholars, specialist researchers and dynamic policy makers thus grapple with novel questions of considerable policy relevance that few have previously posed. The Handbook therefore provides some of the first crucial, systematic analyses of important issues, and key questions to be raised in order to move entrepreneurship policy forward are also presented. Written by academics and practitioners drawing examples from both North America and Europe, this stimulating new Handbook is a prerequisite for students, scholars and practitioners in the incipient world of entrepreneurship policy.

**Handbook of Research on Small Business and Entrepreneurship** Edward Elgar Publishing  
Dieses Handbuch vereint erstmals die konzeptionellen Aspekte im Bereich Entrepreneurship in einem Werk. Die Beiträge ausgewiesener Experten vermitteln eine Übersicht über Formen und Instrumente des Entrepreneurship, aktuelle Entwicklungen der Entrepreneurship-Forschung sowie Rollen und Aufgaben des Gründers unter besonderer Berücksichtigung der gesellschaftspolitischen Aspekte von Entrepreneurship. Ergänzt durch Praxisbeispiele gibt das Werk Studenten und Wissenschaftlern einen umfassenden Überblick über den state of the art sowie Gründern konkrete Anleitungen für die Praxis. Der Herausgeber Prof. Dr. Günter Faltn baute den Arbeitsbereich

Entrepreneurship an der Freien Universität Berlin auf und lehrt seit 2013 als Gastprofessor an der Universität Chiang Mai. 1985 gründete er die Projektwerkstatt GmbH mit der Idee der "Teekampagne" als Modell für Entrepreneurship, das Unternehmen wurde zum weltgrößten Importeur von Darjeeling-Tee. Faltn initiierte das Labor für Entrepreneurship und ist Business Angel erfolgreicher Start-Ups. Die Price-Babson-Foundation, Boston, verlieh ihm den Award "For Bringing Entrepreneurial Vitality to Academe". 2001 errichtete er die Stiftung Entrepreneurship mit dem Ziel, eine offenere Kultur des Unternehmerischen zu fördern. 2009 nahm er für die Projektwerkstatt den Deutschen Gründerpreis entgegen. Als "Pionier des Entrepreneurship-Gedankens in Deutschland" zeichnete ihn 2010 der Bundespräsident mit dem Bundesverdienstorden aus.

**Handbook of Research on International Entrepreneurship Strategy** Edward Elgar Publishing  
Introduction to entrepreneurship - The entrepreneurial process - Opportunity and the nature of exploitation - The emergence of new ventures - Financing the new venture - The social context - Entrepreneurship, economic growth and policy.

**International Handbook of Entrepreneurship and HRM** Edward Elgar Publishing  
Softcover version of the successful Handbook which sold over 500 copies world wide. Brings together leading scholars from a broad spectrum of fields such as management, finance, economics, sociology and psychology. Provides an overview of what the issues are for entrepreneurship when viewed through the lens provided by each of the above mentioned academic disciplines.

**Handbook of Research Methods on Social Entrepreneurship** Edward Elgar Publishing  
What do entrepreneurs do? In a comprehensive and detailed exploration using three perspectives - behavior, practice and process - this Research Handbook demonstrates specific methods for answering that question and provides insights into the implications of pursuing that question. The authors demonstrate a variety of methods including ethnography, autoethnography, participant observation, diaries, social media platforms and multilevel research techniques to delve into the foundations of entrepreneurial behavior. In addition to reinvigorating this long dormant area of scholarship, these chapters provide scholars with the idea that the disparate perspectives on this topic are really headed in the same direction. They also demonstrate the notion that similar tools can be utilized to answer the same type of questions emanating from these different perspectives. The contributors go on to offer insights to a wide range of scholarship on organizations.

Entrepreneurship scholars, PhD students, and upper level graduate and undergraduate students who want a current overview on the theories, methods and implications of studying entrepreneurship will welcome the insights explored in this Research Handbook. Contributors include: A. Brattström, O. Byrne, A. Caetano, H.S. Chen, F. Delmar, D. Dimov, A. Fayolle, D. Fletcher, W.B. Gartner, B. Johannisson, A.R. Johnson, T. Karlsson, M. Lackeus, J.R. Mitchell, R.K. Mitchell, H. Neergaard, R.D.M. Pelly, K. Poldner, S.C. Santos, P. Selden, B.T. Teague, N.A. Thompson, C. Thrane, M. Tillmar, H. Vahidnia, E. van Burg, J.P. Warhuus, K. Wennberg

**Handbook of Entrepreneurship Research** IGI Global, Business Science Reference

The aim of the Handbook of Entrepreneurial Finance is to give readers an up-to-date overview of what is known about entrepreneurial finance in all its forms and, at the same time, to show where

this field is heading.

Handbook of Business and Public Policy Oxford Library of Psychology

This comprehensive Handbook provides an analysis of the key issues, accomplishments, and challenges of research and practices related to the interactions between business and public policy. International expert contributors explore how the organizational structures of government and business have changed as the world has become more globalized, and as researchers have accumulated insights into why and how public policy is influenced by, and in turn influences, business. Examining how businesses themselves have increasingly contributed to the making and implementation of policy, chapters illuminate the most significant debates as well as the theoretical and empirical developments in these areas. This approach enables a comparison of the similarities and differences across the field of business and public policy as a whole. Identifying new directions and research questions in this rapidly evolving field, this Handbook will be a useful resource for academics and students of business and public policy, as well as related areas including corporate governance, political economy and international business. Practitioners and policy makers will also benefit from its illumination of the complex relationship between business and public policy.

Handbook of Entrepreneurial Cognition John Wiley & Sons

With a wide-ranging set of contributions, this book provides a compilation of cutting-edge original research in the field of entrepreneurial opportunities. The book reopens the subject from diverse perspectives focusing on theories and approaches to entrepreneurial opportunities. The book has been complemented by an outstanding Delphi panel of six leading scholars of the field: Lowell Busenitz, Dimo Dimov, James O. Fiet, Denis Grégoire, Jeff McMullen and Mike Wright. This carefully edited selection of current and topical contributions will be of immense value to students, researchers and scholars interested in the field of entrepreneurial opportunities.

**Handbook of Entrepreneurship Research** Routledge

Interest in and attention to entrepreneurship has exploded in recent years. Nevertheless, much of the research and scholarship in entrepreneurship has remained elusive to academics, policymakers and other researchers, in large part because the field is informed by a broad spectrum of disciplines, including management, finance, economics, policy, sociology, and psychology, often pursued in isolation from each other. Since its original publication in 2003, the Handbook of Entrepreneurship Research has served as the definitive resource in the field, bringing together contributions from leading scholars in these disciplines to present a holistic, multi-dimensional approach. This new edition, fully revised and updated, and including several new chapters, covers all of the primary topics in entrepreneurship, including entrepreneurial behavior, risk and opportunity recognition, equity financing, business culture and strategy, innovation, and the impact of entrepreneurship on economic growth and development. Featuring an integrative introduction, extensive literature reviews and reference lists, the Handbook will continue to serve as a roadmap to the rapidly evolving and dynamic field of entrepreneurship.

The Wiley Handbook of Entrepreneurship Edward Elgar Pub

This Research Handbook highlights the importance of women as agents of change, acknowledging women entrepreneurs' efforts and supporting their value-creation activities. With important implications for policymaking, contributing authors direct attention to and provide evidence for the

positive contribution of women entrepreneurs to the economy, regardless of their businesses' size and formal status.

Research Handbook of Women's Entrepreneurship and Value Creation Springer Science & Business Media

This timely handbook provides an empirically rigorous overview of the latest research advances on social entrepreneurship, entrepreneurs and enterprises. It incorporates seventeen original chapters on definitions, concepts, contexts and strategy as well as a critical overview and an agenda for future research in social entrepreneurship. What are the forms and manifestations of social entrepreneurship? To what extent should current developments lead to a redefinition of stakeholders' strategies and roles in the quest for better consideration of the social dimension? The highly regarded group of contributors addresses these questions in some detail.

Handbook of Qualitative Research Techniques and Analysis in Entrepreneurship Edward Elgar Publishing

'A work of seminal and original economic scholarship, the Handbook of Research on Entrepreneurship Policies in Central and Eastern Europe is strongly recommended as a core addition to governmental and academic library economic policy studies reference collections, and critically important reading for economists and academicians concerned with Europeans current economic crisis.' - the Midwest Book Review

Handbuch Entrepreneurship Edward Elgar Publishing

Currently, very little academic research exists on the intersection of entrepreneurship and philanthropy. This unique Handbook fills that gap, exploring how and why entrepreneurs who drive success in the for-profit world become engaged in philanthropy

Research Handbook on Entrepreneurial Opportunities Springer

Shaping Entrepreneurship Research: Made, as Well as Found is a collection of readings designed to support entrepreneurship research. Focused on a worldview in which the future is open-ended and shapeable through human action - i.e. "made", this collection reframes entrepreneurship as a science of the artificial rather than as a natural or social science. It posits an open-ended universe for the making of human artifacts even if large swathes of nature and society are not within the control of the people making them. The book explores the notion of "made" through 25 foundational readings - classics from the history of ideas. Organized into five sections, each classic is individually introduced by the editors in one of five chapters written to explain its relevance and significance for a "made" view of entrepreneurship. Readers will benefit from exposure to these classic ideas and ongoing research in a variety of areas that fall somewhat outside the line-of-sight of traditional entrepreneurship research. Both individually and collectively, the readings suggest opportunities to ask new questions and develop new ways of framing entrepreneurship research that carry the discussion beyond worlds found to worlds made as well as found. The book is crafted to be valuable to three groups of scholars: young scholars with limited or no access to research infrastructure but with a desire to participate in deep conversations; young scholars with access to research infrastructure who also desire to listen-in on a different kind of conversation; and established entrepreneurship scholars who are contemplating an alternative set of foundational ideas to support their conversations in the discipline.

Handbook of Research on Small and Medium Enterprises in Developing Countries de Gruyter  
The Wiley Handbook of Entrepreneurship John Wiley & Sons

Handbook of Research on Entrepreneurship in Professional Services Edward Elgar Publishing

This comprehensive Handbook provides an essential analysis of new venture creation research. The eminent contributors critically discuss and explore the current literature as well as suggest improvements to the field. They reveal a strong sense of both the 'state-of-the-art' (what has and has not been done in new venture creation research) and the 'state-of-the-could-be' (future directions the field should take to improve knowledge). The Handbook comprises nineteen chapters divided into four main sections: setting the agenda; theoretical perspectives; data and measurements; and new venture creation through contextual lenses.

International Research Handbook on Successful Women Entrepreneurs Edward Elgar Publishing

Creativity can be viewed as the first stage of the overall innovation process, an important dimension of the entrepreneurship and new venture creation processes, and as such, it is considered to be a cornerstone of organizational competitiveness in this global, knowledge-based economy. Research on creativity has increasingly become multilevel, with most work conducted at the individual or team level of analysis. At the same time, there is a large body of research being conducted at the organizational level of analysis on innovation, and there has been a significant amount of entrepreneurship research at the individual level, with an increasing focus on organizational entrepreneurship. However, these three research streams have developed independently, and there has been very little knowledge transfer between the three areas. Because entrepreneurship is often said to be a process that is required to convert innovation into business ventures that will deliver benefits to stakeholders, it is typically driven by an individual or small group of individuals. Creativity research, innovation research, and entrepreneurship research have the potential to inform each other, enriching our knowledge of each area, particularly with regard to the cognitive processes and behaviors that are most effective. This Handbook includes contributions from the leading scholars in these three research areas, who integrate contemporary research findings on organizational creativity, innovation, and entrepreneurship and provide fruitful new research directions."

Handbook of Entrepreneurship Research Edward Elgar Publishing

'This collection on successful women entrepreneurs is timely. Entrepreneurship and small business creation and management are vital to tackle the current worldwide economic recession. Various stakeholders - policy-makers, academics, budding entrepreneurs - will find this book of interest. A number of country-level initiatives that serve to support women's entrepreneurship are offered that can work almost anywhere. The focus on successful women entrepreneurs is valuable in showing that women can do it and how they achieved their successes. Readers will find the women's voices reported here to be inspirational.' - Ronald J. Burke, York University, Canada

**Handbook of Research on International Entrepreneurship** Campus Verlag

Provides a comprehensive picture of issues dealing with different sources of entrepreneurial finance and different issues with financing entrepreneurs. The Handbook comprises contributions from 48 authors based in 12 different countries.

Researching Entrepreneurship Edward Elgar Publishing

Dana's Handbook is an essential read for international entrepreneurship scholars as well as policymakers and practitioners concerned with the dynamics associated with the international entrepreneurship process. Succinct reviews of the literature and useful summary tables relating to key themes and studies are presented by a number of contributors. . . Paul Westhead, *International Small Business Journal* This is a formidable and weighty tome. . . More important than sheer quantity is consideration of the quality, and here the broad spread yet eclectic choice of the research papers is most enlightening. The contributing authors have collectively condensed much of the knowledge garnered from the past five years of this global field into one handy sourcebook. . . The end result is, indeed, a fresh recognition, if recognition still needs to be made, of the major importance of this new global growth phenomenon of international entrepreneurship. Mark Haydon, *International Journal of Entrepreneurship and Innovation* The Handbook is a nearly comprehensive reference work to the field that will be useful to scholars new to the area as well as those already engaged in it. . . I was impressed by the diversity of the authors. . . The Handbook is an excellent broad reference to the field. Ben Oviatt, *Journal of International Business Studies* Over the last few years there has been an increased interest in research on the internationalization of new ventures and the global challenges facing growing young businesses. The Handbook of Research on International Entrepreneurship has collected and synthesized the contributions of leading researchers in an effort to define and categorize the unique contributions and state-of-the-art of this emerging field. It provides a comprehensive, multi-disciplinary treatment that advances the frontiers of knowledge regarding the fundamental concepts, methods, and theories of international entrepreneurship. The Handbook should serve as both an authoritative and comprehensive reference work for researchers, and a state-of-the-art compilation of new insights for educational leaders. Ari Ginsberg, *New York University Stern School of Business*, US Entrepreneurship and international business have remained separate subjects for far too long. The study of international entrepreneurship thrives on the cross-fertilisation of ideas between these fields. It is one of the most dynamic research areas in economics and management. The contributors to this Handbook are the pioneers in the field, and this volume provides a definitive survey of their work. Mark Casson, *University of Reading*, UK These notable researchers share a common dedication to rigorous methodologies and vigorous research. Together in this volume, the researchers have assembled and presented a cross-section of tested methods, and innovative approaches. These contributions are an inspiration to younger researchers, and this bids fair to set the tone, and level of intellectual rigour and vigour for future research in the emerging field of international entrepreneurship. From the preface by Bob Kirk, *University of Canterbury*, New Zealand This unique reference book provides an array of diverse perspectives on international entrepreneurship, a new and emerging field of research that blends concepts and methodologies from more traditional social sciences. The Handbook includes chapters written by top researchers of economics and sociology, as well as academic leaders in the fields of entrepreneurship and international business. State-of-the-art contributions provide up-to-date literature reviews, making this book essential for the researcher of entrepreneurship and the internationalisation of entrepreneurs.
