Chapter 12 Stoichiometry Guided Reading Chapter 12 Stoichiometry127. SECTION 12.1 THE ARITHMETIC OF EQUATIONS (pages 353-358) This section explains how to calculate the amount of reactants required or product formed in a nonchemical process.

SECTION 12.1 THE ARITHMETIC OF EQUATIONS

Introduce the term sto- ichiometry in your own words. Stress that stoichiometry allows students to calculate the amounts of chemical sub- stances involved in chemical reactions using information obtained from bal- anced chemical equations.
