Henry James's travel writings are at once literary masterpieces, unsurpassed guidebooks and penetrating reflections on the international themes familiar from his fiction. This volume, the second of two, begins with the classic *A Little Tour in France* (1900), illustrated with Joseph Pennell's exquisite drawings from the

original edition. James begins his tour of the French countryside one rainy morning in mid-September of 1882, when he sets off for the city of Tours as a means of exploring the proposition that "though France might be Paris, Paris was by no means France." From Tours, Balzac's birthplace, James travels to the great chateaux of the Loire Valley, visiting Chambord, Amboise, Chenonceaux, and Blois, where, as you cross the threshold, "you step straight into the sunshine and storm of the French Renaissance." Dense with literary associations and historical

echoes, James's prose brings castles and cathedrals and old walled towns to life. In his glancingly precise visual evocations of terrain and cityscape, he realizes his ambition "to sketch without a palette or brushes." Henry James loved Italy, "a beautiful disheveled nymph" to England's "good married matron." The incisive and witty essays in *Italian Hours* (1909) describe memorably happy sojourns in Venice, Rome, and Florence, and excursions to Siena, Assisi, Perugia, Capri, Ravenna, and other Italian cities. "Nowhere do art and life seem so

interfused” as in Venice, wrote James in celebration of the splendor of Venetian light and color, air, and history. He records his radiant impressions of Roman churches and aqueducts, museums and fountains, and rambles through the gardens of the Villa Borghese in spring, when Rome seems lighted “with an irresistible smile.” All these essays are filled with James’s intense pleasure in Italian places and people. This volume concludes with sixteen essays on such varied places as Switzerland, Holland, Rheims, and the Pyrénées, including a memorable account of the American volunteer ambulance corps in Europe during World War One. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation’s literary heritage by publishing, and keeping permanently in print, America’s best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

Signs orient, inform, persuade, and regulate. They help give meaning to our natural and human-built environment, to landscape and place. In *Signs in America’s Auto Age*, cultural geographer John Jakle and historian Keith Sculle explore the ways in which we take meaning from outdoor signs and assign meaning to our surroundings—the ways we “read” landscape. With an emphasis on how the use of signs changed as the nation’s geography reorganized around the coming of the automobile, Jakle and Sculle consider the vast array of signs that have evolved since the beginning of the twentieth century.

For this book Professor Merkley has researched presidential archives, Jewish historical libraries and official Zionist records in the US and in Israel for evidence of the dealings between official Zionists and active Christian Restorationists. Much of this record appears here for the first time in print and is linked to the much better known history of the relationship between the official Zionists and the politicians and leaders of the US and

Britain.

American fundamentalism, for decades depicted as alienated from society, has garnered the attention of historians, whose studies have shown a more complex movement. This book, targeting the founding generation, seeks to understand their resilience, since their beginning through their adaptation to modernist culture.

A Discerning Church presents a theological model for these changing times. It examines the thought of Bernard Lonergan and offers an assessment of the significance of Pope Francis and the church since the Second Vatican Council. It then explores major insights and issues such as ecclesial reform, globalization, and sexuality, that will impact the future of the church.

Utopia and Its Discontents traces literary representations of ideal communities from Plato to the 21st century. Each chapter offers close readings of key utopian and anti-utopian texts to demonstrate how they construct, challenge and explore the ideas and forms of earlier utopian writings and the social and political ideals of their own periods. In this original and insightful study, Sebastian Mitchell demonstrates how literary utopias are often as much about the past as they are about the present and the future. Utopia and Its Discontents concludes by arguing against the idea that the utopian has been

eclipsed by the dystopian in contemporary culture. Topics covered include: - Early political and philosophical authors, such as Plato and Thomas More - Literary works, from Jonathan Swift's Gulliver's Travels to George Orwell's Nineteen Eighty-Four - Speculative-fiction writers such as H.G. Wells, Aldous Huxley and Margaret Atwood - Ecological and feminist texts by Ernest Callenbach, Ursula Le Guin and Marge Piercy - Twenty-first century utopianism This is an essential study for scholars and students of utopian literature.

A primer on the current "Niebuhr revival" of the political left and right, this book traces the significance of Reinhold Niebuhr's thought for secular as well as deeply Christian minds. Placed in the context of religious and cultural history, Niebuhr's theological views deepen and challenge contemporary expertise on issues of war, peace, economic, and personal security. While rejecting cynical pessimism and naive optimism, Niebuhr's Christian realism reinvigorates age-old teachings of the Bible, St. Paul, Augustine, and Kierkegaard. His thought enriches

present-day debates between science and religion and between atheists, agnostics, and believers. To live with Niebuhr's legacy is to combine critical acumen with humble self-awareness. It is to pursue a larger common good - for him, God-given - that is shared among individuals, nations, and the world community.

Millions of Americans take the Bible at its word and turn to like-minded local ministers and TV preachers, periodicals and paperbacks for help in finding their place in God's prophetic plan for mankind. And yet, influential as this phenomenon is in the worldview of so many, the belief in biblical prophecy remains a popular mystery, largely unstudied and little understood. When Time Shall Be No More offers for the first time an in-depth look at the subtle, pervasive ways in which prophecy belief shapes contemporary American thought and culture. Belief in prophecy dates back to antiquity, and there Paul Boyer begins, seeking out the origins of this particular brand of faith in early Jewish and Christian apocalyptic writings, then tracing its development

over time. Against this broad historical overview, the effect of prophecy belief on the events and themes of recent decades emerges in clear and striking detail. Nuclear war, the Soviet Union, Israel and the Middle East, the destiny of the United States, the rise of a computerized global economic order—Boyer shows how impressive feats of exegesis have incorporated all of these in the popular imagination in terms of the Bible's apocalyptic works. Reflecting finally on the tenacity of prophecy belief in our supposedly secular age, Boyer considers the direction such popular conviction might take—and the forms it might assume—in the post-Cold War era. The product of a four-year immersion in the literature and culture of prophecy belief, *When Time Shall Be No More* serves as a pathbreaking guide to this vast terra incognita of contemporary American popular thought—a thorough and thoroughly fascinating index to its sources, its implications, and its enduring appeal. Finally, in a literature that is dominated by top-down, diplomatic, and political-level mediation, this volume provides graphic

evidence of peacebuilding at the grassroots and middle levels of society, a rapidly growing arena in which the Mennonites have been vitally active."

All ministry leaders concern themselves with the intersection of Jesus-centered

ministry and contemporary culture. They ask themselves questions such as, "What do we need to change in order to keep up with a wired world?" "What should never change?" "What are the nonnegotiables of faith in Jesus?" Many have attempted to answer these questions. However, most of these leaders offer solutions that the everyday ministry leader simply cannot replicate. *Signs of the Times* is a unique offering to those who wrestle with the mash-up of ministry and culture. All of the contributors have found success within their ministries, and yet most do not minister to thousands on a weekly basis. Additionally, all of them have had the privilege of studying directly with Dr. Leonard I. Sweet. Despite having authored more than fifty books, Sweet can still be a bit of an enigma. Many of his readers have been deeply influenced by him, and yet they may still struggle to understand what his insights might mean for their ministry. Each of the contributors to this work thoughtfully engages with a key idea that they personally learned from Sweet and they translate it for ministry in the early twenty-first century.

For decades, the Commonwealth of Virginia led the nation. The premier state in population, size, and wealth, it produced a galaxy of leaders: Washington, Jefferson, Madison, Monroe, Mason, Marshall. Four of the first five presidents were Virginians. And yet by the middle of the nineteenth century, Virginia had become a byword for slavery, provincialism, and poverty. What happened? In her remarkable book, *Dominion of Memories*, historian Susan Dunn reveals the little known story of the decline of the Old Dominion. While the North rapidly industrialized and democratized, Virginia's leaders turned their backs on the accelerating modern world. Spellbound by the myth of aristocratic, gracious plantation life, they waged an impossible battle against progress and time itself. In their last years, two of Virginia's greatest sons, Thomas Jefferson and James Madison, grappled vigorously with the Old Dominion's plight. But bound to the traditions of their native soil, they found themselves grievously torn by the competing claims of state and nation, slavery and equality, the agrarian vision and the promises of economic

development and prosperity. This fresh and penetrating examination of Virginia's struggle to defend its sovereignty, traditions, and unique identity encapsulates, in the history of a single state, the struggle of an entire nation drifting inexorably toward Civil War.

This book lists 2500 future events prophesied in the Bible, Book of Mormon, Doctrine and Covenants, and Pearl of Great Price. Using Revelation and what the Savior taught in Mathew, Mark, and Luke as a framework, all other prophesies were added striving to keep them in the order they are mentioned within each chapter. It is an excellent overview of what life will be like leading up to the Savior's second coming.

"By bridging histories of technology, media studies, and aesthetics, *Electrographic Architecture: New York Color, Las Vegas Light, and America's White Imaginary* weaves a critical narrative of the ways in which illuminated light and color play key roles in the formation of America's white imaginary

over the course of the last century. The book sheds light on the central question to which media scholars, architects, and historians of technology repeatedly turn: how can we use and speak about light and color in ways that are productive and commemorative, while remaining critical of the systems of white power undergirding them? *Electrographic Architecture: New York Color, Las Vegas Light, and America's White Imaginary* analyzes the history of electric light technologies in the aesthetic development of Times Square and Las Vegas. The book charts the rise of America's white walls, light empires, and neoclassical buildings in the early twentieth century, through the construction of polychromatic electrographic spectacles by midcentury, and their eclipse by informatically intense, invisible algorithms at the beginning of the new millennium. Drawing from histories of technology, media, and aesthetics, the book shows how the formation of America's electrographic surround runs isomorphic to a new world ethos of power, property, and possession. Drawing on archival research, interviews, and visual analysis, *Electrographic Architecture's*

introduction, six core chapters, and conclusion illustrate how Times Square's polychromatic surround serves as a complex symbol of America's deep-seated dreams of utopic transcendence on the one hand, coupled with fears of loss and obsolescence on the other. In America's twentieth-century imaginary, whiteness aims to become everything but itself: colorful, lit, vibrant, and vital"--

A study of the autobiography of Cotton Mather (1663-1728), *Signs of the Times* examines Puritan signifying practices of the late 17th and early 18th centuries in New England on several levels, ranging from the comprehensive, in which Mather

situates himself within the imitatio Christi tradition, to the minute, whereby Paterna serves an elaborate sensor/sensorium. Mather's autobiography is also a handbook of spiritual technology, and his assessment of the practices he found to be useful signifies major changes within the structures of Puritan experience, despite his attempt to weave his own times and other times that he privileges as a seamless web. Dominating Mather's book is the desire to make the random routine and the routine random - a tension in Puritan practice that became increasingly difficult to balance. Mather's pivotal role in signalling these shifts is nowhere more evident than in the pattern of personal piety he endorses in Paterna, and his insistence on the processual mode continues to resonate in American culture. *Signs of the Times, and Doctrinal Advocate and Monitor* Fordham Univ Press

What does it mean to be a community of difference? St. Mary of the Angels is a tiny underground Catholic parish in the heart of Boston's Egleston Square. More than a century of local, national, and international migrations has shaped and reshaped the neighborhood, transforming streets into

borderlines and the parish into a waystation. Today, the church sustains a community of Black, Caribbean, Latin American, and Euro-American parishioners from Roxbury and beyond. In *People Get Ready*, Susan Reynolds draws on six years of ethnographic research to examine embodied ritual as a site of radical solidarity in the local church. Weaving together archived letters, oral histories, stories, photographs, newspaper articles,

and newly examined archdiocesan documents, Reynolds traces how the people of St. Mary's constructed rituals of solidarity as a practical foundation for building bridges across difference. She looks beyond liturgy to unexpected places, from Mass announcements to parish council meetings, from the Good Friday Via Crucis through neighborhood streets to protests staged in and around the church in the wake of Boston's 2004 parish

shutdowns. Through ethnography and Catholic ecclesiology, Reynolds argues for a retrieval of Vatican II's notion of ecclesial solidarity as a basis for the mission of the local church in an age of migration, displacement, and change. It is through the work of ritual, the story of St. Mary's reveals, that we learn to negotiate the borders in our midst—to cultivate friendships, exercise power, build peace, and, in a real way, to survive.
