The Meaning of Dwelling Features. Conceptual and Methodological Issues relates the research areas of housing preferences and the meaning of a dwelling with each other and with aspects of the means-end approach as applied in marketing research. It results in a conceptual and methodological framework for studying the meaning of preferences for dwelling features. These features are viewed as functional for achieving the goals and values that people pursue. The meaning of dwelling features lies in these functional relationships. The model presented in this study therefore relates preferences for the features of a dwelling to the meaning they have for people. These

relationships are called meaning structures. Meaning structures are measured by a semi-structured interviewing technique, which is an adapted version of the laddering technique for measuring means-end chains, and network methods are used for the representation and analysis of these meaning structures.

Michael W. Smith - Freedom (Songbook) Oxford University Press, USA

Michael W. Smith has seen with clarity the spiritual poverty and emotional numbness of teens who are out of touch with God's love. He writes, "Somewhere along the way, I had forgotten what the real world was like. But something was starting to break inside of me. God began to renew a heart of compassion for the lost. From then on, I decided that if God was opening a door for me, I wasn't going to waste any time making up my mind about entering it." It's Time to Be Bold is a call to commitment for all believers, a personal and heartfelt cry rallying youth to follow Christ's example. Drawing from events in his own life, Michael dicusses with relevance the essential issues of living out extreme faith. Topics include: The importance of Christian friends Standing stong against Satan's attacks Using crises as stepping stones to deeper faith Getting into the Word and growing in a lifestyle of prayer An Xt4J book
