U.S. Law Enforcement, Homeland Security, and Drug Cartel Violence : Hearing Before the Subcommittee on Oversight, Investigations, and Management of the Committee on Homeland Security, House of Representatives, One Hundred Twelfth Congress, First Session, May 11, 2011 Welbeck Publishing Group

Nothing bad ever happens in Raymonds River, Nova Scotia. Its a safe, small town, where everybody knows and trusts everybody else. When a pillar of the community is found dead in his own barnyard, people get a little concerned. When they find a bullet in his head, people get scared; who would shoot an old farmer on his own land? Understandably, even quiet, small town folk are prone to hysteria now and again. Homicide Detective Sergeant Jim McDonald and Corporal Scott Bowen are called to the scene of

the crime. Although they don't always work together, they make a great team when homicides the name of the game. The local law enforcement comes up with a likely suspect: a religious fanatic who claims he has God on his side. But there's no motive, which causes McDonald and Bowen to start asking questions. Their questions rile up the God-fearing suspect, and soon, he wants a deal. In exchange for what he knows regarding a so-called accidental hunting death in the area, a year prior, the suspect wants to go free. He claims there was nothing accidental about it. Is their religious fool playing the crazy card, or could he really know something that might just tear the safe, small town of Raymonds River apart?

Line of Fire brings to life a desperate mission of World War 2 that captures the drama and courage of the men who fought it. Two Marines, reporting on Japanese air activity, are trapped on a small Coastwatcher island. A special rescue team is assembled to

save them—under enemy gunsight. It is an exciting and powerful story of real heroism that only W.E.B. Griffin could tell...

Daring Stories of Man's Best Hero Pearson

After conducting exclusive interviews with more than one hundred current and former Secret Service agents, bestselling author and award-winning reporter Ronald Kessler reveals their secrets for the first time. Never before has a journalist penetrated the wall of secrecy that surrounds the U.S. Secret Service, that elite corps of agents who pledge to take a bullet to protect the president and his family. Kessler portrays the dangers that agents face and how they carry out their missions--from how they are trained to how they spot and assess potential threats. With fly-on-the-wall perspective, he captures the drama and tension that characterize agents' lives and reveals what they have seen, providing startling, previously untold stories about the presidents, from John F. Kennedy and Lyndon Johnson to George W. Bush and Barack Obama, as well as about their families, Cabinet officers, and White House aides.

Andy McNab's action-packed series featuring ex-deniable operator Nick Stone returns with *Line of Fire*. Nick is back in London, but if he thought he was home for a break, he's very, very wrong. Backed into a corner by a man he knows he cannot trust, Stone strikes a devil's bargain. In exchange for his own safety - a life for a life - Stone is charged with locating someone who doesn't want to be found, currently hiding out in one of the remotest corners of the UK. And for the first time in a long time, he's not operating alone. But Stone and his team don't find just anyone. They find a world-class hacker, so good that her work might threaten the stability of the western world as we know it. These are dangerous waters and Stone is quickly in over his head. Before he finally knows which way to turn, the choice is ripped out of his hands. Most people might think of home as safety but Nick Stone isn't most people. For him and his team, it's just another place to get caught in the line of fire...

Behind the Scenes with Agents in the Line of Fire and the Presidents They Protect Oxford University Press

Noted military historian Ted Barris once asked his father, Alex, "What did you do in the war?" What the former US Army medic then told his son forms the thrust of Barris's latest historic journey—an exploration of his father's wartime experiences as a medic leading up to the Battle of the Bulge in 1944-45, along with stories of other medics in combat throughout history. Barris's research reveals that this bloodiest of WWII battles was shouldered largely by military medics. Like his father, Alex, medics in combat evacuated the wounded on foot, scrounged medical supplies where there were seemed to be none, and dodged snipers and booby traps on the most frigid and desolate

battlefields of Europe. While retracing his father's wartime experience, the author weaves into his narrative stories about the life-and-death struggles of military medical personnel during a century of service. In this unique front-line recounting of the experiences of stretcher bearers, medical corpsmen, nurses, surgeons, orderlies, dentists and ambulance drivers, Barris explores the evolution of battlefield medicine at such historic engagements as Fredericksburg, Batoche, the Ypres Salient, the Somme, Vimy, Singapore, Dieppe, Normandy, Falaise, Bastogne, Korea, Iraq and Afghanistan. Barris's sources reveal—like never before—why men and women sporting the red cross on their helmets or sleeves didn't flee to safety but chose instead to rush to assist.

Damien Veles has waited a long time to find the woman fate intended for him. It wasn't until after the dragon shifter played his part in bonding the shifter and witch communities together that he finally caught the faintest trace of his fated mate's scent. Damien's wait should have been over, except her trail keeps inexplicably disappearing into thin air. Soleil Eldam has been on the run for months. She was tired of being chased by evil witches who wanted to use her to gain more power. Worn out from too many close calls. Desperate for help she wasn't sure she'd ever get—and never expected to come in the form of her fated mate.

This monograph examines the considerations involved in maintaining a peacekeeping force in the Golan Heights. The examination is based on the assumption that Israel and Syria have reached an agreement concerning the Golan Heights and that the United States is going to establish a peacekeeping force in the Golan Heights. The monograph first examines the historical background of the area since the 1967 War. Based on this examination and on lessons learned from previous UN and other multinational peacekeeping operations, the monograph addresses national composition of the force, command of the peacekeeping force, and force structure. Next, based on the military and political aspects of the region, the monograph addresses the future peacekeeping force commander's concerns with military credibility, freedom of movement, and force protection. The study concludes with a summary evaluation of the necessary size and type of force for future peacekeeping in the Golan Heights. Based on the assumption and an analysis of the political and military considerations, future peacekeeping operations in the Golan Heights would require a MFO type force under the command and control of the United States. Due to the essential requirement for force protection due to the potential of pre-emption by either Israel or Syria and of terrorist attacks, a heavy brigade would be the most effective force in maintaining the peace while protecting the force.

It is almost unprecedented for a head of state to publish a memoir while still in office. But Pervez Musharraf is no ordinary head of state. As President of Pakistan since 1999, his is one of the most dangerous jobs in the world, and he continues to play a crucial role in the global war on terror. A one-time supporter of the Taliban, a general who fought in several wars, President Musharraf took a decisive turn against militant Islam in 2001. Since then he has survived two assassination attempts; rooted out militants in his own government; helped direct countless raids against al-Qaeda both in his cities and in the mountains; and tracked Osama bin Laden with technical and human intelligence. *IN THE LINE OF FIRE* is astonishingly revealing and honest about dozens of topics of intense interest to the world. Among its many revelations: exactly how Pakistani authorities tracked down and smashed three major al-Qaeda control centres in the mountains; how al-Qaeda's many-layered structure was revealed after the assassination attempts; Bin Laden's current position within the al-Qaeda hierarchy; what it has been like to deal with Bush and Blair; how Pakistan and India have avoided nuclear confrontation; and much more. The terrible earthquake of 2005, killing nearly 40,000 Pakistanis, is just one chapter in a life and career that has been filled with danger and drama. The worldwide launch of President Musharraf's memoir promises to be a sensation.

This study investigates issues relative to assessing and addressing risks to officer safety. The study was conducted over a 3-year period and addressed 40 distinct cases of serious assaults on law enforcement officers. The cases involved 52 victim officers and 42 offenders. Routine, repetitive tasks emerged as a continuing threat to officer safety. Traffic stops, searches, and use of handcuffs are examples of tasks that should be second nature to officers but presented problems to the victims in the cases studied. Officers cited training as critical to the actions they took to protect themselves. Post-assault trauma and recovery proved to be areas that perhaps have not received appropriate attention from the law enforcement community. Many of the victim officers in the study displayed an uncommon "will to survive," an attitude many officers attributed to their survival training. This article reports extensive information on the victims, offenders, and incidents studied, and identifies specific areas where law enforcement training and procedures may be improved. Figures, tables, appendixes, references.

The India-Pakistan border in Jammu & Kashmir has witnessed repeated ceasefire violations (CFVs) over the past decade. As relations between India and Pakistan have deteriorated, CFVs have increased exponentially. It is imperative to gain a deeper understanding of these violations owing to their potential to not only cause a crisis but also escalate an ongoing one. *Line on Fire*, part of the Oxford International Relations in South Asia series, postulates that the incorrect diagnosis of the reasons behind CFVs has led to wrong policies being adopted by both India and Pakistan to deal with the recurrent violations. Using fresh empirical data and first-hand accounts, the volume attempts to understand the reason why CFVs continue to take place between India and Pakistan despite consistent efforts to reduce the tension between the two nations. In doing so, it recontextualizes and enriches the prevailing arguments in contemporary literature on escalating dynamics and unending ceasefire agreements between the two South Asian nuclear rivals.

Of the many expectations attending the creation of the first permanent International Criminal Court, the greatest has been that the principle of complementarity would catalyse national investigations and prosecutions of conflict-related crimes and lead to the reform of domestic justice systems. Sarah Nouwen explores whether complementarity has had such an effect in two states subject to ICC intervention: Uganda and Sudan. Drawing on extensive empirical research and combining law, legal anthropology and political economy, she unveils several effects and outlines the catalysts for them. However, she also reveals that one widely anticipated effect — an increase in domestic proceedings for conflict-related crimes — has barely occurred. This finding leads to the unravelling of paradoxes that go right to the

heart of the functioning of an idealistic Court in a world of real constraints.

According to Time magazine, Pakistan's President Pervez Musharraf holds "the world's most dangerous job." He has twice come within inches of assassination. His forces have caught more than 670 members of al Qaeda in the mountains and cities, yet many others remain at large and active, including Osama bin Laden and Ayman Al Zawahiri. Long locked in a deadly embrace with its nuclear neighbor India, Pakistan has come close to full-scale war on two occasions since it first exploded a nuclear bomb in 1998. As President Musharraf struggles for the security and political future of his nation, the stakes could not be higher for the world at large. It is unprecedented for a sitting head of state to write a memoir as revelatory, detailed, and gripping as *In the Line of Fire*. Here, for the first time, readers can get a firsthand view of the war on terror in its central theater. President Musharraf details the manhunts for Osama and Zawahiri and their top lieutenants, complete with harrowing cat-and-mouse games, informants, interceptions, and bloody firefights. He tells the stories of the near-miss assassination attempts, not only against himself but against Shaukat Aziz (later elected prime minister)

and one of his top army officers (later the vice chief of army staff), and of the abduction and beheading of Daniel Pearl -- as well as the forensic and shoe-leather investigations that uncovered the perpetrators. He details the army's mountain operations that have swept several valleys clean, and he talks about the areas of North Waziristan where al Qaeda is still operating. Yet the war on terror is just one of the many headline-making subjects in *In the Line of Fire*. The full story of the events that brought President Musharraf to power in 1999 is told for the first time. He reveals new details of the 1999 confrontation with India in Kashmir (the Kargil conflict) and offers a proposal for resolving the Kashmir dispute. He offers a portrait of Mullah Omar, with stories of Pakistan's attempts to negotiate with him. Concerning A. Q. Khan and his proliferation network, he explains what the government knew and when it knew it, and he reveals fascinating details of Khan's operations and the investigations into them. In addition, President Musharraf takes many stances that will make news. He calls for the Muslim world to recognize Israel once a viable Palestinian state is created. He urges the repeal of Pakistan's 1979 Hudood law. He calls for the emancipation of women and for their full political equality with men. He tells the sad story of Pakistan's experience with democracy and what he has done to make it workable.
