WHITNEY CARTER

Book, Line, and Sinkers Macmillan International Higher Education
 This title was first published in 2000: This research examines the socio-economic and cultural factors that influence the development of democracy, and also explores how new democracies can be maintained and consolidated. It investigates the consolidation of new democracies in Central and Eastern Europe, which face the hurdle of transforming their economies. The study looks at the effect of economic factors on popular support for democracy and discusses what factors influence citizen commitment to democratic regimes in Central and Eastern Europe. It argues that citizen perception of well-being is an important element in influencing political support. Case studies cover developing democracies in Europe, such as the Czech Republic or Slovakia, and policy implications, specifically in terms of economic policy, are offered that may aid democracies in their consolidation.

Comparative Democratic Politics Longman Publishing Group
 If this first love is true love, why can't Hildy hang out with her friends without feeling guilty? Dyan Sheldon takes on the possessive side of summer romance with humor and insight. Hildy has only had two-and-a-half dates in her whole life, and she isn't counting the half. It's starting to look as if she's never going to have a third date, or be kissed, or know a boy who is more than just a friend. Then, on an ordinary day, she meets Connor of the melt-that-ice-cap smile — and a summer that was going to be ordinary as toast turns into Hildy's summer of love. But love for Hildy is a little more complicated than the songs and movies have led her to believe. It's not so much girl-meets-boy-and loses-her-heart as boy-meets-girl-and-loses-his-mind. Part cautionary tale and part romantic comedy, Dyan Sheldon's wry, diary-style novel weighs in on all ends of the relationship scale in a story of first love.

Citizens' Support for the European Union Pearson College Division
 The authors interviewed over 5,000 citizens in Germany, Italy, Mexico, Great Britain, and the U.S. to learn political attitudes in modern democratic states. Originally published in 1963. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since

its founding in 1905.

365 Recipes for Every Day of the Year Candlewick Press
 This book examines the issues involved in the attempts to compare political systems, and discusses how the methods and results of comparative politics can be improved.

Encyclopedia of Government and Politics SAGE
 This book offers a comprehensive analysis of the determinants of EU support between 2006 and 2015, and of electoral behavior during the European Parliament elections. In light of the Eurozone financial and debt crisis, it also examines how political and economic turbulences have affected EU citizens' stance on democracy and their support for EU institutions. It explores measures taken in the context of the Euro crisis management and the reactions of EU citizens, in order to shed new light on the determinants and developments of EU support. The author highlights the heterogeneity of the developments between the member states and identifies social, political, and economic facets of the crisis that have changed the ways citizens form their political attitudes towards the EU. The book delivers a profound account of the Euro crisis, integrating approaches from political economy, psychology, sociology, and public opinion research. It will appeal to scholars and anyone interested in learning more about the declining citizen support in the EU and the heterogeneous developments in the member states, which may significantly endanger the long-term existence of the European Union.

Essays in Heuristic Theory Artisan Books
 * Provides a balanced, comprehensive account of contemporary trends in world, regional and nation-state government and politics
 * Captures the global changes, both theoretical and factual, of the past three decades - to give an unprecedented overview of political science and political affairs
 * Clearly and incisively written to meet the needs of students, lecturers and practitioners at all levels
 * Helpful bibliographies - of new and classic material and suggestions for further reading
 * Extensive index of Topics and People
 `Provides a comprehensive introduction to both the theoretical and practical issues of government and politics. It will be an essential purchase for libraries with in-depth collections in these areas.' - Reference Reviews
 `This up-to-date and well executed work provides a sound introduction to all aspects of political study.' - Choice
 `This is a work of immense scholarship and usefulness.' - Political Studies
 `In addition to copious citations to the research literature there are brief bibliographies listing major works "for further reading" at the conclusion of each article. This up-to-date and well-executed work provides a sound introduction to all aspects of political study.' - SUNY College at Purchase

Empirical Analyses of Political Attitudes and Electoral

Behavior During the EU Crisis SAGE

THE NEW YORK TIMES BESTSELLING LIBRARY LOVER'S MYSTERY FROM THE AUTHOR OF DUE OR DIE "Avast" in pirate speak means what? Answering tricky reference questions like this one provides plenty of excitement for library director Lindsey Norris. But when a shocking murder is committed in her cozy coastal town of Briar Creek, Connecticut, the question of who did it must be answered before an innocent man gets the book thrown at him... Lindsey is enjoying her second year in Briar Creek as the library director, meeting with the crafters' club, and happily dating tour boat captain Mike Sullivan. But when a salvage company arrives in town to dig up treasure buried on Pirate Island over three hundred years ago, the locals are torn between protecting the island and welcoming the publicity. In spite of the squabbling, Charlie Peyton, Lindsey's downstairs neighbor, takes a job with the salvage company. But when Trudi Hargrave, the local tourism director who hired the company, is found murdered at the excavation site, Charlie becomes the chief suspect. To help him, Lindsey must do some digging of her own before the real killer buries the truth for good... *stop

Look Again Macmillan

Bestselling author Scottoline's writing is sharp, intelligent, funny, and hip. . . she gives fans of thrillers a good, twisty plot, lively characters, and an all-around fun read ("USA Today").

Pratiyogita Darpan Springer Science & Business Media
 Modern social thought ranges widely from the social sciences to philosophy, political theories and doctrines, cultural ideas and movements, and the influence of the natural sciences. Provides an authoritative overview of the main themes of social thought. Long essays and entries give full coverage to each topic. Covers major currents of thought, philosophical and cultural trends, and the individual social sciences from anthropology to welfare economics. New edition updates about 200 entries and includes new entries, suggestions for further reading, and a bibliography of all sources cited within the text.

Jeni's Splendid Ice Creams at Home Routledge

This book investigates the role of media and communication in processes of democratization in different political and cultural contexts. Struggles for democratic change are periods of intense contest over the transformation of citizenship and the reconfiguration of political power. These democratization conflicts are played out within an increasingly complex media ecology where traditional modes of communication merge with new digital networks, thus bringing about multiple platforms for journalists and political actors to promote and contest competing definitions of reality. The volume draws on extensive case study research in South Africa, Kenya, Egypt and Serbia to highlight the ambivalent role of the media as force for democratic change, citizen

empowerment, and accountability, as well as driver of polarization, radicalization and manipulation.

A Guide to Contemporary Theory and Research Princeton University Press

A Discipline Divided is a collection of coherent and timely articles that discuss the emergence and divergence of the two dominant camps of political science: ideology and methodology. Almond examines the 'hard' versus 'soft' science argument, the history of model fitting in communism studies, the strengths and weaknesses of the rational choice movement and the historical forces and processes that have shaped political culture.

A Comparative Study of Great Britain and Ireland Policy Press

This book describes the application of systems thinking across a broad field of cases representing research, teaching, decision support and construction. All cases are presented by experts who have actually been involved in the activities they describe. The broad selection of cases captures the great variation of systems thinking, and how it is integrated into models and theories and solid knowledge pertaining to different substantive areas.

Comparative Politics: a Developmental Approach Boston : Little, Brown

First published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

Political Science Routledge

Public choice has been one of the most important developments in the social sciences in the last twenty years. However there are many people who are frustrated by the uncritical importing of ideas from economics into political science. Public Choice uses both empirical evidence and theoretical analysis to argue that the economic theory of politics is limited in scope and fertility. In order to arrive at a more comprehensive understanding of political life, political scientists must learn from both economists and sociologists.

A World View PHI Learning Pvt. Ltd.

This book examines the connection between two major developments in the world: state-formation and democratization. Since 1946, the number of states has increased from 66 to almost 200 independent states, but our knowledge of these state-formation processes is limited. The authors present a new database on state-formation and democratization, which enables novel classifications and analyses of these processes on the global level. They argue that the form of state-formation affects the probability for democratization in new states and that the initial regime that state-formation establishes at the time of independence has long-term effects on new states' democratization.

Ontologies of the International Routledge

Politics cannot grow in isolation; at the same time society learns from the changing ethos of polity. A relatively young subject, Political Sociology tries to seek research excellence, in its process of evolution. This book on Political Sociology deals with different variables of society which influence various facets of political dynamics. It also analyzes attitude and behavioural pattern of the public who act as political actors. As a branch of political science, the book draws attention to the very nature of this interdisciplinary study. All the chapters are conceptualized to strengthen the bond between the polity and the society and vice-versa. This book is an attempt to widen the frontier of political science with an empirical approach. Intended for the undergraduate and postgraduate students of Political Science and Sociology, the book will enrich the students indulged in research works and those who are preparing for the Civil Services

examinations as well.

The New Institutional Politics Springer

In the writing of prefaces for works of this sort, most editors report being faced with similar challenges and have much in common in relating how these challenges are met. They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed. The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists, graduate students, and, occasionally, advanced undergraduate students. Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided, then generally conclude that no particular classification strategy is superior. In elaborating on the process by which the enterprise was initiated, editors typically resort to a panel of luminaries, who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them. Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors' expertise and capabilities. Editors report that inevitable delays occur, authors drop out of projects and are replaced, and new topics are introduced. Finally, editors frequently confess that the final product is incomplete, with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters.

2-volume set Comparative Politics: a Developmental Approach Comparative Politics TodayA World View Approaching the subject from a focussed international and pluralist perspective, this book provides advanced-level treatment of all the core areas to give postgraduate students a wide-ranging and dynamic introduction
