The distinguished diplomat Sir Ernest Satow's retirement began in 1906 and continued until his death in August 1929. From 1907 he settled in the small town of Ottery St. Mary in rural East Devon, England. He was very active, serving as a British delegate at the Second Hague Peace Conference in 1907 and on various committees related to church, missionary and other more local affairs: he was magistrate and chairman of the Urban District Council. He had a very wide social circle of family, friends and former colleagues, with frequent distinguished visitors. He produced two seminal books: *A Guide to Diplomatic Practice* (1917, now in its seventh revised edition and referred to as 'Satow') and *A Diplomat in Japan* (1921). The latter is highly evaluated as a rare foreigner's view of the years leading to the Meiji Restoration of 1868. This book in two volumes is the last in a series of Satow's diaries edited by Ian Ruxton. This is the first-ever publication.

A Diplomat in Japan : The inner history of the critical years in the evolution of Japan when the ports were opened and the monarchy restored, recorded by a diplomatist who took an active part in the events of the time, with an account of his personal experiences during that period. My thoughts were first drawn to Japan by a mere accident. In my eighteenth year an elder brother brought home from Mudie's Library the interesting account of Lord Elgin's Mission to China and Japan by Lawrence Oliphant, and the book having fallen to me in turn, inflamed my imagination with pictures verbal and coloured of a country where the sky was always blue, where the sun shone perpetually, and where the whole duty of man seemed to consist in lying on a matted floor with the windows open to the ground towards a miniature rockwork garden, in the company of rosy-lipped black-eyed and attentive damsels—in short, a realised fairyland. But that I should ever have a chance of seeing these Isles of the Blest was beyond my wildest dreams. An account of Commodore Perry's expedition, which had preceded Lord Elgin's Mission, came in my way shortly afterwards, and though much more sober in its outward appearance and literary style, only served to confirm the previous impression. I thought of nothing else from that time onwards. One day, on entering the library of University College, London, where I was then studying, I found lying on the table a notice that three nominations to student-interpreterships in China and Japan had been placed at the disposition of the Dean. Here was the chance for which I had been longing. Permission to enter myself for the competition was obtained, not without difficulty, from my parents, and having gained the first place in the public examination, I chose Japan. To China I never wished or intended to go. My age was sufficient by a few hours to enable me to compete. I was formally appointed in August 1861, and quitted England full of joyful anticipation in November of that year.

This book is a commentary on the 1961 Vienna Convention on Diplomatic Relations, the universally-accepted framework for diplomacy between sovereign States. It is the second edition of a highly-respected work, first published in 1976, which was written with the benefit of the author's deep andpractical understanding of the subject as a Legal Counsellor in the Foreign and Commonwealth Office. Denzas book is widely-recognized as the leading work of authority in the field. In this enlarged, rewritten and fully-updated edition, she places each provision of the Convention in its historical context. The negotiating background to the provisions is supplemented with a comprehensivecommentary on the application of the Convention by the United Kingdom, and the United States of America, together with expanded coverage of the diplomatic practice and jurisprudence of other States. The book also includes a thorough examination of novel problems in the field, not least the abuse ofdiplomatic immunity, as exemplified in the mid-1980s by notorious cases such as the Libyan Peoples Bureau siege and the attempted kidnapping of Umaru Dikko, as well as terrorist violence and hostile demonstrations against embassies. This eagerly-awaited new edition provides an invaluable source of practical guidance for ministries of foreign affairs and diplomats in the field. It will be equally welcomed by practitioners and scholars of public international law as an indispensable source of reference and learning.

Excerpt from *A Guide to Diplomatic Practice, Vol. 1* Appendix III has been enlarged by a selection from the more important works relating to the history of the Great War which have been published during the last few years. The gratitude of the author is due to Sir Adolphus Ward for the corrections and suggestions contained in his notice of the first edition which appeared in the issue of the English Historical Review for July, 1917. To the Counsels to Diplomatists offered in Chapter IX he would desire to add that the task of a diplomatic agent is to reconcile the interests of his own nation with those of others, and to preserve the honour of his own unblemished and devoid of selfish aims, in

short, to cultivate what has been so well described as the international mind. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The author investigates the birth of modern diplomacy. Drawing on a wide-ranging body of textual materials dealing with the ambassador from the 13th to the 17th century, he analyses how that figure was developed within a complex constantly renewed field of interaction between law, ethics and politics, where theory and practice are intertwined in an unresolved dialectical interaction. The first part examines how the legal status of the ambassador was shaped during the late Middle Ages and how this process influenced early-modern scholarship on diplomacy. The second part investigates how the emergence of the modern State both reinvigorated and reshaped the scholarly approaches to the different themes linked to the figure of the ambassador. The third part proposes an account of how the professional status of the ambassador developed within the examined body of literature. Through the prism of these approaches, diplomacy appears as a foundational matrix of modern political rationality.

This book offers an introductory guide for students to four centuries of diplomatic thought. Since diplomacy as we know it was created during the Renaissance in Italy, a number of major figures have reflected on the place of diplomacy in foreign affairs and the problems associated with its pursuit. These include statesmen, international lawyers and historians, most of whom had experience as diplomats of the first or second rank. This book examines the thought of some of the most important of them, from Niccolò Machiavelli in the early sixteenth century to Henry Kissinger in the late twentieth century.

"Also gut, wir befinden uns im Krieg. Doch dann lassen sich endlich drei Fragen formulieren: Welches sind die Kriegsparteien? Was sind ihre Kriegsziele? Und schließlich die wichtigste Frage: Wie steht es mit Frieden? Mein Argument lautet also nicht, dass wir erleben, wie ein bestehender Frieden unbilligerweise zerschlagen wurde, noch dass wir mit einem "Krieg der Kulturen" konfrontiert sind. Sondern dass wir zunächst anerkennen müssen, dass ein Krieg der Welten die ganze Zeit hindurch schon stattgefunden hat, das ganze sogenannte moderne Zeitalter hindurch - in dieser modernen Parenthese. Noch beweist nichts, dass wir auf der falschen Seite stehen oder dieser Krieg nicht zu gewinnen ist. Sicher ist nur, dass er offen und nicht verdeckt geführt werden muss. Am schlimmsten wäre, wenn man so täte, als gäbe es überhaupt keinen Krieg, nur die friedliche Ausdehnung der natürlichen Vernunft des Westens, die ihre Polizeikräfte einsetzt, um die vielen Reiche des Bösen zu bekämpfen, einzudämmen und zu bekehren."
