 Missionary Linguistic Studies from Mesoamerica to Patagonia BRILL
[Dictionary Catalog of the History of the Americas](#) Princeton University Press
 First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.
What Government Policies for what Private Tutoring? Taylor & Francis
 "Over the past decade there has been substantial progress in understanding Maya hieroglyphic writing. This development led to the reconstruction of Classic Maya (AD 300-900) political history. Epigraphers suggested a major influence of Teotihuacan during the Early Classic Period (AD 300-600), and some even argued for a direct Teotihuacan conquest of the Maya lowlands. The Late Classic Period (AD 600-900) was interpreted as a constant hegemonic struggle between Tikal and Calakmul, which in different ways influenced Classic Maya political relations. These reconstructions of political history were directly tied to the interpretations of political organisation, ranging from peer polity interaction models to more bureaucratic polities. In this work the author examines and analyses inscriptions from the Western Maya Region, which are especially rich in information concerning interaction of polities and interpolity organisation. The author reconstructs the historical development of the region, examining the influence of Teotihuacan and that of the hegemonic states Tikal and Calakmul."--Publisher's website.
Guía e índices del archivo del Licenciado Federico González Garza, 1889-1920 Simon and Schuster
 For more than 25 years the Peabody Museum has been publishing The Corpus of Maya Hieroglyphic Inscriptions under the editorial and artistic direction of Mayanist Ian Graham. The goal of this unique series of folio volumes is to document in photographs and detailed line drawings all known Maya inscriptions and their associated figurative art. When complete, the Corpus will have published the inscriptions from over 200 sites and 2,000 monuments. The series has been instrumental in the remarkable success of the ongoing process of deciphering Maya writing, making available hundreds of texts to epigraphers working around the world. Each volume in the series consists of three fascicles, which examine an individual site or group of neighboring sites and include maps of site location and plans indicating the placement of monuments within each site. Each inscription is reproduced in its entirety in both photographs and line drawings. The text of each volume presents descriptive

information about the sites and monuments and their associated artifacts. -- Publisher's description.

Nature and History in Modern Italy Ohio University Press
 Anais da Conferencia Internacional sobre indicadores científicos dos países em desenvolvimento, abordando as construções dos indicadores, estruturação dos campos científicos e avaliação e condições do desenvolvimento científico, colaboração científica e geoestratégias. Visibilidade e estratégias de publicações, o papel das revisões científicas e os sistemas nacionais de pesquisa.

The yearbook Zutot serves as a platform for small but incisive contributions, and provides them with a distinct context. The substance of these contributions is derived from larger perspectives and, though not always presented in an exhaustive way, will have an impact on contemporary discussions.
Military Ethics and Leadership North Atlantic Books
 Hermeneutic phenomenology is a combination of theory, reflection and practice that interweaves vivid descriptions of lived experience (phenomenology) together with reflective interpretations of their meanings (hermeneutics). This method is popular among researchers in education, nursing and other caring and nurturing practices and professions. Practical and adaptable, it can be at the same time poetic and evocative. As this collection shows, hermeneutic phenomenology gives voice to everyday aspects of educational practice -particularly emotional, embodied and empathic moments- that may be all too easily overlooked in other research approaches. By explicating, illustrating and demonstrating hermeneutic phenomenology as a method for research in education specifically, this book offers an excellent resource for beginning as well as more advanced researchers.
Wastewater: the untapped resource John Wiley & Sons
 Advanced Digestive Endoscopy: ERCP addresses some of the most complex diagnostic and therapeutic procedures for endoscopists. It provides the latest thinking and clear instruction on the techniques, which have been integrated with overall patient care. Written by the leading international names in endoscopy, the text has been expertly edited by Peter Cotton into a succinct, instructive format. Presented in short paragraphs structured with headings, subheadings and bullet points and richly illustrated throughout with full-color photographs.
Pedagogical Tact BRILL
 Pedagogical Tact describes how teacher-student relations possess an improvisational and ethical character. The daily realities of educators, parents, and childcare specialists are pedagogically conditioned by sensitive insights, active thoughtfulness, and the creative ability to act caringly and appropriately in the immediacy of the moment. Internationally known educator Max van Manen

shows through recognizable examples and evocative stories how good teaching is driven by the phenomenology of pedagogy. His book-refocuses educators and others away from an emphasis on instrumental skills and technocratic programs toward the need for pedagogical tact;-describes how pedagogical actions have latent effects that will influence children throughout their lives;-shows how our actions with young people have pedagogically ethical and moral significance;-gives educators back their original vocational motivation and inspiration.

The Era of the Individual Springer Science & Business Media
 The present work is an attempt to give in one volume the main features of Spanish history from the standpoint of America. It should serve almost equally well for residents of both the English-speaking and the Spanish American countries, since the underlying idea has been that Americans generally are concerned with the growth of that Spanish civilization which was transmitted to the new world. One of the chief factors in American life today is that of the relations between Anglo-Saxon and Hispanic America. They are becoming increasingly important. The southern republics themselves are forging ahead; on the other hand many of them are still dangerously weak, leaving possible openings for the not unwilling old world powers; and some of the richest prospective markets of the globe are in those as yet scantily developed lands. The value of a better understanding between the peoples of the two Americas, both for the reasons just named and for many others, scarcely calls for argument. It is almost equally clear that one of the essentials to such an understanding is a comprehension of Spanish civilization, on which that of the Spanish American peoples so largely depends. That information this volume aims to provide.

Hermeneutic Phenomenology in Education British Archaeological Reports Limited

The edited volume *Military Ethics and Leadership* explains how good leadership can keep soldiers from crossing the thin line between legitimate force and excessive violence.

[A Descriptive Record of the History, Religion, Literature, and Customs of the Jewish People from the Earliest Times to the Present Day](#) Routledge

This volume presents the results of in-depth studies of grammars, vocabularies, and religious texts, dating from the sixteenth - nineteenth century. The researches involve twenty indigenous Mesoamerican and South American languages, including: Nahuatl (Mexico), Pukina (Peru); Tehuelche (Patagonia).

[Confronting the Shadow Education System](#) Vintage

With the publication of French Philosophy of the Sixties, Alain Renaut and Luc Ferry in 1985 launched their famous critique against canonical figures such as Foucault, Derrida, and Lacan, bringing under rigorous scrutiny the entire post-structuralist project that had dominated Western intellectual life for over two

decades. Their goal was to defend the accomplishments of liberal democracy, particularly in terms of basic human rights, and to trace the reigning philosophers' distrust of liberalism to an "antihumanism" inherited mainly from Heidegger. In *The Era of the Individual*, widely hailed as Renaut's magnum opus, the author explores the most salient feature of post-structuralism: the elimination of the human subject. At the root of this thinking lies the belief that humans cannot know or control their basic natures, a premise that led to Heidegger's distrust of an individualistic, capitalist modern society and that allied him briefly with Hitler's National Socialist Party. While acknowledging some of Heidegger's misgivings toward modernity as legitimate, Renaut argues that it is nevertheless wrong to equate modernity with the triumph of individualism. Here he distinguishes between individualism and subjectivity and, by offering a history of the two, powerfully redirects the course of current thinking away from potentially dangerous, reductionist views of humanity. Renaut argues that modern philosophy contains within itself two opposed ways of conceiving the human person. The first, which has its roots in Descartes and Kant, views human beings as subjects capable of arriving at universal moral judgments. The second, stemming from Leibniz, Hegel, and Nietzsche, presents human beings as independent individuals sharing nothing with others. In a careful recounting of this philosophical tradition, Renaut shows the resonances of these traditions in more recent philosophers such as Heidegger and in the social anthropology of Louis Dumont. Renaut's distinction between individualism and subjectivity has become an important issue for young thinkers dissatisfied with the intellectual tradition originating in Nietzsche and Heidegger. Moreover, his proclivity toward the Kantian tradition, combined with his insights into the shortcomings of modernity, will interest anyone concerned about today's shifting cultural attitudes toward liberalism. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Method and Practice Missionary Linguistic Studies from Mesoamerica to Patagonia

This highly informative tour of a lost civilization discusses Mayan

history and culture and focuses on seven sites that exemplify the Mayan tradition of using public places to record their history and belief system. Maps, drawings & photos.

Corpus of Maya Hieroglyphic Inscriptions Routledge

This book covers the planning, organizing, and controlling of activities such as transportation, inventory maintenance, order processing, purchasing, warehousing, materials handling, packaging, customer service standards, and product scheduling. It is specifically designed to help learners solve the actual problems that they will encounter in today's market place. It provides the basic decision making tools and concepts used for finding cost reduction and strategic opportunities.

Advanced Digestive Endoscopy Franklin Classics

With formal ethics education programmes being a rarity in most countries' armed forces, there is a growing importance for servicemen to undergo additional military ethics training. But how do we ensure that soldiers learn the right lessons from it? Furthermore, how can we achieve a uniformity of approach? The current lack of uniformity about what constitutes ethical behaviour and how troops should be educated in it is potentially a cause for serious alarm. This book advances knowledge and understanding of the issues associated with this subject by bringing together experts from around the world to analyze the content, mode of instruction, theoretical underpinnings, and the effect of cultural and national differences within current ethics programmes. It also explores whether such programmes are best run by military officers, chaplains or academic philosophers, and reflects whether it is feasible to develop common principles and approaches for the armed forces of all Western countries. This is an invaluable volume for military academies and staff colleges to enhance understanding of a matter which requires much further thought and which is becoming a vital force in influencing outcomes on the battlefields of the twenty-first century. The book will primarily be of interest to military officers and others directly involved in ethics education in the military, as well as to philosophers and students of military affairs.

Decolonising History, Narrating the Subaltern, Reclaiming Memory Zed Books Ltd.

A study of Mexico - political, social, cultural, economic - by a journalist who was for the past 6 years the NYT bureau chief in Mexico City. With portraits of Mexico's top leaders, about a nation whose stability is vital to our national well-being.

The United Nations world water development report, 2017 OECD Publishing

Literature has not always been written in the same ways, nor has it been received or read in the same ways over the course of

Western civilization. Cavallo (Greek palaeography, U. of Rome La Sapienza), Chartier (Ecole des Hautes Etudes en Sciences Sociales, Paris) and a number of other international contributors, address themes that highlight the transformation of reading methods and materials over the ages, such as the way texts in the Middle Ages were often written with the voice in mind, as they would have been read aloud, or even sung. Articles explore the innovations in the physical evolution of the book, as well as the growth and development of a broad-based reading public.

Business Logistics/supply Chain Management BRILL

This book explores the resurgence of interest in phenomenology as a philosophy and research movement among scholars in education, the humanities and social sciences. Brings together a series of essays by an international team of philosophers and educationalists. Juxtaposes diverse approaches to phenomenological inquiry and addresses questions of significance for education today. Demonstrates why phenomenology is a contemporary movement that is both dynamic and varied. Highlights ways in which phenomenology can inform a broad range of aspects of educational theorising and practice, including learning through the body, writing online, being an authentic teacher, ambiguities in becoming professionals, and school transition.

How to End Your Dependency on Cooked Food Springer

This book focuses on the so-called shadow education system of private supplementary tutoring. In parts of East Asia it has long existed on a large scale and it is now becoming increasingly evident in other parts of Asia and in Africa, Europe and North America. Pupils commonly receive fee-free education in public schools and then at the end of the day and/or during week-ends and vacations supplementary tutoring in the same subjects on a fee-paying basis. Supplementary private tutoring can have positive dimensions. It helps students to cover the curriculum, provides a structured occupation for pupils outside school hours, and provides incomes for the tutors. However, tutoring may also have negative dimensions. If left to market forces, tutoring is likely to maintain and increase social inequalities, and it can create excessive pressure for young people who have inadequate time for non-academic activities. Especially problematic are situations in which school teachers provide extra tutoring in exchange for fees from their regular pupils. This book begins by surveying the scale, nature and implications of the shadow education system in a range of settings. It then identifies possible government responses to the phenomenon and encourages a proactive approach to designing appropriate policies.
