Human beings can be  
so compassionate.

They can also be  
shockingly cruel. What  
if there was a master  
control for human  
behaviour? Switch it on  
and people are loving

and generous. Switch it  
off and they revert to  
violence and greed.

Pioneering

neuroeconomist Paul J.  
Zak has discovered just  
such a master switch:  
a molecule in the  
human brain. Zak's  
colleagues call him Dr  
Love. They also call  
him the vampire  
economist. He and his  
research team have  
travelled from his

laboratory in California to the jungles of Papua new Guinea via a summer garden in Devon, taking blood from people as they attend a wedding, make decisions with money, play football on the field, even jump from an aeroplane. Their experiments to measure a chemical in the bloodstream called oxytocin reveal the answers to those mysteries about why we make the decisions we do: why we are sometimes rational, at other times irrational; why men cheat more than women; how the moral molecule operates in the market place, and most importantly, once we understand the moral molecule, how we can consciously use it to make our lives better. *The Mastery of Love*

The novel “First Love” was Turgéniéff’s favourite work, as he more than once confessed. What the author prized in this purely intimate but beautifully finished story was its fidelity to actuality; that is to say, he prized the personal recollections of early youth. In that respect this story has a prominent interest for readers, since it narrates—according to the testimony of the author—an actual fact in his life, and that without the slightest artificial colouring.[1] To what degree Turgéniéff’s testimony is credible, remarks one critic, is a question which can be rightly decided only by biographical documents. Famous writers are particularly

inclined by nature to romantic coquetry with their own personalities—a characteristic which was, apparently, to some extent, inherent in Turgéniéff, despite his renowned modesty. Famous writers are fond of leading their contemporaries—and still more posterity—astray with regard to the reflection of intimate details of {vi}their lives in their artistic works.... At any rate, Russian artistic productions, in which the authors have endeavoured to set forth biographical details, must be scrutinised with extreme cautiousness. The author, while imagining that he is thoroughly sincere, may involuntarily indulge in inventions concerning himself. But

in its literary aspect this story indubitably is one of Turgéniéff's masterpieces, and in it the original character of its chief heroine, Princess Zinaída Zasyékin, is depicted with remarkable clearness and charm.... The artist threw off this light and elegant little intimate study by way of relaxation after "On the Eve," a romance dealing with a broad social problem, and by way of preparation for a new work, still more serious in intention, "Fathers and Children."

**Cómo lograr amor inteligente** Anchor "The Black Cat" is a short story by Edgar Allan Poe. It was first published in the August 19, 1843, edition of The Saturday Evening Post. It is a study of the psychology of guilt, often paired in analysis

with Poe's "The Tell-Tale Heart". In both, a murderer carefully conceals his crime and believes himself unassailable, but eventually breaks down and reveals himself, impelled by a nagging reminder of his guilt.

### The 5 AM Club Temas De Hoy

Lo que el ser humano necesita es amor. Hoy la palabra amor esta falsificada: su abuso y manipulacion la han ido degradando; a cualquier cosa se la llama amor. En el tablero de la psicologia juegan al ajedrez los sentimientos y la razon, arbitrados por la cultura. El amor inteligente tiene tres notas basicas en su sinfonia: corazon, cabeza y espiritualidad, sin olvidar que lo cotidiano

nunca es banal ni insignificante. El mejor amor se echa a perder si no se cuida con base en pequenos detalles. El doctor Enrique Rojas vuelve a deleitarnos con un analisis psicologico profundo que se adentra en el "cuarto de maquinas" de la conducta y se va abriendo paso entre la masa de ideas y conceptos, guiado por un principio fundamental: para estar con alguien es preciso estar primero con uno mismo. El amor tiene un alto porcentaje de artesanía psicologica. Nos hace libres y esclavos, nos emancipa y nos sujeta. El autor de esta obra quiere educar la inteligencia y la afectividad, porque sabe que comprender tarde es no

comprender.

**A Novel** Strelbytskyy Multimedia Publishing It begins as an assignment for English class: Write a letter to a dead person. Laurel chooses Kurt Cobain because her sister, May, loved him. And he died young, just like May did. Soon, Laurel has a notebook full of letters to people like Janis Joplin, Amy Winehouse, Amelia Earhart, Heath Ledger, and more -- though she never gives a single one of them to her teacher. She writes about starting high school, navigating new friendships, falling in love for the first time, learning to live with her splintering family. And, finally, about the abuse she suffered while May was

supposed to be looking out for her. Only then, once Laurel has written down the truth about what happened to herself, can she truly begin to accept what happened to May. And only when Laurel has begun to see her sister as the person she was - - lovely and amazing and deeply flawed -- can she begin to discover her own path in this stunning debut from Ava Dellaira, *Love Letters to the Dead*.

I have written this guide in order to help you create a space for reflection within your life and as a result develop emotional and cognitive strategies

that can make you more resistant to love-sickness. Once you learn exactly why we absurdly equate love to suffering, you'll know how to avoid falling into the trap and learn to foster more adaptive schemes of behaviour. Through the concepts of philosophy, psychology and his 30 years plus of experience as a therapist, in the 39 chapters of this book, Walter Riso guides us through a model or scheme of reflection to help us understand the characteristics of a love that is good (healthy, coherent, constructive) and one that is bad (sick, incoherent, destructive).

The Intelligent Love**

Nico Quindt  
¿Por qué hablamos de amor? Los seres humanos por naturaleza necesitamos dar y recibir amor. Muchas parece que andamos por la vida gritando en silencio esa incontenible necesidad: "quiero dar amor", "necesito recibir amor", pero en muchos casos pueden transcurrir los años, e incluso una vida entera, sin que esa humana necesidad pase de ser solo un grito silencioso, porque así como por naturaleza humana necesitamos dar y recibir amor, también

por naturaleza humana somos seres emocionales y tenemos la fuerte tendencia a permitir que sean nuestras emociones las que dicten las pautas de nuestras vidas. Aunque las emociones son mecanismos creados por Dios y son algo necesario para los seres humanos, no debemos permitir que sean las emociones las que controlen nuestras vidas. ¿Entiendes lo que es amor? El amor no es un sentimiento. Podríamos decir que es una decisión, pero es mucho más que eso. Muchos creen que el amor nace en el corazón y eso puede ser cierto, pero el corazón suele ser engañoso. Sea que hablemos de amor de pareja, o del que sentimos por nuestros

familiares o amigos más cercanos, o del que nos damos a nosotros mismos e incluso del amor a Dios, lo que regularmente se cree que es amor, es solo emoción. Pero las emociones normalmente nacen de circunstancias pasajeras y al terminar esas circunstancias, se apaga la emoción y se desvanece aquello que creíamos que era amor. Pero cuando aprendemos a amar de manera inteligente, con entendimiento y por encima de las emociones, la realidad es otra y logramos ser capaces de dar y recibir un tipo de amor que sobrepasa las barreras de las circunstancias y nos ayuda a vivir una vida plena, llena de grandes satisfacciones. Leyendo

este libro, encontrarás toda la información necesaria y sabrás los pasos que debes dar, para aprender a amarte a ti mismo, amar a Dios y a otras personas, con amor inteligente. Entenderás que emociones y decisiones no significa lo mismo y que cuando aprendes a diferenciar lo uno de lo otro, ser feliz por el resto de tu vida con lo que tengas a la mano, será solo tu decisión.

As emotional intelligence is the key to success in life generally and in business, it is also a critical ingredient to the successful relationship. This book presents a program to help couples and individuals develop their EQ so that they will be more successful in relationships. The book is mostly intended for people in committed relationships, but will also help singles.

*First love and other stories* Farrar, Straus and Giroux (BYR)

A menudo vemos cómo personas que consideramos muy inteligentes e incluso brillantes a nivel profesional se ven superadas por la incomprensión y la

angustia cuando se trata de gestionar su propia vida. El resultado es siempre el sufrimiento y la soledad. La inteligencia emocional, ampliamente estudiada como indicador claro del potencial que tenemos para ser felices, deriva en la inteligencia romántica cuando de lo que se trata es de desarrollar actitudes y comportamientos orientados a construir una relación de pareja feliz y consolidada. De carácter eminentemente práctico y con una gran lucidez, este libro se centra en este aspecto concreto de la inteligencia y nos enseña a mejorar nuestra conciencia emocional, a ser honestos con nuestras emociones y aprender

a luchar contra sentimientos destructivos como los celos, la competitividad, el control y la dependencia. Logramos hacer comprensibles las complejidades del amor y, con ello, abrimos un camino de esperanza para todas aquellas personas, en pareja o no, que quieren aprender a pensar sus relaciones desde la inteligencia frente al dolor y la incompreensión.
