Skill Builders are great tools for keeping children current during the school year or preparing them for the next grade level. A variety of fun and challenging activities provides students with practice and helps introduce basic skills to new learners. This full-color workbook contains appropriate passages and exercises based on national standards for sixth through eighth grade to help ensure that children master geometry math skills before progressing. Skill Builders combines entertaining and interactive activities with eye-catching graphics to make learning and reviewing fun and effective. The compact 6" x 9"

size makes this book perfect for school, at home, or on the go. It features 80 perforated, reproducible pages and an answer key.

**Math Boosters Word Problems**

Teacher Created Resources

In a step-by-step approach, children are taught how to add three, four and five and bigger single-digit numbers. This enables them to gain solid calculation skills without being confused about decimal places. Building basic addition skills is vital to later understanding of the decimal system, which is the foundation of higher level arithmetic concepts and skills taught at school. The purpose of this book is to prepare children for school-level mathematics.

Kumon STEM Missions Workbooks offer

students a fun way to practice

interdisciplinary topics by combining

science, technology, engineering, and

math questions in order to strengthen

problem-solving skills. In this workbook,

your child will complete several STEM

"missions" designed to increase his or

her critical thinking and problem-solving

abilities. Each mission asks your child to

read science passages, answer questions

about the passages, solve math

problems, and use the knowledge gained

to create or design a solution

(engineering) to a real word problem.

Featuring Life Science, Earth Science,

and Physical Science topics, these

workbooks are sure to get your child

interested in the connection between

what he or she learns and how it can be

applied to the real world.

**Practice, Assess, Diagnose** Top

For children who can already read and

write the 26 letters of the alphabet.

Words that are familiar to children - such

as bat, hat and rat - are grouped

together by the vowel and consonant combination of the last two letters. By repeatedly saying and tracing words, children easily acquire solid abilities to say and write simple words.
