An essential resource for scholars and performers, this study by a world-renowned specialist illuminates the piano music of four major French composers, in comparative and reciprocal context. Howat explores the musical language and artistic ethos of this repertoire, juxtaposing structural analysis with editorial and performing issues. He also relates his four composers historically and stylistically to such predecessors as Chopin, Schumann, Liszt, the French harpsichord school, and Russian and Spanish music. Challenging long-held assumptions about performance practice, Howat elucidates the rhythmic vitality and invention inherent in French music. In granting Fauré and Chabrier equal consideration with Debussy and Ravel, he redresses a historic imbalance and reshapes our perceptions of this entire musical tradition. Outstanding historical documentation and analysis are supported by Howat's direct references to performing traditions shaped by the composers themselves. The book balances accessibility with scholarly and analytic rigor, combining a lifetime's scholarship with practical experience of teaching and the concert platform *Piano Technique* CreateSpace (Piano Instruction). *Fundamentals of Piano Technique* was developed by Leon Conus (1871-1944) and Olga Conus (1890-1976) during many decades of teaching and performing, and through association with the most prominent Russian musicians of the time including

Rachmaninoff, Scriabin, and Medtner. The exercises in this method are concise and efficient, focusing on the elements of good playing: control, touch, nuance, and musicianship. This book can be used by students at all levels of development, and with all shapes and sizes of hands. The preparatory exercises allow students to begin using the book within their first year of lessons. A systematic approach allows the hands to develop gradually, avoiding dangerous tension or muscle damage. Topics include: preparatory exercises; extension exercises; five-finger exercises; flexibility of the thumb; trill exercises; scales & arpeggios; wrist development; double notes; and more.
