Everyone has heard the phrase about doing twice the work in half the time, but instead of focusing only on time, this book focuses on driving increased output with consistently less input. *Implementing Lean: Twice the Output with Half the Input!* teaches readers not only about Lean and its major concepts, but it drives the leader toward implementing a true Lean system. The authors have used the methodologies in this book everywhere from hospitals to service industries to manufacturing plants in order to impact businesses by providing proven principles, techniques, and approaches that yield substantial improvement to any business, small or large, in any sector. Learn about the benefits of implementing Lean in your company as the authors walk you through the major components as well as show you how to implement them. This guide is already being used by Lean Practitioners every day on shop floors to educate and refresh how tools are used in real-world applications.

Eine Lovestory, so schön wie ein Spaziergang im Schnee ... Sechs Monate war sie fort, nun freut sich die siebzehnjährige Kendall unendlich auf New York im Winter – und auf das Wiedersehen mit ihrem Schwarm Jamie. Doch der bringt zu ihrem Treffen keinen anderen mit als ausgerechnet Max. Max, den Kendall nach dem einen fatalen Kuss im letzten Sommer viel lieber vergessen hätte. Max, der in seinem Herzen eigentlich ebenso wenig frei ist wie Kendall. Doch dann werden beide Zeugen eines Unfalls, und dieses Erlebnis bringt sie einander wieder näher. So nah, dass Kendall sich fragen muss, mit wem sie nun wirklich ins neue Jahr tanzen will – Jamie oder Max?

The Underwriters Review IGI Global

Goose Island opened as a family-owned Chicago brewpub in the late 1980s, and it soon became one of the most inventive breweries in the world. In the golden age of light, bland and cheap beers, John Hall and his son Greg brought European flavors to America. With distribution in two dozen states, two brewpubs and status as one of the 20 biggest breweries in the United States, Goose Island became an American success story and was a champion of craft beer. Then, on March 28, 2011, the Halls sold the brewery to Anheuser-Busch InBev, maker of Budweiser, the least craft-like beer imaginable. The sale forced the industry to reckon with craft beer's mainstream appeal and a popularity few envisioned. Josh Noel broke the news of the sale in the Chicago Tribune, and he covered the resulting backlash from Chicagoans and beer fanatics across the country as the discussion escalated into an intellectual craft beer war. Anheuser-Busch has since bought nine other craft breweries, and from among the outcry rises a question that Noel addresses through personal anecdotes from industry leaders: how should a brewery grow?

Innovative and Agile Contracting for Digital Transformation and Industry 4.0 CRC Press

This book provides an overview of cleaner production, including how regulations have evolved, and presents a broad perspective on how it is being developed. Presenting several practical examples and applications of modern clean production technologies, it provides readers with ideas on how to extend these practices to other industry sectors in order to contribute to a better environment in the future. The authors start from the initial concepts of how to implement new cleaner production systems, before collecting recent developments in the area and demonstrating practical ways in which the latest knowledge can be applied. It motivates readers to develop new ideas on how to improve manufacturing systems to save energy and generate less waste, and discusses strategies on how to save, reuse and adapt materials, as well as techniques to reduce the waste and pollution produced. This book serves as a reference resource for industrial management engineers and researchers, and is also of interest to undergraduate and postgraduate students looking for insights into cleaner production in industry.

Social Media Marketing: Breakthroughs in Research and Practice Rolling Hills Publishing

An L.A. hot rodder with a high school education, a family to support and almost no money, Craig Breedlove set out in the late 1950s to do something big: harness the thrust of a jet in a car. With a growing obsession that would cost him his marriage, he started building in his dad's garage. The car's name: Spirit of America. Through perseverance and endless hard work, Craig completed Spirit and broke the land speed record on the Bonneville Salt Flats, setting a new mark of 407 mph in 1963. In the early 1970s he turned to rockets and set an acceleration record at Bonneville that stands to this day. He built a jet car in the 1990s, Spirit of America-Sonic Arrow, to go head-to-head against Britain's ThrustSSC to be the first to Mach One. Craig's subsequent crash at 675 mph remains the fastest in history. Even today, at the age of 80, he is going strong with plans for yet another Spirit of America racer. The ultimate goal: 1,000 mph. Ultimate Speed is the authorized biography of Craig Breedlove, a candid revelation of one of motorsports' most interesting figures based primarily on countless hours of interviews with Craig and dozens of people connected to his life.
