Learn the Easy Way to Reload Your Own Rifle and Pistol Cartridges Da Capo Press
A treasured antique rifle gets into the wrong hands in this YA novel by the Newbury Award-winning author: "a truly mesmerizing tale, from beginning to end" (Publishers Weekly). In 1768, gunsmith Cornish McManus painstakingly crafted his masterpiece: a rifle of extraordinary beauty and accuracy. Though he knows he will never be able to replicate it, Cornish is forced to sell it to a man named John Byam, who carried it with pride into the

Revolutionary War. Passed down through generations, the beloved rifle ends up decorating the mantle of a modern-day mechanic and father named Harv. But what happens then is shocking, terrifying, and completely devastating. Reader's guide included

If you've ever wanted to reload ammunition but didn't know where to start this book is for you. You'll find detailed chapters about primers, cartridge cases, gun powder, and bullets, explaining in layman's terms what they are, variations you'll encounter and the characteristics of each. You'll also learn the different facets of case preparation: which are necessary and which are optional, and how to do them. You'll learn some characteristics of gunpowder and which types work best with bulk measurements. There'll be detailed photos and explanations teaching the process of reloading ammunition. From there you'll be shown how you can gear up to reload your own ammunition even if you don't have much money or space. Although most of the book is geared toward metallic cartridge reloading there's also a chapter on reloading shotgun ammunition. It too, will show you the steps involved and how to become operational with very little money and minimal space requirements. After reading this book the novice reloader will: (a) be capable of making informed choices when purchasing their equipment and components; (b) be able to understand the reloading process and why certain steps are taken or omitted; (c) have a safe, profitable and enjoyable experience from the very beginning.

Hardening a Linux system can make it much more difficult for an attacker to exploit it. This book will enable system administrators and network engineers to protect their Linux systems, and the sensitive data on those systems. *A Practical Hobby* "O'Reilly Media, Inc." Are you brave? When the mysterious Amelia Pigeon turns up at Kirby's bedroom window in the dead of night, this is the question she asks him - immediately before they tumble into a world of ancient malevolent spirits who have torn their way into Kirby's boring seaside village. Kirby isn't feeling brave at all. His mother is in a coma following a freak (or was it?) accident, and he's hardly talking to his dad. He's convinced a spider is watching him, and now a weird girl in a yellow raincoat - who claims to be a powerful, evil-banishing Shadowsmith - is dragging him into

unknown danger. How brave is he really? Ross MacKenzie, author of the Blue Peter award-winning *The Nowhere Emporium*, weaves a world of magic and adventure which twists and turns magnificently and will keep thrilled young readers guessing right to the end.

Richard Sharpe and the Talavera Campaign July 1809 MIT Press

This publication is an informative guide book on reloading to include equipment and accessories used as tools of the trade. It also includes my extensive experiences as a reloader of approximately three hundred thousand rounds during the past thirty-five years. The book covers fourteen chapters with a major emphasis on Dillon reloading equipment and its many accessories. It does include discussions on other products from major manufacturers. Other chapters mention such subjects as reloading dies, primers, new pistol powders, reloading the 9mm, plated/coated/moly bullets, special topics, FAQs, and the Ruger American Pistol reviews with my experience loading for this firearm. This book is not an A to Z manual on how to begin reloading. It is a highly referenced publication that is written for all working reloaders who want to learn more usable info and wish to develop a lifelong hobbypractical volume reloading.

Signs from America's Past That Signal Our Nation's Future "O'Reilly Media, Inc."

John Nosler - Going Ballistic is the story of John Nosler - a hunter, innovator and self-taught ballistics engineer. Born in California, he came of age in the Great Depression and raced his home-built cars on the dirt tracks of Huntington Beach and Pomona. From California, he moved to Oregon and embarked on a legendary big game hunting career. He first hunted moose in Canada in the 1940s and recognized the need for a projectile that would stand up to the velocity generated by the new magnum rifle cartridges. When hunters want a bullet they can depend on, the name they trust, more than any other, is Nosler. From the Partition, introduced to the shooting public in the late 1940s, to the Zippedo, Solid Base and Ballistic Tip, to today's cutting-edge AccuBond, John Nosler built a reputation on accuracy and performance, one bullet at a time. You know his bullets, now read his story.

A handbook of survival and warfare for the citizens of Woodstock Nation A classic of counterculture literature and one of the most influential--and controversial--documents of the twentieth century, *Steal This Book* is as valuable today as the day it was published. It has been in print continuously for more than four decades, and it has educated and inspired countless thousands of young activists. Conceived as an instruction manual for radical social change, *Steal This Book* is divided into three sections--Survive! Fight! and Liberate! Ever wonder how to start a guerilla radio station? Or maybe you want to brush up on your shoplifting techniques. Perhaps you're just looking for the best free entertainment in New York City. (The Frick Collection--"Great when you're stoned.") Packed with information, advice, and Abbie's unique outlaw wisdom ("Avoid all needle drugs--the only dope worth shooting is Richard Nixon."), *Steal This Book* is a timeless reminder that, no matter what the struggle, freedom is always worth fighting for. "All Power to the Imagination was his credo. Abbie was the best."--Studs Terkel

AN INSTANT NEW YORK TIMES BESTSELLER The "lively" (The New Yorker), "convincing" (Forbes), and "riveting pick-me-up we all need right now" (People) that proves humanity thrives in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success as a species. If there is one belief that

has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It's a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed primarily by self-interest. But what if it isn't true? International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of Homo sapiens. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn't merely optimistic—it's realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity's kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling. "The Sapiens of 2020." —The Guardian "Humankind made me see humanity from a fresh perspective." —Yuval Noah Harari, author of the #1 bestseller *Sapiens* Longlisted for the 2021 Andrew
