Lloyd's Register of Shipping Lloyd's Register

The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and

sea-going, regardless of classification. Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name.

This collection of Newfoundland folk narratives, first published in 1996, grew out of extensive fieldwork in folk culture in the province. The intention was to collect as broad a spectrum of traditional material as possible, and Folktales of Newfoundland is notable not only for the number and quality of its narratives, but also for the format in which they are presented. A special transcription system conveys to the reader the accents and rhythms of each performance, and the endnote to each tale features an analysis of the narrator's language. In addition, Newfoundland has preserved many

aspects of English and Irish folk tradition, some of which are no longer active in the countries of their origin. Working from the premise that traditions virtually unknown in England might still survive in active form in Newfoundland, the researchers set out to discover if this was in fact the case.
