The Porsche 911 may have been in production for over 40 years, but the modern water-cooled generation share little more than a philosophy with the first examples. Known worldwide by their Porsche internal type number, the 996 models represented a fresh start and offered a new standard in sports car performance and driving satisfaction. This new second edition packs in more specification data. We introduce all the 996 model types, describing the technical specifications, vehicle identification data, performance, colors and options. Using color photography of the cars and many actual problem areas, we introduce each model and what to look for when choosing and buying a used example.

"A rich history of a company whose cars, for better and worse, have touched millions of lives, a character study of a brilliant but deeply flawed leader, and a case study in how a corporate culture can turn toxic." —Bethany McLean, New York Times Book Review *Faster, Higher, Farther* chronicles a corporate scandal that rivals those at Enron and Lehman Brothers—one that will cost Volkswagen more than \$22 billion in fines and settlements. Through meticulous reporting, New York Times

correspondent Jack Ewing documents why VW felt compelled to install "defeat devices" in diesel vehicles that unlawfully lowered CO2 levels during emissions testing, and how the fraud was committed, covered up, and finally detected. *Faster, Higher, Farther* is a briskly written account of unrivaled corporate greed. Updated with the latest information and a new afterword by the author.
