Report scope can be

customized per your requirements.Global Furniture Market | Growth, Trends and Forecasts ...Report Overview. The global furniture market size was valued at USD 480.7 billion in 2017 and is expected to grow at a CAGR of 5.1% from 2018 to 2025. The market is driven by various factors such as rising disposable incomes, growth of real estate and hospitality industries, and demand for luxury and premium furniture from certain consumer sections.Furniture Market Size, Share | Global Industry Trends ...Furniture Market Research Reports & Industry Analysis. The furniture industry encompasses the creation and sale of furniture for offices,

hotels, homes, schools and businesses. The industry also includes accompaniments for those pieces of furniture, for instance, upholstery, mattresses, and furnishings. Skilled workers in the industry use various machines, tools and CAD/CAM to contribute to the design and manufacture of the furniture. Furniture Market Research Reports & Industry Analysis By David McMahon on 9/23/2017. The difference between a retail operation that excels and one that produces average results year-over-year most often comes down to one factor: Focus! There are many furniture retailers that employ the highest paid people and are still unsuccessful

because they don't have focus. They may have good intentions, but operate ineffectively because this lack of focus allows them to become distracted by what is "urgent" instead of what is really important.
