Karma Of Brown Folk Harper Collins
 A critical and accessible text, this book provides a foundation for translanguaging theory and practice with educating emergent bilingual students. The product of the internationally renowned and trailblazing City University of New York-New York State Initiative on Emergent Bilinguals (CUNY-NYSIEB), this book draws on a common vision of translanguaging to present different perspectives of its practice and outcomes in real schools. It tells the story of the collaborative project's positive impact on instruction and assessment in different contexts, and explores the potential for transformation in teacher education. Acknowledging oppressive traditions and obstacles facing language minoritized students, this book provides a pathway for combatting racism, monolingualism, classism and colonialism in the classroom and offers narratives,

strategies and pedagogical practices to liberate and engage emergent bilingual students. This book is an essential text for all teacher educators, researchers, scholars, and students in TESOL and bilingual education, as well as educators working with language minoritized students.

 Hollywood Drive: What it Takes to Break in, Hang in & Make it in the Entertainment Industry is the essential guide to starting and succeeding at a career in film and TV. Written by a Hollywood insider, Honthamer's invaluable experience and advice will give those attempting to enter and become successful in the entertainment industry the edge they need to stand out among the intense competition. Because while film school

prepares students to write a script, direct a scene and operate a camera, few newcomers enter the job market understanding how this business truly works and how to land a first job-much less succeed in the industry. *Hollywood Drive* is not merely a book about what it takes to get your foot in the door. It goes beyond that by offering you the tools, attitude, philosophy and road map you'll need to give yourself a good fighting chance at success -- whether you're looking for your very first job or for a strategy to move your career to the next level. This book will allow you to proceed with your eyes wide open, knowing exactly what to expect. *Hollywood Drive* explores the realities of the industry: various career options, effective job search strategies, how to write an effective cover letter and resume, what to expect on your first job, the significance of networking and building solid industry relationships, how a project is sold, and how a reel production office and set operate. You'll learn how to define your goals and make a plan to achieve them, how to survive the tough times, how to deal with big egos and bad tempers, and how to put your passion to work for you.

"How does it feel to be a problem?" asked W. E. B. Du Bois of black Americans in his classic *The Souls of Black Folk*. A hundred years later, Vijay Prashad asks South Asians "How does it feel to be a solution?" In this kaleidoscopic critique, Prashad looks into the complexities faced by the members of a "model minority"-one, he claims, that is consistently deployed as "a

weapon in the war against black America."

On a vast canvas, *The Karma of Brown Folk* attacks the two pillars of the "model minority" image, that South Asians are both inherently successful and pliant, and analyzes the ways in which U.S. immigration policy and American Orientalism have perpetuated these stereotypes. Prashad uses irony, humor, razor-sharp criticism, personal reflections, and historical research to challenge the arguments made by Dinesh D'Souza, who heralds South Asian success in the U.S., and to question the quiet accommodation to racism made by many South Asians. A look at Deepak Chopra and others whom Prashad terms "Godmen" shows us how some South Asians exploit the stereotype of inherent spirituality, much to the chagrin of other South Asians. Following the long engagement of American culture with South Asia, Prashad traces India's effect on thinkers like Cotton Mather and Henry David Thoreau, Ravi Shankar's influence on John Coltrane, and such essential issues as race versus caste and the connection between antiracism activism and anticolonial resistance. *The Karma of Brown Folk* locates the birth of the "model minority" myth, placing it firmly in the context of reaction to the struggle for Black Liberation. Prashad reclaims the long history of black and South Asian solidarity, discussing joint struggles in the U.S., the Caribbean, South Africa, and elsewhere, and exposes how these powerful moments of alliance faded from historical memory and were replaced by Indian support for antiblack racism. Ultimately, Prashad writes not just about South Asians in America but about America itself, in the tradition of Tocqueville, Du Bois, Richard Wright, and others. He explores the place of collective struggle and multiracial alliances in the transformation of self and community-in short, how Americans define themselves.
