This practical letter sized (8.5 x 11 inch; 21.59 x 27.94 cm) daily site log has been carefully designed for foremen, forewomen, construction site managers. ★★Ideal for keeping everything recorded: Space is left at the top of each page so that it can be clipped onto a clipboard. Designed to work with an Electronic Document Management System (EDMS). Simply give each page a document number, take a photograph and upload it directly. Record all important site related activities: weather, deliveries, work stoppages, safety incidents etc. In case of disputes, you can be sure you have the required information thus minimising claim and litigation risks. As long as you give each page its specific dated project number it can be photographed and then uploaded to a electronic document management system (EDMS). All lines in the log book are dark grey, instead of black, so they are less distracting. If you're in construction or dirt work, this record book will help you recall details. You can go back and see the ground conditions, deliveries, contractors, equipment, etc., on site. If you keep up with your paperwork this will meet your needs. This practical letter sized (8.5 x 11 inch; 21.59 x 27.94 cm) daily site log has been carefully designed for foremen, forewomen, construction site managers. ★★Record all important site-related activities: Date Project Visitors Weather & Working conditions Contract No Contractor Schedule Accidents/Safety Issues Inspection Day Summary of work/Job site Notes Site Conditions Representative Temperature Employee Contractors Subcontractors Equipment Rentals & Materials Received Hindrance To Normal Process Signature Delays/Problems *Legendary Civil Engineers are Born in July* Independently Published PERFECT BOUND, GORGEOUS SOFTBACK WITH SPACIOUS RULED PAGES. LOG INTERIOR: Click on the LOOK INSIDE link to view the Log, ensure that you scroll past the Title Page. Record Page numbers, Subjects and Dates. Customize the Log with columns and headings that would best suit your need. Thick white acid-free paper reduces the bleed-through of ink. LOG EXTERIOR COVER: Strong, beautiful paperback. BINDING: Professional trade paperback binding. The binding is durable; pages will remain secure and will not break loose. PAGE DIMENSIONS: 6 x 9 inches) 15.24 x 22.86 cm (Makes for easy filing on a bookshelf, travel or storage in a cabinet or desk drawer). Other Log Sizes are available. [Osmanlı Donanmasının Seyir Defteri](#) | *The Logbook of the Ottoman Navy* Independently Published First published in 1995, the award-winning Civil Engineering Handbook soon became known as the field's definitive reference. To retain its standing as a complete, authoritative resource, the editors have incorporated into this edition the many changes in techniques, tools, and materials that over the last seven years have found their way into civil engineering research and practice. The Civil Engineering Handbook, Second Edition is more comprehensive than ever. You'll find new, updated, and expanded coverage in every section. In fact, more than 1/3 of the handbook is new or substantially revised. In particular you'll find increased focus on computing reflecting the rapid advances in computer technology that has revolutionized many aspects of civil engineering. You'll use it as a survey of the field, you'll use it to explore a particular subject, but most of all you'll use The Civil Engineering Handbook to answer the problems, questions, and conundrums you encounter in practice.

Construction Daily Log Independently Published

Osmanlı Beyliği 14. yüzyıl başında Ortaçağ dünyasının karanlık deniziyle tanıştı. Venedik ve Cenevizlilerle yapılan savaşlar, Rumeli fütuhâtı, ilk tersânelerin kuruluşu bu dönemde gerçekleşti. İstanbul'un fethi Beylikten İmparatorluğa geçiş sürecini noktalarken, Akdeniz ve Karadeniz'i siyasi coğrafyada birleştirecek güçlü bir donanmanın da temelleri atıldı. Rönesans'ın sonlarında korsanlığın etkisi azaldı ve Barbaros Hayreddin Paşa'nın kişiliğinde Osmanlı denizciliği altın çağını yaşadı. Yeni Dünya'nın keşfi denizcilik dünyasında devrim yapmıştı. Osmanlı Donanmasının Seyir Defteri: Gemiler, Efsaneler, Denizciler sergisi, birbiriyle bütünleşen üç farklı deniz mitolojisini iç içe geçiriyor. Osmanlı denizcilik tarihinin zihinlere kazınmış gemileri, katıldıkları savaşlar ve bu savaşlarda efsaneleşen kahramanlar, tarihsel boyutuyla uygarlık sahnesinde yerlerini alıyorlar. Kurgunun merkezinde geleneksel denizcilik anlayışından modern denizcilige geçişin olağanüstü serüveni var. İktidar arzuları, yıkılan tahtlar ve insanın kendi kaderini denizle özdeşleştirmesi bu serüvenin ardındaki belki de en eski öykü. Günümüze miras kalmış 16. yüzyıl Osmanlı kadırgasından Yavuz zırhlısına uzanan bir tarihin köşe taşları, denizcilerin anılarıyla yeniden günışığına çıkıyor. --- Ottoman Principality was introduced to the dark sea of the Middle Ages in early 14th century. The battles with the Venetians and the Genoese, conquests in Rumelia, and the establishment of the first shipyards all took place during this period. As the conquest of İstanbul marked the end of the period of transition from Principality to Empire, the foundations of a strong navy that would unite the Mediterranean and the Black Sea over a political geography were laid. The power of the corsairs diminished by the end of the Renaissance; Barbaros Hayreddin Pasha personified the golden age of Ottoman sea power. The Logbook of the Ottoman Navy: Ships, Legends, Sailors exhibition intertwined three distinct, yet integrated mythologies of the sea. The imprint of the ships in Ottoman seafaring history, the battles they were engaged in and the heroes who became legendary in these battles assume their places on the stage of civilization in their historic magnitude. At the center of the construct lies the extraordinary adventure of the transition from traditional to modern seafaring methods. The quest for power, the demolished thrones and man's identification of his fate with the sea is perhaps the oldest story behind this adventure. The cornerstones of a long history that extends from the legacy of a 16th-century Ottoman galley to the battlecruiser Yavuz, is once again brought to the light of day through the memories of seamen. This logbook is a whole new engineer desk gift idea and a greater Gift For Dad, Friends, Colleagues, Boyfriends in Engineer or Architect fields. Handy size at 8.5" x 11" Paperback, 188 pages, extremely practical and easy to use. Perfect Tool for Engineer Architect Students or Project Manager To Track Agenda With X-Axis Y-Axis Graph Drawing and Quad 4x4 Dot Graph with Notes. Including Drawing And Project Numbers.
