From the author of the best-selling, Giller-nominated *River Thieves* comes a heartbreaking and masterful collection of short fiction. With uncommon elegance and compassion, Michael Crummey has created a community of exiles, characters estranged from their home, from their families or, just as often, from themselves. Set largely in the small Newfoundland mining town of Black Rock, but straying as far west as Vancouver and as far east as China, these stories are subtle, stark portrayals of people alternately looking for or trying desperately to escape

their place in the world. A young boy confuses love and allegiance, then stumbles into the complexities of adulthood; a brother and sister fall in love with the same woman; a frustrated wife protests her husband's neglect by going on strike with the miners' union; a lover's drug habit reunites a woman with the sister she has lost. Anchor Books is proud to publish an expanded edition of Michael Crummey's brilliant collection *Flesh and Blood*, which includes three original stories written just for this edition. Graceful, affecting, and generous of spirit, these stories are unforgettable.

Between 1934 and 1944, Elliot Ness and his agents were in Cleveland investigating the Kingsbury Run case, in which bloodless bodies were found along the train tracks. Ness raided and burned out Cleveland's shantytowns in his efforts to find the killer. Unwilling to concede defeat, one cop continues to follow the bloody trail and discover that the law is not dealing with the mob or a serial killer--but with a community of vampires.

Organ transplantation is one of the most dramatic interventions in modern medicine. Since the 1950s thousands of people have lived with 'new' hearts, kidneys, lungs, corneas, and other organs and tissues transplanted into their bodies. From the beginning, though, there was simply a problem: surgeons often encountered shortages of people willing and able to give their organs and

tissues. To overcome this problem, they often brokered financial arrangements. Yet an ethic of gift exchange coexisted with the 'commodification of the body'. The same duality characterized the field of blood transfusion, which was essential to the development of modern surgery. This book will be the first to bring together the histories of blood transfusion and organ transplantation. It will show how these two fields redrew the lines between self and non-self, the living and the dead, and humans and animals. Drawing on newspapers, magazines, legal cases, films and the papers and correspondence of physicians and surgeons, Lederer will challenge the assumptions of some bioethicists and policymakers that popular fears about organ transplantation necessarily reflect timeless human concerns and preoccupations with the body. She will show how notions of the body- intact, in parts, living and dead- are shaped by the particular culture in which they are embedded.

Lauren Teague is a beautiful, defiant, borderline-delinquent teenager when her parents bring her to Alex Delaware's office. But for all Alex's skill and effort, Lauren resists--angrily, provocatively. Reluctantly, the psychologist chalks Lauren up as one of the inevitable failures of a challenging profession. But years later, when Alex encounters Lauren as a stag party's featured entertainment, both doctor and patient are stricken with shame. And the ultimate horror takes place when, soon after, Lauren's brutalized corpse is found dumped in an alley. Alex disregards the advice of his trusted friend, LAPD detective Milo Sturgis, and jeopardizes his relationship with longtime lover Robin Castagna in order to pursue Lauren's murderer. As he investigates his young patient's troubled past, Alex enters the shadowy worlds of fringe psychological experimentation and the sex industry, and then into mortal danger when lust and big

money collide in Southern California. Jonathan Kellerman's L.A. is evil, seductive, erotic, and unforgiving, and Flesh and Blood is mind-opening in its drama of a driven man's personal quest, breathtaking in its ingenious plot, filled with unforgettable characters, and topped off by a terrifying climax. This is suspense fiction as its best.

Starting with a dark-skinned girl barely out of adolescence when she gives birth, Lesley Hazleton weaves together the many facets of Mary's existence: peasant villager, wise woman and healer, activist, mother, teacher, and yes, virgin, though in a sense we have long forgotten. She follows her through the worst any mother can experience-the excruciating death of her child-and then looks at how she transforms grief into wisdom, disaster into renewal. Strong and courageous, the Mary we see here does not merely assent to her role in history, but chooses it and lives it to the fullest.

On March 25, 1911, the Triangle Shirtwaist Factory in New York City burst into flames. The factory was crowded. The doors were locked to ensure workers stay inside. One hundred forty-six people—mostly women—perished; it was one of the most lethal workplace fires in American history until September 11, 2001. But the story of the fire is not the story of one accidental moment in time. It is a story of immigration and hard work to make it in a new country, as Italians and Jews and others traveled to America to find a better life. It is the story of poor working conditions and greedy bosses, as garment workers discovered the endless sacrifices required to make ends meet. It is the story of unimaginable, but avoidable, disaster. And it is the story of the unquenchable pride and activism of fearless immigrants and women who stood up to business, got America on their side, and finally changed working conditions for our entire nation, initiating radical new laws we take for granted today. With *Flesh and Blood So Cheap*, Albert Marrin has crafted a gripping, nuanced, and poignant account of one of America's defining tragedies.
