Inga Arvad was the great love of President John F. Kennedy's life, and also Adolf Hitler's special guest at the 1936 Berlin Olympics. She was an actress, a foreign correspondent, a popular Washington columnist, an explorer who lived among a tribe of headhunters, one of Hollywood's most influential gossip columnists, and a suspected Nazi spy. The latter nearly got Kennedy cashiered out of the Navy, but instead set in motion the chain of events that led to him becoming a war hero. Inga lived where gossip intersects with history, and her story, as told by

author Scott Farris in *Inga*, is a rollicking story that demonstrates how private lives influence public events. It is also a Hitchcockian tale of how difficult it can be to prove innocence when unjustly accused, and how, as Inga phrased it, what was once a halo can slip down and become a hangman's noose. In addition to her romance with Kennedy and the attention of Hitler, Arvad married three times — to an Egyptian diplomat who insisted they never had divorced, the brilliant filmmaker Paul Fejos whom Charlie Chaplin considered a genius, and the famed cowboy movie star Tim McCoy. She also had affairs with noted surgeon Dr. William Cahan, the prolific writer John Gunther, and Winston's Churchill's right hand man, Baron Robert Boothby. She was pursued by Wall Street financier Bernard Baruch, and Swedish industrialist Axel Wenner-Gren, reputedly the richest man in the world at the time, offered her \$1 million to have his child. Inga was Miss Denmark of

1931, but by all accounts her admirers among the European and American elite loved Inga not for her physical beauty alone, but for her joie de vivre. She was a genius with people, she was daring and adventurous, and she was their equal in intellect. Like Isak Dinesen and Clare Boothe Luce, Inga Arvad led a life that both sheds light on and defies the stereotypes of women of her time.

BLURB Kenneth Whiting was well-known in the Navy of his day. During his early years after graduating from the Naval Academy, he commanded several early submarines and was known as the first man to escape from a downed submarine. After being trained to fly by Orville Wright, he was the first naval officer to conceptualize a ship that was to become the most important in the US Navy--the aircraft carrier. After submitting his first three unsuccessful proposals to build such a ship, his creativity and aggressiveness were recognized at the start of World War I when he was asked to lead the Navy's First Aeronautical Detachment to France. The FAD was the first American unit to travel to Europe,

and within a few months, he negotiated a plan with the French Navy for a system to build naval air stations and train his men in anti-submarine warfare from the air. When the US Navy Department approved the plan, he was transferred to the command of NAS Killingholme on England's North Sea Coast. He built Killingholme into the largest naval air station in Britain. Returning to the US at the end of the war, he found the Navy Department much more willing to talk about building aircraft carriers. Upon the approval of this new ship type, he was placed in charge of converting or building the first six. Along the way, he developed the new systems for the operation of launching and landing aircraft on the new flat flight decks. For his developmental work with the first six carriers and commanding two of them, he is frequently called the Father of the Aircraft Carrier in books and publications about the ship, which was to take the place of the battleship as the king of the seas. Along the way, naval aviation took advantage of his ability to effectively and smoothly advocate for many of the then-fledgling naval aviation's important goals in the public arena. Because he had publicly spearheaded much of those goals, the battleship admirals who ran the Navy of that era were able to take revenge on him and prevent him from being promoted to admiral rank. His tragic death in the middle of World War II became part of the reason his name has been largely forgotten outside the Navy, but naval aviators know him because the field where they are all trained, Whiting Field NAS in Pensacola, is named for him. The military exploits of this American sailor are worth recounting, but the victories of Whiting and his family racing yachts on Long Island Sound make him even more interesting. The goal of this

first biography of Kenneth Whiting is to enable those who empower one of today's most important functions--naval aviation--and the Americans who have benefitted from Whiting's work, to remember this hero of naval aviation and submarines.

**Eine Geschichte des amerikanischen Volkes** Houghton Mifflin

The Jews have been an urban people par excellence, and their influence on the urban landscape is unmistakable. Who can imagine modern Vienna, Berlin, Warsaw, or New York, to name just a few examples, without their large, vibrant, and creative Jewish populations? Conversely, the urban experience has been a decisive factor in modern Jewish history. This new volume in the acclaimed Studies in Contemporary Jewry series is devoted to the theme of Jews and the modern city. It features essays on Orthodox Jewry in the city, Jewish-Christian relations, klezmer music, the impact of urbanization on German Jewry, the Jewish communities in New York and St. Petersburg, and the emergence of the first "Hebrew City" (Tel-Aviv). It also includes a discussion of the new prayer book of the Conservative movement in Israel. Like others in the series, this book presents current scholarship in the form of a symposium, essays, and book reviews by distinguished experts in Jewish studies from around the world. Published annually by the Avraham Harman Institute of Contemporary Jewry at The Hebrew University of Jerusalem, Studies in Contemporary Jewry continues to be an invaluable resource for scholars of modern history and culture.

Männlichkeit, so zeigt dieses überaus erfolgreiche Buch, ist eine gesellschaftlich konstruierte Kategorie, die längst nicht mehr eindeutig ist. Wie das soziale Geschlecht ‚männlich‘ entstanden ist, und wie einzelne Männer mit der Vielfalt und den Krisen moderner Männlichkeiten umgehen, wird anschaulich geschildert.

In zwei neuen Kapiteln beleuchtet die Autorin die bisherige Rezeption ihrer Arbeit zur „hegemonialen Männlichkeit“ und stellt Geschlechterverhältnisse in den Kontext einer Weltgesellschaft mit neoliberaler Prägung.

"Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself." —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a

misguided effort to be "objective." What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls "an extremely convincing plea for truth in education." In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.
