Real Estate Financing contains over 40 deal-specific forms and checklists online, covering everything from complex loan workouts to simple residential closings. The forms include information about each term and how it can be modified, with separate variations for lenders, borrowers or other parties. A "Data Input Sheet" lets you use the forms with widely available software and can serve as a "term sheet" for the transaction. The accompanying volume provides explanations of the issues along with the guidance you need to draft working documents quickly. Real Estate Financing includes: checklists for loan modifications; wraparound mortgage loans; subordinations; loans secured by condos, co-ops and time shares; sale-leasebacks; contingent interests; securitizations; deeds in lieu and consensual foreclosures; participations; installment sales; sales of mortgage

loans; and much more. The checklists highlight "deal" terms, flag risks and hot issues, and direct users, through cross-references, to alternative approaches and analysis. Standards issued by ratings agencies for securitized loans are discussed in detail, as are the EPA and ASTM standards for Phase I environmental reports and the best Web sites for forms and drafting requirements. Dearborn Real Estate Corporate Finance, by Ross, Westerfield, and Jaffe emphasizes the modern fundamentals of the theory of finance, while providing contemporary examples to make the theory come to life. The authors aim to present corporate finance as the working of a small number of integrated and powerful intuitions, rather than a collection of unrelated topics. They develop the central concepts of modern finance: arbitrage, net present value, efficient markets, agency theory, options, and the trade-off between risk and return, and use them to explain corporate finance with a balance of theory and application. The well-respected author team is known for their clear, accessible presentation of material that makes this text an excellent teaching tool. The ninth edition has been fully updated to reflect the recent financial crisis and is now accompanied by Connect, an exciting new homework management system.
