One of the greatest spiritual teachers of the twentieth century invites you on a journey through what makes human beings afraid—and how confronting fears strengthens us. In *Fear: Understanding and Accepting the Insecurities of Life*, Osho takes the reader step by step over the range of what makes human beings afraid—from the reflexive “fight or flight” response to physical danger to the rational and irrational fears of the mind and its psychology. Only by bringing the light of understanding into fear’s dark corners, he says, airing out closets and opening windows, and looking under the bed to see if a monster is really living there, can we begin to venture outside the boundaries of our comfort zone and learn to live with, and even enjoy, the fundamental insecurity of being alive. *Fear* features a series of

meditation experiments designed to help readers experience a new relationship with fear and to begin to see fears not as stumbling blocks, but as stepping stones to greater self-awareness and trust. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

One of the greatest spiritual teachers of the twentieth century will help you learn how to live in the present moment in *Awareness: The Key to Living in Balance*. Underlying all meditation techniques, including martial arts—and in fact underlying all great athletic performances—is a quality of being

awake and present to the moment, a quality that Osho calls awareness. Once we can identify and understand what this quality of awareness is, we have the key to self-mastery in virtually every area of our lives. According to great masters like Lao Tzu or Buddha, most of us move through our lives like sleepwalkers. Never really present in what we are doing, never fully alert to our environment, and not even aware of what motivates us to do and say the things we do. At the same time, all of us have experienced moments of awareness—or awakening, to use another—in extraordinary circumstances. On the road, in a sudden and unexpected accident, time seems to stop and one is suddenly aware of every movement, every sound, every thought. Or in moments that touch us deeply—welcoming a new baby into the world for the first time, or being with someone at the moment of death. Awareness, says Osho, is the key to being self-directed, centered, and free in every aspect of our lives. In this book, Osho teaches how to live life more attentively, mindfully, and meditatively, with love, caring and consciousness. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

How meditation supports physical and psychological health

Undressing Into Faith is a memoir of a woman finding the only true security we can in this ever-changing world an eternal home within ourselves. At the age of thirty-one, after twelve years living abroad, she returns to Israel as an affluent housewife and a mother of three small children. Bewilderment intertwined with deep loneliness and sadness pushes her to begin an inward journey through body and mind that strips her emotional and physical defences and opens her to faith and love. With candid and sometimes raw intimacy, the book describes the twists and turns her life takes over the course of three years. Subjects such as marriage, divorce, motherhood, female sexuality, freedom, independence, love, faith, and being true to oneself are all contemplated and acted upon throughout the book. By reconnecting to her feminine qualities of surrender, acceptance, and receptivity, she discovers life's magic.

This life is a gift from existence, to be lived and enjoyed. But with the seemingly impossible and conflicting demands of society, morality and culture, people struggle with feelings of unfulfilled potential, frustration and guilt, rather than living full lives. The world of Tantra has no division between higher and lower. The simple, ordinary, things of life are transformed into great things when we enter into them totally – be it car fixing, floor cleaning or lovemaking. Osho shows how, living this vision, new heights of consciousness and freedom are realized. "The days of tantra are coming. Sooner or later tantra will explode for the first time in the masses, because for the first time the time is ripe -- ripe to take sex naturally. One thing to be remembered always: if you are not very alert you may go on believing that you are moving into tantra, and you may be simply rationalizing your sexuality -- it may be nothing but sex, rationalized in the terminology of tantra. If you move into sex with awareness, it can turn into tantra. If you move into tantra with unawareness, it can fall and become ordinary sex."

Breaking the Spell St. Martin's Press

Love is not something to be obtained from the outside. Love is

the music of your inner being. Nobody can give you love. Love can arise within you, but it cannot be obtained from the outside. There is no shop, market, no salesman from whom you can purchase love. Love cannot be purchased, at any price. Love is an inner flowering. It arises from some dormant energy within, yet all of us search for love on the outside. But all of us search for love in the beloved— — Osho *The Inner Journey* is a precise manual for tuning the instrument— body, mind, heart, hara— to an inner balance and harmony that will pave the way for the experience of meditation. Osho speaks of meditation as a music that naturally flows in a well-tuned instrument, and of love as the dance that moves to this music.

Understanding and Accepting the Insecurities of Life St. Martin's Griffin

In *Compassion: The Ultimate Flowering of Love*, one of the greatest spiritual teachers of the twentieth century explores how to empathize with others—and ourselves. Examining the nature of compassion from a radically different perspective, Osho reveals that “passion” lies at the root of the word, and then proceeds to challenge assumptions about what compassion really is. Many so-called acts of compassion, he says, are tainted by a subtle sense of self-importance and desire for recognition. Others are based in the desire not really to help others but to force them to change. Using stories from the lives of Jesus and Buddha and the world of Zen, Osho shows how the path to authentic compassion arises from within, beginning with a deep acceptance and love of oneself. Only then, says Osho, does compassion flower into a healing force, rooted in the unconditional acceptance of the other as he or she is. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

The last words Osho spoke before leaving the body: "Anando will be my medium." Through a series of poignant memories and anecdotes, Anando offers a glimpse into the private life of the twentieth-century mystic, Osho, through her unique perspective as one of his caretakers and secretaries in the last years of his life. These stories, never before shared publicly, show another side of the man described by The Times (London) as "one of the

makers of the twentieth century". Anando reveals the sense of humor and fearlessness with which he navigated the controversies that hounded him in his later years, as well as the immense compassion and love with which he worked on those closest to him.

"In Shambhala: The Sacred Path of the Warrior Chögyam Trungpa offers an inspiring and practical guide to enlightened living based on the Shambhala journey of warriorship, a secular path taught internationally through the Shambhala Training program. Great Eastern Sun: The Wisdom of Shambhala is a continuation of that path. Shambhala was an exploration of human goodness and its potential to create an enlightened society—a state that the author calls "nowness." And in that spirit of nowness, Great Eastern Sun—which is accessible to meditators and nonmeditators alike—centers on the question, "Since we're here, how are we going to live from now on?"

Osho speaks in many of his talks on health as a more holistic understanding of the "BodyMindSpirit" complex. His depth of insights into what makes a healthy and whole human being plus the many meditation methods he has developed are a vital part of his overall vision and proposal to humanity. Although he never gave a series of talks specifically about health issues, he requested and titled this collection of selected material "From Medication to Meditation" which was subsequently compiled under the supervision of his personal physician. In the foreword, which is a talk by Osho given to the Medical Association in India, he paints his vision of a healthier and more whole future when he says "...every hospital will have a department of meditation. It should happen. Then we will be able to treat man as a whole. The body will be taken care of by the doctors, the mind by the psychologists, and the soul by meditation. "The day the hospitals accept man as a whole, as a totality, and then treat him as such, will be a day of rejoicing for mankind." - Osho

A comprehensive and in-depth discussion of the human energy centers known as chakras. The book offers a unique understanding of how these centers, also referred to as "subtle bodies" can be identified and experienced, along with how they are related to personal transformation and health. In this volume, Osho gives an overview of the Eastern science of the subtle energy centers in the human body that are sometimes known as "chakras." It is a science that underlies traditional Chinese medicine, Indian Ayurveda, and the practice of kundalini yoga, among other disciplines that recognize the deep connection between mind and body. Osho also shows how these same principles apply to human psychological growth and maturation, and the evolution of consciousness. Self-help, Spirituality, Psychology, Meditation, Esoteric, New Age, Health, Yoga. The title will especially of interest to the large group of people involved with Yoga, as the book describes in simple terms, using everyday experiences as examples, what underlies the Kundalini Yoga approach to the human energy system. The Chakra Book delivers the 'esoteric science' and understanding in the context of personal growth and transformation.

Talks on the Stories of Chuang Tzu. OSHO revitalises the 300-

year-old Taoist message of self-realization through the stories of the Chinese mystic, Chuang Tzu. He speaks about the state of egolessness, "the empty boat"; spontaneity, dreams and wholeness; living life choicelessly and meeting death with the same equanimity . Available in a beautiful new edition, this series overflows with the wisdom of one who has realized the state of egolessness himself.

Explores and explains the fundamental difference between psychology, therapy and meditation. "Enlightenment" in Western cultures has long been associated with the 18th century movement that brought about a new "age of reason." As Zen, Buddhism, and other eastern wisdom traditions have captured the imagination of the West, "enlightenment" has come to be known as a specific state of consciousness attained by an individual on a spiritual or meditative path. However, the Judeo-Christian context, with its belief in a divine power "out there" and separate from the individual, hinders most Westerners' ability to comprehend "enlightenment" in the Eastern sense. Our theistic conditioning leads to such common misunderstandings as perceiving enlightenment as the attainment of supernatural powers, or as something achievable only by those who are somehow "special." In this work, Osho deconstructs these misunderstandings and offers a radically different view of enlightenment, freed from all spiritual and religious beliefs - including the distortions of asceticism and renunciation that have arisen in Eastern and Western cultures both. Taking the reader step by step through the history of how both East and West have approached the mysteries of the human mind and spirituality, Osho offers a simple science of consciousness that he calls "the psychology of the buddhas." It is a science that in very clear terms shows how one can, through awareness and taking full responsibility for one's life, go beyond all limited belief systems, habits, and superstitions of the mind. That process, he says, brings us back to our nature - and that is enlightenment.

Living on Your Own Terms Penguin UK

In *Tao: The Pathless Path*, Osho, one of the greatest spiritual teachers of the twentieth century, comments on five parables from the Leih Tzu, bringing a fresh and contemporary interpretation to the ancient wisdom of Tao. Leih Tzu was a well-known Taoist master in the fourth century B.C., and his sly critiques of a Confucius provide abundant opportunities for the reader to explore the contrasts between the rational and irrational, the male and female, the structured and the spontaneous. "Who Is Really Happy" uses the discovery of a human skull on the roadside to probe into the question of immortality and how misery arises out of the existence of the ego. "A Man Who Knows How to Console Himself" looks beneath the apparent cheerfulness of a wandering monk and asks if there is really a happiness that endures through life's ups and downs. "No Regrets" is a parable about the difference between the knowledge that is gathered from the outside and the "knowing" that arises from within. "No Rest for the Living" uses a dialogue between a despondent seeker and his master to reveal the limits of philosophy and the crippling consequences of living for the sake of some future goal. "Best Be Still, Best Be Empty" discusses the difference between the path of the will, the via affirmativa of Christianity, Judaism, and Islam, versus the path of the mystic, the via negativa of Buddha and Lao Tzu. Tao: The

Pathless Path also features a Q&A section that addresses how Taoist understanding applies to everyday life in concrete, practical terms. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.
