*Be a Better Leader, Have a Richer Life
(With New Preface) McGraw-Hill*

The world faces social, political, and economic turmoil on an unprecedented scale—along with unsettling levels of turbulence and volatility. Market leadership today is less of a predictor of leadership tomorrow. Therefore, senior executives today must strive to own the future. In *Own the Future*, The Boston Consulting Group, one of the world's most prestigious and innovative management consulting firms, offers a roadmap. Drawing on the firm's experience advising organizations on how to achieve and sustain competitive advantage, this book offers 50 ideas to help readers chart their organization's path to future leadership. The articles are organized along ten attributes critical to success in the current environment—adaptive, global,

connected, sustainable, customer-first, fit to win, value-driven, trusted, bold, and inspiring. The future may be unknowable, but The Boston Consulting Group offers insights from its 50 years of practice on how readers can position their organization to win—to change the game and to own the future.

In *EDITH WHARTON ABROAD*, Sarah Bird Wright has carefully chosen selections from Edith Wharton's travel writing that convey the writer's control of her craft. Wharton disliked the generality of guidebooks and focused instead on the "parentheses of travel" - the undiscovered hidden corners of Europe, Morocco, and the Mediterranean. This collection spans a period of three decades and takes the reader with

Wharton from France to Italy and to Greece. Included is an excerpt from her unpublished memoir, *THE CRUISE OF THE VANDIS*, as well as front line depictions of Lorraine and the Vosges during World War I.

With the immediacy of today's NASDAQ close and the timeless power of a Greek tragedy, *The Quants* is at once a masterpiece of explanatory journalism, a gripping tale of ambition and hubris, and an ominous warning about Wall Street's future. In March of 2006, four of the world's richest men sipped champagne

in an opulent New York hotel. They were preparing to compete in a poker tournament with million-dollar stakes, but those numbers meant nothing to them. They were accustomed to risking billions. On that night, these four men and their cohorts were the new kings of Wall Street. Muller, Griffin, Asness, and Weinstein were among the best and brightest of a new breed, the quants. Over the prior twenty years, this species of math whiz--technocrats who make billions not with gut calls or fundamental analysis but with formulas and high-speed computers--had usurped the testosterone-fueled, kill-or-be-killed risk-takers who'd long been the alpha males the world's largest casino. The quants helped create a digitized money-trading machine that could shift billions around

the globe with the click of a mouse. Few realized, though, that in creating this unprecedented machine, men like Muller, Griffin, Asness and Weinstein had sowed the seeds for history's greatest financial disaster. Drawing on unprecedented access to these four number-crunching titans, *The Quants* tells the inside story of what they thought and felt in the days and weeks when they helplessly watched much of their net worth vaporize--and wondered just how their mind-bending formulas and genius-level IQ's had led them so wrong, so fast.

National Bestseller “Students talk about Stewart D. Friedman, a management professor at the Wharton School, with a mixture of earnest admiration, gratitude and rock star adoration.” —New York Times In this national bestseller, Stew Friedman gives you the tools you need to achieve “four-way wins”—improved

performance in all domains of life: work, home, community, and self. Friedman, celebrated professor and founding director of the Wharton School's Leadership Program and its Work/Life Integration Project, explains how three simple yet potent principles—be real, be whole, and be innovative—can help you, no matter what your age or what you do for work, become a better leader and have a richer life. In this engaging adaptation of his hands-on Wharton course, he offers step-by-step instruction to help you create positive, sustainable change in your world. This proven, programmatic method teaches you how to produce stronger results at work, find clearer purpose, feel less stressed, strengthen connections with the people who matter most to you, contribute

further to important causes, and gain greater support for your vision of your future. If you're ready to learn to lead in all parts of your life—this is the book for you. For a full array of Total Leadership tips and tools, visit totalleadership.org. Also look for Stew Friedman's book, *Leading the Life You Want*, which builds on Total Leadership by profiling well-known leaders—from Bruce Springsteen to Michelle Obama—who exemplify its principles and demonstrate how success in your work is accomplished not at the expense of the rest of your life, but as the result of meaningful attachments to all its parts.

Courage is defined as "what moves us to action in the face of tough times." Tough times are defined as "situations and people that cause us some level of discomfort or pain." So the question for every leader who wants to personify the Spine of a Leader is: "Are you willing to move to action in the face of discomfort or pain?" It's not that courageous leaders derive pleasure from pain, but rather, that they are willing to accept

pain as part of the process. Traditionally, courage has been viewed as something reserved for the elite and well trained. Leaders falsely believe they are required to be the “Navy Seals” of the workplace to be considered courageous but in reality, courage is accessible to everyone. Courage is required not just

with the grandiose problems but in the simple every day challenges that we all have the capacity to tap into. The Courageous Leader provides a different lens for how to see and leverage courage in day to day application by using stories of every day leaders"--
