Sasebo is the story of young Mason McCabe, an enlisted sailor whose leisurely tour of duty at the U.S. Naval Base in Sasebo, Japan during the 1950's is turned upside down when he comes face to face with the realities of the Cold War. His work with classified documents brings an offer from a communist undercover organization, headed by a Nisei with a grudge against America, to buy military secrets. Mason shrugs off the early offers, but his work as a courier of top secret documents eventually gets him into a situation where he is fighting for his very life on a mountain outside Sasebo. During the course of his tour he also becomes involved in a swing band

comprised of both Japanese and Americans. The band experience brings him into contact with Laura Robbins, a beautiful young officer's wife. Even though he knows that a relationship with her could have tragic consequences, he is unable to fend off the temptation. His involvement with a Japanese bar girl further complicates the situation. Mason McCabe's adventures reveal what life was like for young servicemen in the Far East during the 1950's when America had all the money and the Seventh Fleet was the "Bull of the Pacific."

Level Three completes the curriculum for a three-year course of band. The third level book's format differs slightly from the previous levels to allow for longer exercises for the advancing students. It is also slightly more sophisticated in look for the older students. The third level delves into more major and minor keys and scales, changing keys, and more advanced rhythms and meters, including easy mixed meter pieces. Rock-style, jazz-style, specifically swing rhythms, and more syncopated rhythms are included. The book is divided into eight

units, each introducing a new key signature. After Units 2, 4, 6, and 8, selections are included for performance opportunities: full band, Duet Plus, solo with band accompaniment, and, after Unit 8, two full band commissioned pieces by well-known writers Carl Strommen and Mike Story. Popular songs include: The Magnificent Seven * Caravan * Proud Mary * Begin the Beguine * Pennsylvania 6-5000 * Take Five. Classical pieces, folk songs from around the world and American folk songs make playing in the band fun, as well as exposing students to many different cultures and styles of music.

In response to popular demand, Emmanuel Goldstein (aka, Eric Corley) presents a spectacular collection of the hacker culture, known as 2600: The Hacker Quarterly, from a firsthand perspective. Offering a behind-the-scenes vantage point, this book provides devoted fans of 2600 a compilation of fascinating—and controversial—articles. Cult author and hacker Emmanuel Goldstein has collected some of the strongest, most interesting, and often provocative articles that chronicle milestone events and technology changes that have occurred over the last 24 years. He divulges author names who were formerly only known as “anonymous” but have agreed to have their identity revealed. The accompanying CD-ROM features the best episodes of Goldstein's “Off the Hook” radio shows. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

This book incorporates the “functional guidance” demanded by the real world legal practice without being “over technical.” This book bridges the gap between lawyers and technologists using a threefold approach combining technology, law and business practices. The author intends on first laying the overall legal and technical foundation, then discussing the processes through which data are collected, stored and used. Each chapter begins with an explanation of the operation being addressed (i.e. e-mail, social networking etc.) and how personal information is obtained and used, followed by key statutes, regulations and cases with links to full text. Each chapter will conclude with discussion of best practices, policies

and methods that are used to comply with the law. This eBook features links to Lexis Advance for further legal research options.
