This book focuses on recognition and its relation to religion and theology, in both systematic and historical dimensions. While existing research literature on recognition and contemporary recognition theory has been gradually growing since the early 1990s, certain gaps remain in the field covered so far. One of these is the multifaceted interaction between the phenomena of recognition and religion. Since recognition applies to persons, institutions, and normative entities like systems of beliefs, it also provides a very useful analytic and interpretative tool for studying religion. Divided into five sections, with chapters written by established scholars in their respective fields, the book explores the roots, history, and limits of recognition theory in the context of religious belief. Exploring early Christian and medieval sources on recognition and religion, it

also offers contemporary applications of this underexplored combination. This is a timely book, as debates over religious identities, problematic forms of extremism and societal issues related with multiculturalism continue to dominate the media and politics. It will, therefore, be of great interest to scholars of recognition studies as well as religious studies, theology, philosophy, and religious and intellectual history.

God loves me—but does He accept me? I'm saved and forgiven... do I just wait for heaven now? In *Classic Christianity*, believers will see the way back to the life Jesus provided—a life set free from the law's bondage, lived in the newness of the Spirit, and secure in the Father's affection. Outlook HarperOne
This book explores the relationship between the Bible and the world of music, an association that is recorded from ancient times in the Old Testament, and one that has continued to characterize the cultural self-expression of Western Civilization ever since. The study surveys the emergence of this close relationship in the era following the end of the Roman Empire and through the Middle Ages, taking particular note of the role of Gregorian chant, folk music and the popularity of mystery, morality and passion plays in reflection of the Sacred Scripture and its themes during those times. With the emergence of polyphony and the advent of the Reformation in the sixteenth century, the

interaction between the Bible and music increased dramatically, culminating in the evolution of opera and oratorio as specific genres during the Renaissance and the Early Baroque period. Both these genres have proved essential to the interplay between sacred revelation and the various types of music that have come to determine cultural expression in the history of Europe. The book initially provides an overview of how the various themes and types of Biblical literature have been explored in the story of Western music. It then looks closely at the role of oratorio and opera over four centuries, considering the most famous and striking examples and considering how the music has responded in different ages to the sacred text and narrative. The last chapter examines how biblical theology has been used to dramatic purpose in a particular operatic genre – that of French Grand Opera. The academic apparatus includes an iconography, a detailed bibliography and an index of biblical and musical references, themes and subjects.

Eerdmans Commentary on the Bible:

Ecclesiastes and Song of Songs

Orbis Books Learning in a Musical Key examines the multidimensional problem of the relationship between music and theological education. Lisa Hess argues that, in a delightful and baffling way, musical learning has the potential to significantly alter and inform our conception of the nature and process of theological learning. In exploring this exciting intersection of musical learning and theological training, Hess asks two probing questions. First, What does learning from music in a performative mode require? Classical modes of theological education often founder on a dichotomy between theologically musical and educational discourses. It is extremely difficult for many to see how the perceivedly nonmusical learn from music. Is musicality a universally human potential? In exploring this question Hess turns to the music-learning theory of Edwin Gordon, which explores music's unique mode of teaching/learning, its primarily aural-oral mode. This challenge leads to the study's second question: How does a theologian, in the

disciplinary sense, integrate a performative mode into critical discourse? Tracking the critical movements of this problem, Hess provides an inherited, transformational logic as a feasible path for integrating a performative mode into multidimensional learning. This approach emerges as a distinctly relational, embodied, multidimensional, and non-correlational performative-mode theology that breaks new ground in the contemporary theological landscape. As an implicitly trinitarian method, rooted in the relationality of God, this non-correlational method offers a practical theological contribution to the discipline of Christian spirituality, newly claimed here as a discipline of transformative teaching/learning through the highly contextualized and self-implicated scholar into relationally formed communities, and ultimately into the world. Rabbi Eliezer of Beaugency, Commentaries on Amos and Jonah (With Selections from Isaiah and Ezekiel)

Cambridge Scholars Publishing "Though 'biblical theology' has long been considered a strictly Christian enterprise, Marvin A. Sweeney here proposes a Jewish theology of the Hebrew Bible, based on the importance of Tanak as the foundation of Judaism and organized around the major components: Torah, Nevi'im (Prophets), and Kethuvim (Writings). Sweeney finds the structuring themes of Jewish life: the constitution of the nation Israel in relation to God; the disruption of that ideal, documented by the Prophets; and the reconstitution of the nation around the Second Temple in the Writings. Throughout he is attentive to tensions within and among the texts and the dialogical character of Israel's sacred heritage" -- Publisher description.

Psalms of the Bible: The Songs of Scripture in Both Contemporary and Classic Form Canyonwalker Press

Seeking a faithful solution to conflict over musical worship, the pastor/musician author begins with biblical principles for worship, examines historical and contemporary models for worship, and evaluates worship practices in one presbytery of the Presbyterian Church (U.S.A.), to propose guiding principles and specific applications for the use of music in worship. The project shows biblical worship to be described by a number of characteristics and grounded in God's Word, presence, and community. After exploring these principles biblically, historically, and culturally, the outcome of the project is a significant collection of music-related worship resources for use in the local church and for equipping in broader teaching contexts.

This volume brings together new approaches to music history to reveal the interdependence of music and religion in nineteenth-century culture. As composers and performers drew inspiration from the Bible and new historical sciences called into question the historicity of Scripture, controversies raged over the performance, publication and censorship of old and new musical forms. From oratorio to opera, from parlour song to pantomime, and from hymn to broadside, nineteenth-century Britons continually encountered elements of the biblical past in song. Both elite and popular

music came to play a significant role in the formation, regulation and contestation of religious and cultural identity and were used to address questions of class, nation and race, leading to the beginnings of ethnomusicology. This richly interdisciplinary volume brings together musicologists, historians, literary and art historians and theologians to reveal points of intersection between music, religion and cultural history.

Learning in a Musical Key
Routledge

In *Divine Marriage from Eden to the End of Days*, Andre Villeneuve explores the mystery of God's love in the Bible and ancient Jewish tradition. Scripture portrays the covenant between God and his people as a divine-human marriage spanning through all of human history. For the ancient Jewish interpreters, God married humanity at the dawn of creation in the Garden of Eden; but the union was broken by human sin. The Lord restored the relationship when he betrothed Israel at Mount Sinai; yet the covenant was wounded again with the transgression of the golden calf. The nuptial bond was healed anew, commemorated, and reenacted through liturgical worship in Israel's tabernacle and

temple. This worship in God's "nuptial chamber," in turn, anticipated the ultimate fulfillment of the divine-human marriage in the messianic age at the end of history. The first part of the book explores the marriage through Israel's biblical history in light of ancient Jewish exegesis. The second part unveils the marriage in the ancient interpretation of the Song of Songs and in wisdom literature. The third part reveals how the same symbolism is taken up in the New Testament and applied to the marriage between Christ and the Church.

Mary Mansfield; or, 'No time to be a Christian', by M.H. Wipf and Stock Publishers

The Bible took shape over the course of centuries, and today Christian groups continue to disagree over details of its contents. The differences among these groups typically involve the Old Testament, as they mostly accept the same 27-book New Testament. An essential avenue for understanding the development of the Bible are the many early lists of canonical books drawn up by Christians and, occasionally, Jews. Despite the importance of these early lists of books,

they have remained relatively inaccessible. This comprehensive volume redresses this unfortunate situation by presenting the early Christian canon lists all together in a single volume. The canon lists, in most cases, unambiguously report what the compilers of the lists considered to belong to the biblical canon. For this reason they bear an undeniable importance in the history of the Bible. The *Biblical Canon Lists from Early Christianity* provides an accessible presentation of these early canon lists. With a focus on the first four centuries, the volume supplies the full text of the canon lists in English translation alongside the original text, usually Greek or Latin, occasionally Hebrew or Syriac. Edmon L. Gallagher and John D. Meade orient readers to each list with brief introductions and helpful notes, and they point readers to the most significant scholarly discussions. The book begins with a substantial overview of the history of the biblical canon, and an entire chapter is devoted to the evidence of biblical manuscripts from the first millennium. This

authoritative work is an indispensable guide for students and scholars of biblical studies and church history.

Since the earliest beginnings of the Christian Church, believers have gathered to worship God--Father, Son and Holy Spirit. They have expressed their faith by singing "psalms, hymns and spiritual songs with gratitude in their hearts to God" (Colossians 3:16). One of the best ways to learn about and enter into what Christians believe is to sing the classic, well-known, deeply-loved hymns of our tradition. In *Unwearied Praises*, readers are invited to reflect upon the experience of classic hymns as a doorway into

the historic beliefs and spiritual insights that have defined Christianity for centuries. Each chapter includes Scripture references and questions for reflection, making this an excellent resource for a small group study or personal enrichment. "The current rediscovery of hymnology for worship will be greatly enhanced by this theologically astute yet highly practical volume of classic hymns. I hope, for the sake of the church's spiritual health, *Unwearied Praises*, will receive a wide readership." -Robert E. Webber, Author of *Ancient-Future Faith and Blended Worship* Jeffrey P. Greenman (Ph.D., Virginia) occupies the R.J. Bernardo Family Chair of Leadership at Tyndale Seminary in Toronto. George R. Sumner (Ph.D., Yale) is Principal and the Helliwell Professor of Missions at Wycliffe College, Toronto School of Theology, University of Toronto.

The Watchman James Clarke & Co.

When we approach such men as St. Bernard of Clairvaux and John Calvin, we are approaching two men who were not only significant figures of their time but figures standing on opposite shorelines of

the influence and impact of Scholasticism, as well as a tumultuous decline in orthodoxy. Despite this reality, what is most compelling about these two men is the continuity of their developed thought, even though they were worlds apart, separated by time. This continuity is most assuredly grounded in their historical sources, and, more importantly, their faithful handling of God's word. That continuity, although not point for point, was rather for the significant part of the structure and content—sum and substance—of the twofold knowledge of God and self. For both of these men, this doctrine was fundamental, permeating the whole of their world and life philosophy. Bernard and Calvin clearly saw the implications of this twofold knowledge. These implications manifest in the realm of various doctrines and the network of their system of thought. This book seeks to explore those various components of their twofold knowledge of God and self, as well as the implications in the realm of experiential Christianity.
