Teacher leadership is not easy but it is an essential component of today's accountability driven schools.

Teacher leaders can be formal or informal leaders, but their goal remains the same-- maximizing student learning and improving

the school culture. And who better to teach us about the obstacles, challenges, and victories of teacher leadership than teachers themselves? Krovetz and Arriaza place teachers' voices and stories at the center of this book, using these moving narratives to illustrate the key concepts of teacher leadership. The book is organized around the habits of mind of inquiry, equity, and advocacy as a means of developing effective teacher leaders. Further, the authors include information on how teacher leaders can document and sustain their growth as teacher leaders. Based on the authors' work with hundreds of teacher leaders, this essential guide is ideal for school

leaders and leadership teams.

The foundation for science, technology, engineering, and mathematics (STEM) education begins in the early years. This book provides more than ninety activities and learning center ideas that seamlessly integrate STEM throughout early childhood classrooms. These hands-on STEM experiences enhance cooking, art, and music activities, block play and sensory table exploration, and field trips and outdoor time. Information on assessment and early learning standards is also provided. Sally Moomaw, EdD, has spent much of her career researching and teaching STEM education. She is an assistant professor at the University of Cincinnati and the

author of several early education books. Introduction to English as a Second Language Teacher's Book WaterBrook  
Love alone isn't enough to overcome some obstacles. Lena Kauffman is a young Old Order Amish schoolteacher who has dealt all her life with attention raised by a noticeable birthmark on her cheek. Having learned to move past the stares and whispers, Lena channels her zest for living into her love of teaching. But tensions mount as she is challenged to work with a rebellious young man and deal with several crises at the schoolhouse that threaten her other students. Her lack of submission and use of ideas that don't line up

with the Old Ways strengthen the school board's case as they begin to believe that Lena is behind all the trouble. One member of the school board, Grey Graber, feels trapped by his own stifling circumstances. His wife, Elsie, has shut him out of her life, and he doesn't know how long he can continue to live as if nothing is wrong. As the two finally come to a place of working toward a better marriage, tragedy befalls their family. Lena and Grey have been life-long friends, but their relationship begins to crumble amidst unsettling deceptions, propelling each of them to finally face their own secrets. Can they both find a way past their losses and discover the strength

to build a new bridge?

Filled with practical strategies, classroom-management ideas, and reproducible tools, this book also offers low- and high-tech solutions for increasing writing volume and boosting self-esteem. Plus, with suggestions for differentiating

instruction based on standards and student needs, it will help you: Implement principles of UDL to optimize your classroom environment and student learning; Identify and honor students' strengths throughout your writing instruction; Maximize the power of formative assessment to set goals with students; and Integrate the most appropriate technology that empowers students and leads them to independence. As essential as writing is in elementary school, it will be even more important when your students reach middle school. Now is the time to give them the skills, practice, and confidence they need to succeed. As we know, in distance learning caregivers and

teachers partner more than ever to help students with writing. This book incorporates the 2/1 Game Force bidding system whenever the opener bids a major suit. Five new conventions have been added to the 2/1 system. This book is also designed to improve your bidding of minor suit openings in 4 steps. The 1st step involves the use of the Casey-Jacoby Transfer and the Casey overcall (a 1NT bid shows 4 hearts). The 2nd step

involves adoption of the strong 2 bid, a bid of 20-21p. This allows the opener to use the Casey Reverse to show a hand of 16-17p by bidding at the 2-level and to show a hand of 18-19p by bidding at the 3-level. The Casey Minor Suit Rebid convention allows O to show a 4+ card suit at the 2 or 3-level. The 3rd step involves optimizing your slam bidding with the Casey Trump Queen convention and the Casey-Minorwood Kickback convention. The 4th step involves the use of the Weak-1NT (a 1NT bid shows 4 hearts) and Weak-2NT bids, both designed to hamper the opponents. *Object Lessons* Redleaf Press

Highly anticipated follow-up to the winner of the 2019 ABTA (American Bridge Teachers Association) Book of the Year

Award! The latest installment of the Insights on Bridge series contains hundreds more carefully crafted mini-lessons designed to turn aspiring players into good players. The material in this book is devoted to situations and problems you will see at the table but are hard to find in books. Note From Mike Lawrence: AFTER WRITING OVER 25 books on bridge that discuss certain aspects of play, defense, system, or general bidding, I've begun a series of books aimed at turning aspiring players into good players. Note I don't say expert players. That will be the next step. Bridge isn't a game where you can immerse yourself for six months and

become a good player. There's just too much to learn. You have to start somewhere and then move in the right direction. Typically, when you start playing in a club, you feel lost. After you get your feet on the ground, you still recognize that you aren't moving very fast. Going forward requires that you get good guidance. Many players at your club will offer advice. Much of that advice, unfortunately, isn't

very good. This series of books includes hundreds of mini-lessons, complete with insights and advice you can count on. The material is devoted to situations and problems you will see at the table but not in other books. This book (#2 in a series) won't make you an expert. But these books will start you on the path to being a good player and a good partner. Enjoy the trip. Mike Lawrence
