Walk With Us: How The West Wing Changed Our Lives Valerie Twombly

At twelve years old, Lev Parikian was an avid birdwatcher. He was also a fraud, a liar and a cheat. Those lists of birds seen and ticked off? Lies. One hundred and thirty species? More like sixty. Then, when he turned fifty, he decided to right his childhood wrongs. He would go birdwatching again. He would not lie. He would aim to see two hundred species of British bird in a year. **Why Do Birds Suddenly Disappear?** is the story of that year, a story about birds, family, music, nostalgia, the nature of obsession and obsession with nature. It's about finding

adventure in life when you twig it's shorter than you thought, and about losing and regaining contact with the sights, sounds and smells of the natural world. It's a book for anyone who has ever seen a small brown bird and wondered what it was, or tried to make sense of a world in which we can ask, 'What's that bird?' and 'What's for lunch?' and get the same answer.

The cheque's in the post. I'm still at the office. That looks great on you. Lies make the world go round. And in this book the *Would I Lie To You?* team celebrates the fine art of the everyday fib. Like the deliriously funny contributions of Rob Brydon, Lee Mack and David Mitchell in the hugely successful panel game, here is a delightful collection of 100 fibs that all of us can recognise. Lies like: I didn't even notice she was pretty; I'm working from home tomorrow; and wow, your tattoo looks really... interesting. Written in the same warm, witty and inspired tone that's made the TV show such a hit, the book uncovers the little deceptions that strike a chord with all of us. There are the lies we tell others, the lies people tell us and the lies we tell ourselves. Each entry in the book is laugh-out-loud funny, and filled with more than a little bit of painful truth. If you're a fan of the show, a lover of spot-on observational comedy, or have ever told a porky, *Would I Lie To You? Presents the 100 Most Popular Lies of All Time* is the

book you've been waiting for.

The Fate's Chronicles Boxset CARTER BOOKS

With its fast and furious dialogue, crackling wit, and political savvy, *The West Wing* became appointment TV for millions during its seven-season run between 1999 and 2006. The behind-the-scenes ensemble drama about Washington politics premiered on the wake of the Monica Lewinsky scandal, was the first series to respond to the 9/11 terrorist attacks, and concluded in the closing years of the Bush administration. Its subject matter was ambitious and germane, its cast star-studded, its production team acclaimed. In this volume, Janet McCabe explores *The West Wing* as both a space for political and social discourse and a force that reshaped contemporary television. McCabe begins by examining the series' broadcasting history, including its scheduling in the United States and around the world, and how the show defines channels and television markets. McCabe goes on to explore the role of the show's creator Aaron Sorkin as a TV auteur and investigates the program's aesthetic

principles, including the distinctive look, feel, and sounds of the series. McCabe concludes by considering the political discourse of *The West Wing*, as the show spoke back to a U.S. culture divided by politics, race, and gender as well as the trauma of 9/11 and anxieties over terrorism and the wars in Iraq and Afghanistan. McCabe's analysis of *The West Wing* provides an intriguing look at the institutional, formal, and cultural politics of television. Fans of the series as well as students and teachers of television history will enjoy this detailed volume.

But what does your furniture point at?' asks the character Joey in the sitcom *Friends* on hearing an acquaintance has no TV. It's a good question: since its beginnings during WW2, television has assumed a central role in our houses and our lives, just as satellite dishes and aerials have become features of urban skylines. Television (or 'the idiot's lantern', depending on your feelings about it) has created controversy, brought coronations and World Cups into living rooms, allowed us access to 24hr news and media and provided a thousand conversation starters.

As shows come and go in popularity, the history of television shows us how our society has changed. *Armchair Nation* reveals the fascinating, lyrical and sometimes surprising history of telly, from the first demonstration of television by John Logie Baird (in Selfridges) to the fear and excitement that greeted its arrival in households (some viewers worried it might control their thoughts), the controversies of Mary Whitehouse's 'Clean Up TV' campaign and what JG Ballard thought about *Big Brother*. Via trips down memory lane with Morecambe and Wise, Richard Dimbleby, David Frost, Blue Peter and Coronation Street, you can flick between fascinating nuggets from the strange side of TV: what happened after a chimpanzee called 'Fred J. Muggs' interrupted American footage of the Queen's wedding, and why aliens might be tuning in to *The Benny Hill Show*.
