Jesus Speaks Penguin

Steve Inskip tells the riveting story of John and Jessie Frémont, the husband and wife team who in the 1800s were instrumental in the westward expansion of the United States, and thus became America's first great political couple. John C. Frémont, one of the United States's leading explorers of the nineteenth century, was relatively unknown in 1842, when he commanded the first of his expeditions to the uncharted West. But in only a few years, he was one of the most acclaimed people of the age - known as a wilderness explorer, bestselling writer, gallant army officer, and latter-day conquistador, who in 1846 began the United States's takeover of California from Mexico. He was not even 40 years old when Americans began naming mountains and towns after him. He had perfect timing, exploring the West just as it captured the nation's attention. But the most important factor in his fame may have been the person who made it all possible: his wife, Jessie Benton Frémont. Jessie, the daughter of a United States senator who was deeply involved in the West, provided her husband with entrée to the highest levels of government and media, and his career reached new heights only a few months after their elopement. During a time when women were allowed to make few choices for themselves, Jessie - who herself aspired to roles in exploration and politics - threw her skill and passion into promoting her husband. She worked to carefully edit and publicize his accounts of his travels, attracted talented young men to his circle, and lashed out at his enemies. She became her husband's political adviser, as well as a power player in her own right. In 1856, the famous couple strategized as John became the first-ever presidential nominee of the newly established Republican Party. With rare detail and in consummate style, Steve Inskip tells the story of a couple whose joint ambitions and talents intertwined with those of the nascent United States itself. Taking advantage of expanding news media, aided by an increasingly literate public, the two linked their names to the three great national movements of the time—westward settlement, women's rights, and opposition to slavery. Together, John and Jessie Frémont took parts in events that defined the country and gave rise to a new, more global America. Theirs is a surprisingly modern tale of ambition and fame; they lived in a time of social and technological disruption and divisive politics that foreshadowed our own. In *Imperfect Union*, as Inskip navigates these deeply transformative years through Jessie and John's own union, he reveals how the Frémonts' adventures amount to nothing less than a tour of the early American soul.

The Richest Man Who Ever Lived John Wiley & Sons

Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average

American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is *Homo Deus*. With the same insight and clarity that made *Sapiens* an international hit and a New York Times bestseller, Harari maps out our future. NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four.

How the world's leading innovators push their ideas to fruition again and again Edison famously said that genius is 1 percent inspiration, 99 percent perspiration. Ideas for new businesses, solutions to the world's problems, and artistic breakthroughs are common, but great execution is rare. According to Scott Belsky, the capacity to make ideas happen can be developed by anyone willing to develop their organizational habits and leadership capability. That's why he founded Behance, a company that helps creative people and teams across industries develop these skills. Belsky has spent six

years studying the habits of creative people and teams that are especially productive—the ones who make their ideas happen time and time again. After interviewing hundreds of successful creatives, he has compiled their most powerful—and often counterintuitive—practices, such as: •Generate ideas in moderation and kill ideas liberally •Prioritize through nagging •Encourage fighting within your team While many of us obsess about discovering great new ideas, Belsky shows why it's better to develop the capacity to make ideas happen—a capacity that endures over time.

After a deadly medical mistake sent a navy sailor to the presence of Jesus, he returned from his near-death experience with new eyes to see the kingdom of heaven in this life. Now he wants to help you experience heaven on earth today. For years Steve Musick kept his amazing story to himself, afraid no one would believe or understand it. A major allergic reaction had stopped his heart, hurling him into a five-week coma and a powerful experience of heaven. After returning to life, he couldn't forget the memory of that vibrant place—and, most of all, the loving words and touch of Jesus. But that was only the beginning. An amazing series of miracles, dreams, and other supernatural events had been set in motion, showing Steve that heaven was close, even in this life. God was calling him to discover echoes of heaven in the here and now—echoes that can happen at any moment, to anyone—that bring overwhelming joy. At last Steve is ready to tell the story of his journey of a lifetime—two lifetimes. In it you'll learn the secret of bringing heaven to earth in your everyday world, and how to nurture a relationship with God so real and intimate that you'll feel his nearness as strongly as Steven did. Experience one man's incredible vision of heaven—and learn how you can live in God's presence and power today.

Climate change may be all around us, but it is often difficult to see. Carbon dioxide is invisible, and the prevailing imagery of climate change is often remote (such as ice floes melting) or abstract and scientific (charts and global temperature maps). Nobody really knows what 2 or 4 of global warming might look like in their community. The causes of climate change that surround us are often only dimly perceived or concealed, and there are as yet few examples of effective community solutions that people can see.

"Clever, surprisingly fast-paced, and enlightening." —Forbes Most new products fail. So do most businesses. And most of us, if we are honest, have experienced a major setback in our personal or professional lives. So what determines who will bounce back and follow up with a home run? What separates those who keep treading water from those who harness the lessons from their mistakes? One of our most popular business bloggers, Megan McArdle takes insights from emergency room doctors, kindergarten teachers, bankruptcy judges, and venture capitalists to teach us how to reinvent ourselves in the face of failure. *The Up Side of Down* is a book that just might change the way you lead your life.

Is there a gap between you and your dream? A few years back, Joël Malm had the idea to lead people on outdoor expeditions with a spiritual, God-centered focus. Following God's lead, he created a vision map, started his organization, and made it happen. This book is a response to the question he often gets: How do you do something like that? Whether you want to start a business, raise a family, run a marathon, plant a church, restore a relationship, or climb a mountain, you can take practical steps to see your vision come to be. *Vision Map* is not a formula for overnight success, but it is a template to start anyone on the path to envisioning a God-given dream. God often gives us a difficult problem to solve, and we just need a push in the right direction to find the answer.

Life After Heaven HarperCollins

In this short, powerful book, multimillionaire and bestselling author Steven K. Scott reveals King Solomon's breakthrough strategies to achieve a life of financial success and personal fulfillment. Steve Scott flunked out of every job he held in his first six years after college. He couldn't succeed no matter how hard he tried. Then Dr. Gary Smalley challenged him to study the book of Proverbs, promising that in doing so he would achieve greater success and happiness than he had ever known. That promise came true, making Scott a millionaire many times over. In *The Richest Man Who Ever Lived*, Scott reveals Solomon's key for winning every race, explains how to resolve conflicts and turn enemies into allies, and discloses the five qualities essential to becoming a valued and admired person at work and in your personal life. Scott illustrates each of Solomon's insights and strategies with anecdotes about his personal successes and failures, as well as those of such extraordinary people as Benjamin Franklin, Thomas Edison, Oprah Winfrey, Bill Gates, and Steven Spielberg. At once inspiring and instructive, *The Richest Man Who Ever Lived* weaves the timeless truths of one of our greatest works of literature into a detailed roadmap for successful living today.
