Currently, there are over 65,000
foundations in the United States. One of
the largest is the Bill & Melinda Gates
Foundation, which has approximately
\$22 billion in assets and paid out an
estimated \$2.8 billion in grants in 2008.

The Rockefeller Foundation gave \$2.2
million to help fund the rebuilding of
New Orleans and committed an
additional \$70 million to build the
resistance of communities vulnerable to
climate change. The Ben & Jerry's
Foundation, the Tiger Woods Foundation,
and the Ford Foundation are other
foundations that provide funds to those
in need. This book details the different
types of foundations and how to identify
a foundation to fund your project. You

will learn how to qualify for grants, locate foundations in your subject and geographic area, and how to fill out a grant application. This book will also explain how to create an effective proposal by walking you through each section, including the cover letter, table of contents, executive summary, and statement of need, as well as your project's goals and objectives, specific and measurable outcomes, evaluation, budget, and sustainability. You will even learn how to write letters of inquiry that will grab and keep the readers' attention. The book is filled with valuable information for organisations seeking funding from foundations. There are also insightful interviews with foundation officers and grant recipients, as well as sample proposals, letters, worksheets,

and checklists. By using these tools and following the advice in this comprehensive guide, you will be able to find funding and achieve your organisation's goals.
