Technical and Military Imperatives: A Radar History of World War II is a coherent account of the history of radar in the second World War. Although many books have been written on the early days of radar and its role in the war, this book is by far the most comprehensive, covering ground, air, and sea operations in all theatres of World War II. The author manages to synthesize a vast amount of material in a highly readable, informative, and enjoyable way. Of special interest is extensive new material about the development and use of radar by Germany, Japan, Russia, and Great British. The story is told without undue technical complexity, so that the book is accessible to specialists and nonspecialists alike.

The Chinese city of Yangzhou has been of great cultural significance for many centuries, despite its destruction by invaders in the 17th and 19th centuries. It was a site of virtual pilgrimage for aspiring members of the Chinese educated class during the Ming and Qing periods. Moreover, because it was one of the foremost commercial centres during the late imperial period, it was the place where the merchant and scholarly classes merged to set new standards of taste and to create a cultural milieu quite unlike that of other cities, even other major centres in the region. The luxurious elegance of its gardens and the eminence of its artistic traditions meant that Yangzhou set aesthetic standards for the entire realm for much of the late imperial age. Over the years, particular regional forms of art and entertainment arose here, too, some surviving into the present time.

From Ty McCormick, winner of the Robert F. Kennedy Journalism Award, an epic and timeless story of a family in search of safety, security, and a place to call home. When Asad Hussein was growing up in the world's largest refugee camp, nearly every aspect of life revolved around getting to America—a distant land where anything was possible. Thousands of displaced families like his were whisked away to the United States in the mid-2000s, leaving the dusty encampment in northeastern Kenya for new lives in suburban America. When Asad was nine, his older sister

Maryan was resettled in Arizona, but Asad, his parents, and his other siblings were left behind. In the years they waited to join her, Asad found refuge in dog-eared novels donated by American charities, many of them written by immigrants who had come to the United States from poor and war-torn countries. Maryan nourished his dreams of someday writing such novels, but it would be another fourteen years before he set foot in America. The story of Asad, Maryan, and their family's escape from Dadaab refugee camp is one of perseverance in the face of overwhelming adversity. It is also a story of happenstance, of long odds and impossibly good luck, and of uncommon generosity. In a world where too many young men are forced to make dangerous sea crossings in search of work, are recruited into extremist groups, and die at the hands of brutal security forces, Asad not only made it to the United States to join Maryan, but won a scholarship to study literature at Princeton—the first person born in Dadaab ever admitted to the prestigious university. Beyond the Sand and Sea is an extraordinary and inspiring book for anyone searching for pinpricks of light in the darkness. Meticulously reported over three years, it reveals the strength of a family of Somali refugees who never lost faith in America—and exposes the broken refugee resettlement system that kept that family trapped for more than two decades and has turned millions into permanent exiles.

Honor Before Glory AuthorHouse

In this captivating novel, New York Times bestselling author Fiona Davis takes readers into the glamorous lost art school within Grand Central Terminal, where two very different women, fifty years apart, strive to make their mark on a world set against them. For most New Yorkers, Grand Central Terminal is a crown jewel, a masterpiece of design. But for Clara Darden and Virginia Clay, it represents something quite different. For Clara, the terminal is the stepping stone to her future. It is 1928, and Clara is teaching at the lauded Grand Central School of Art. Though not even the prestige of the school can override the public's disdain for a "woman artist," fiery Clara is single-minded in her quest to achieve every creative success—even while juggling the affections of two very different men. But she and her bohemian

friends have no idea that they'll soon be blindsided by the looming Great Depression...and that even poverty and hunger will do little to prepare Clara for the greater tragedy yet to come. By 1974, the terminal has declined almost as sharply as Virginia Clay's life. Dilapidated and dangerous, Grand Central is at the center of a fierce lawsuit: Is the once-grand building a landmark to be preserved, or a cancer to be demolished? For Virginia, it is simply her last resort. Recently divorced, she has just accepted a job in the information booth in order to support herself and her college-age daughter, Ruby. But when Virginia stumbles upon an abandoned art school within the terminal and discovers a striking watercolor, her eyes are opened to the elegance beneath the decay. She embarks on a quest to find the artist of the unsigned masterpiece—an impassioned chase that draws Virginia not only into the battle to save Grand Central but deep into the mystery of Clara Darden, the famed 1920s illustrator who disappeared from history in 1931.

Seventeen-year-old Erich is a prisoner of war working at a northern Alberta logging camp. Twelve-year-old Max goes to school—reluctantly—in the nearby town. The two would be unlikely friends, except that neither has anyone else to turn to. At the height of World War II, nobody wants to befriend a German. It doesn't matter that Erich was forced into the military by his father, or that Max was proudly born in Canada. They are both easy targets for the locals' grief and anger against the Nazis. The other prisoners are no more welcoming, distrustful of Erich's perfect English and his dislike for Nazism. Still, when a series of accidents shake the logging camp, they pressure Erich to question the Canadians and find the saboteur—even if his questions get him into trouble. Caught between angry prisoners and suspicious captors, Erich is afraid to take any action at all. It is only when Max's schoolyard tormentors cross a dangerous line that Erich realizes that his real loyalties lie not with a regime or a country, but with his friend.

A Radar History of World War 2 NIAS Press

On October 24, 1944, more than two hundred American soldiers realized they were surrounded by German infantry deep in the mountain forest of eastern France. As their dwindling food, ammunition, and medical supplies ran out, the American commanding officer turned to the 442nd Regimental Combat

Team to achieve what other units had failed to do. Honor Before Glory is the story of the 442nd, a segregated unit of Japanese American citizens, commanded by white officers, that finally rescued the "lost battalion." Their unmatched courage and sacrifice under fire became legend—all the more remarkable because many of the soldiers had volunteered from prison-like "internment" camps where sentries watched their mothers and fathers from the barbed-wire perimeter. In seven campaigns, these young Japanese American men earned more than 9,000 Purple Hearts, 6,000 Bronze and Silver Stars, and nearly two dozen Medals of Honor. The 442nd became the most decorated unit of its size in World War II: its soldiers earned 18,100 awards and decorations, more than one for every man. Honor Before Glory is their story—a story of a young generation's fight against both the enemy and American prejudice—a story of heroism, sacrifice, and the best America has to offer.
