55% off bookstores! discount retail price now at \$27,95 instead of \$35,95 Kids, have you ever had a cool science demonstration at school and wanted to learn more about it at home? Have you ever wondered about something and thought your parents or caregivers could help you learn more about it? Or, are you just interested in science and want to learn more about how it works, using simple everyday items from

home? This book is going to be great for you! It's a simple explanation of 20 of the coolest science experiments to do from home using items that are usually found in an average household. There are a ton of things to learn from this book, and the experiments are fun and will teach you something about science you probably didn't already know. Get ready to impress your teacher and classmates! Make sure that you have an adult help you with the experiments included in this book; grownups are great at helping you learn and will make sure that all of these experiments are done safely and correctly. Each of the activities can be done with items generally found in your home or can be purchased at a low cost at a local pharmacy or grocery store. They are all safe and non-toxic; however, proper safety measures should be taken to show children how it is essential always to be protected and prepared. This book covers experiments to learn about the following: - Biology - Physics - Earth - Air and Gases - Water and Liquids - Color - Sound and Music - Art - Plants and Seeds ...And much

more!! Enjoy the experiments, and have fun teaching your children about science and knowing they are enjoying it. Get your copy now!

101 Cool Science Experiments DK Children
Is learning by reading enough for your child? If not, then get on some hands-on fun through experimentation. Experiments are highly recommended methods of learning because they encourage your child's problem solving skills while growing knowledge. This book is an exciting compilation of cool science experiments. Look out for pops and fizzles! Grab a copy today!
Science Experiments for Kids: Fun and Fantastic Projects to Improve Children's Creativity (Activity Book for Kids) Fox Chapel Publishing
Young readers can turbo-charge their science skills with this mind-expanding book, jam-packed with over 50 awesome science experiments! These eye-opening tricks will introduce children to the miraculous world of biology, chemistry and physics, including forces, optics, acoustics and more. Every experiment is set out in clear, step-by-step instructions with hilarious cartoon artworks

and includes a breakdown of the scientific principles behind it. Experiments include: • How to make eggs bounce and bones bend • How to make secret messages using just a ... lemon?! • How to bend light with water • How to create your own eye-opening optical illusions Through these fun experiments, this book will spark a life-long interest in the marvels of science. Perfect for readers aged 7+. ABOUT THE SERIES: Bamboozle, befuddle and blow the minds of young readers with the Absolutely Epic Activity Books. This fab and funny series of puzzles, experiments and activities feature wacky cartoon illustrations and are perfect for kids aged 7+.

101 Great Science Experiments 101 Great Science Experiments This book offers a fun way to introduce science to kids, with 50 simple experiments that produce spectacular results. Parents will use this book to spend quality time their children. This is a great source book for science fair experiment ideas. The Naked Scientists Podcast is one of the world's most downloaded science podcasts. An iTunes Top 20 Science & Medicine

Podcast, it has been downloaded more than 40 million times. Over the last ten years the Naked Scientists team has won 9 prestigious national and international awards for science communication. The Girls' Book hinkler The remarkable activities in this no-sweat science guide will help you take a closer look at how our lives are affected by everything from light and heat to air and wind.

The 101 Coolest Simple Science Experiments

Sterling Publishing Company, Inc. The BEST Home Science Projects To Make Your Child Fall In Love With Science! Who says science has to be boring and difficult? Forget about mad scientists and messy laboratories! This incredible, interactive guide for children showcases 101 absolutely awesome experiments you can do with your little one from the comfort of your home. Whether, it's a homemade Lava Lamp or a CO2 Balloon Rocket - these experiments are guaranteed to be a BLAST! Home Science Experiments For Smart Kids Includes... ✓ 101+ Fun And Educational Science Projects Kids Can Do From The Safety Of Their Own Home! ✓ Easy

To Follow Instructions That Make Doing These Experiments As Easy As Riding A Bike For Your Child ✓ Photos Showing Each Experiment And How To Do EVERY single one of them! ✓ Everyday Science Your Kid Will Love That Is Suitable For ALL Ages! ✓ The 5 Steps Of The Scientific Method EVERY Child Needs To Know ✓ Ridiculously Fun Experiments Such As Elephant Toothpaste, Frozen Slime & Glow in the Dark Ice Cubes! And SO Much More! Now it's time to put on your lab coat with your little one and get experimenting! If You Want Your Child To Fall In Love With Science, And Have Endless Amounts Of Fun - While Rapidly Learning Simultaneously - Then Scroll Up And Click "Add To Cart NOW!" *101 Super Simple Science Experiments* Castle Point Books Explore the possibilities of experimentation in your very own kitchen! Over 100 project ideas and endless hours of educational fun. Encourage your little scientist with great experiments and activities even adults won't know the science behind! These great at-home experiments are simple,

safe, and guaranteed endless fun for the whole family. This super duper book even includes delicious recipes for amazing treats! Watch ice cream and sugar rock crystals form before your very eyes. The book walks a child through an introduction of the scientific method and the proper safety measures for experimenting at home, teaching such concepts as simple chemical reactions, states of matter, hydrophilic and hydrophobic interactions, density, and thermodynamics.

Pop, Sizzle, Boom!

PRUFROCK PRESS INC.

Did you know that experiments are the best way to learn science? A child is not just reading facts, he/she is involved in discovering them. This book contains exciting activities that you can do at home but with some help from an adult. Follow the steps down to the T and make sure to keep records of your progress and results. Use this experiment book today!

101 SCIENCE EXPERIMENTS.

Thienemann Verlag
Super Science Light and Sound Experiments is bursting with 10 super kids' science experiments.
- Photographic step-by-

step guide to each experiment. - Key scientific concepts explained and put to the test. - Notes for parents, teachers and helpers on support and safety. Super Science Light and Sound Experiments will get kids aged 7+ excited about science, learning how light travels and why we hear sounds. # With clear, vibrant photographs and step-by-step instructions, confident kids will be able to approach the experiments alone. # Each experiment has been designed with children in mind, so they are all clearly labelled with difficulty ratings and if extra adult assistance is required. # Interactive learning is encouraged further with a fun quiz to allow kids to recall what they have discovered. # A detailed glossary explains difficult concepts so children can work independently. # Fun experiments featured in Super Science Experiments Light and Sound: # Seeing sound: You can't see sound, but with this clever experiment it is made possible! # Rainbow colours: Create your own rainbow! # Changing colours: Discover how your eyes add colours and how filters block out

colours!

Die spannendsten

Outdoor-Experimente für

Kinder Crystal Chottut

Provides instructions for simple experiments, both indoors and outdoors, using readily available materials, that demonstrate scientific facts about the natural world, the human body, and the basic laws of physics.

101 Science Experiments

Arcturus Publishing

This exciting book shows you how to have fun with 101 Science Games.

There is little doubt that science experiments can be quite interesting and useful in solving the mysteries of nature. In fact, it is the science that has led man from the lantern and the bullock-

cart age to the Electronics and Supersonic Jet age. This book of projects will acquaint you with the basic principles of specific applications. Now, you too can prepare for your next science fair.

Das Universum - Was unsere Welt zusammenhält

Expedition Natur
Describes 101 science experiments or activities that can be done with household items and easily found ingredients.
V&S Publishers
Provides instructions for 101 science experiments for fourth through seventh grade students which teach about temperature, motion, chemical reactions, and pressure.

101 Great Science Experiments Rockridge Press

Contains illustrated, step-by-step instructions for 150 science projects, each with an introductory explanation, and notes on

materials; grouped by subject with coverage of the Earth, natural wonders close to home, physical and material marvels, and travel and transport.

101 Science Games

Highlights
Forget about mad scientists and messy laboratories! This incredible, interactive guide for children showcases 101 absolutely awesome experiments you can do at home. Find out how to make a rainbow, build a buzzer, see sound, construct a circuit, bend light, play with shadows, measure the wind, weigh air, and create an underwater volcano. The astonishing variety of experiments are all very easy and entirely safe, with step-by-step text and everyday ingredients. Biology, chemistry, and physics are brought to life, showing budding young

scientists that science is all around us all the time. As you have fun trying out experiments with friends and family, core scientific principles are presented in the most memorable way. With chapters covering important topics such as colour, magnets, light, senses, electricity, and motion, the laws of science are introduced in crystal-clear text alongside specially commissioned full-colour photography for children to understand. Follow in the footsteps of Albert Einstein, Marie Curie, and all the other great minds with 101 Great Science Experiments and learn the secrets of science you'll never forget.

101 Great Science Experiments Dorling Kindersley Ltd
